BILLING CODE 4140-01-M

ACTION: Notice of funding availability for grant program to provide substance abuse treatment and reentry services to sentenced juveniles and young offenders returning to the community from the criminal justice system (short title: Young Offender Reentry Program).

SUMMARY: The Substance Abuse and Mental Health Services Administration (SAMHSA) Center for Substance Abuse Treatment (CSAT) announces the availability of FY 2003 funds for grants for the following activity. This notice is not a complete description of the activity; potential applicants *must* obtain a copy of the Request for Applications (RFA), including part I, Grant Program to Provide Substance Abuse Treatment and Reentry Services to Sentenced Juveniles and Young Offenders Returning to the Community from the Criminal Justice System (TI 03-001), and part II, General Policies and Procedures Applicable to all SAMHSA Applications for Discretionary Grants and Cooperative Agreements, before preparing and submitting an application.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Fiscal Year (FY) 2003 Funding Opportunities

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

Activity	Application dead-line	Est. funds FY 2003	Est. No. of awards	Project period
Grant Program to Provide Substance Abuse Treatment and Reentry Services to Sentenced Juveniles and Young Offenders Returning to the Community from the Criminal Justice System.	Jan. 17, 2003	\$6.0 million	12-14	4 years

The actual amount available for the award may vary, depending on unanticipated program requirements and the number and quality of applications received. This program is being announced prior to the annual appropriation for FY 2003 for SAMHSA's programs. Applications are invited based on the assumption that sufficient funds will be appropriated for FY 2003 to permit funding of a reasonable number of applications being hereby solicited. This program is being announced in order to allow applicants sufficient time to plan and prepare applications. Solicitation of applications in advance of a final appropriation will also enable the award of appropriated grant funds in an expeditious manner and thus allow prompt implementation and evaluation of promising practices. All applicants are reminded, however,

that we cannot guarantee sufficient funds will be appropriated to permit SAMHSA to fund any applications. This program is authorized under section 509 of the Public Health Service Act. SAMHSA's policies and procedures for peer review and Advisory Council review of grant and cooperative agreement applications were published in the **Federal Register** (Vol. 58, No. 126) on July 2, 1993.

General Instructions: Applicants must use application form PHS 5161-1 (Rev. 7/00). The application kit contains the two-part application materials (complete programmatic guidance and instructions for preparing and submitting applications), the PHS 5161-1 which includes standard form 424 (face page), and other documentation and forms. Application kits may be obtained from: National Clearinghouse for Alcohol and Drug Information

(NCADI), PO Box 2345, Rockville, MD 20847-2345. Telephone: 1-800-729-6686.

The PHS 5161-1 application form and the full text of the grant announcement are also available electronically via SAMHSA's World Wide Web home page: <http://www.samhsa.gov> (click on "Grant Opportunities").

When requesting an application kit, the applicant must specify the particular announcement number for which detailed information is desired. All information necessary to apply, including where to submit applications and application deadline instructions, are included in the application kit.

Purpose: The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Treatment (CSAT), is seeking applications for Fiscal Year 2003 funds to expand and/or enhance substance

abuse treatment and related reentry services in agencies currently providing supervision of and services to sentenced juvenile and young adult offenders returning to the community from incarceration for criminal/juvenile offenses. Applicants are expected to form stakeholder partnerships that will plan, develop and provide community-based substance abuse treatment and related reentry services for the targeted populations. Because reentry transition must begin in the correctional or juvenile facility before release, funding may be used for limited activities in institutional correctional settings in addition to the expected community-based services.

Eligibility: Public and domestic private non-profit entities may apply. For example, the following may apply: State and local governments; Indian Tribes and tribal organizations; courts; community-based organizations; and faith-based organizations.

Availability of Funds: It is expected that approximately \$6 million will be available for FY 2003. Approximately 12–14 awards will be made. The average annual award will range from \$300,000 to \$500,000 in total costs (direct and indirect). The total funds available and actual funding levels will depend on the receipt of an appropriation. Annual continuation of the award depends on the availability of funds and progress achieved.

Period of Support: An award may be requested for a project period of up to 4 years.

Criteria for Review and Funding:
General Review Criteria: Competing applications requesting funding under this activity will be reviewed for technical merit in accordance with established PHS/SAMHSA peer review procedures. Review criteria that will be used by the peer review groups are specified in the application guidance material.

Award Criteria for Scored Applications: Applications will be considered for funding on the basis of their overall technical merit as determined through the peer review group and the appropriate National Advisory Council review process. Availability of funds will also be an award criterion. Additional award criteria specific to the programmatic activity may be included in the application guidance materials.

Catalog of Federal Domestic Assistance Number: 93.243.

Program Contact: For questions concerning program issues, contact: Kenneth W. Robertson, Public Health Advisor, Division of Services Improvement, CSAT/SAMHSA,

Rockwall II Building, Suite 740, 5600 Fishers Lane, Rockville, MD 20857. (301) 443-7612. E-Mail: kroberts@samhsa.gov.

For questions regarding grants management issues, contact: Steve Hudak, Division of Grants Management, OPS/SAMHSA, Rockwall II, 6th floor, 5600 Fishers Lane, Rockville, MD 20857. (301) 443-9666. E-Mail: shudak@samhsa.gov.

Public Health System Reporting Requirements: The Public Health System Impact Statement (PHSIS) is intended to keep State and local health officials apprised of proposed health services grant and cooperative agreement applications submitted by community-based nongovernmental organizations within their jurisdictions.

Community-based nongovernmental service providers who are not transmitting their applications through the State must submit a PHSIS to the head(s) of the appropriate State and local health agencies in the area(s) to be affected not later than the pertinent receipt date for applications. This PHSIS consists of the following information:

- a. A copy of the face page of the application (standard Form 424).
- b. A summary of the project (PHSIS), not to exceed one page, which provides:
 - (1) A description of the population to be served.
 - (2) A summary of the services to be provided.
 - (3) A description of the coordination planned with the appropriate State or local health agencies.

State and local governments and Indian Tribal Authority applicants are not subject to the Public Health System Reporting Requirements. Application guidance materials will specify if a particular FY 2003 activity is subject to the Public Health System Reporting Requirements.

PHS Non-use of Tobacco Policy Statement: The PHS strongly encourages all grant and contract recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care, or early childhood development services are provided to children. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

Executive Order 12372: Applications submitted in response to the FY 2003 activity listed above are subject to the intergovernmental review requirements

of Executive Order 12372, as implemented through DHHS regulations at 45 CFR part 100. E.O. 12372 sets up a system for State and local government review of applications for Federal financial assistance. Applicants (other than Federally recognized Indian tribal governments) should contact the State's Single Point of Contact (SPOC) as early as possible to alert them to the prospective application(s) and to receive any necessary instructions on the State's review process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. A current listing of SPOCs is included in the application guidance materials or on SAMHSA's website under "Assistance with Grant Applications". The SPOC should send any State review process recommendations directly to: Division of Extramural Activities, Policy, and Review, Substance Abuse and Mental Health Services Administration, Parklawn Building, Room 17-89, 5600 Fishers Lane, Rockville, Maryland 20857.

The due date for State review process recommendations is no later than 60 days after the specified deadline date for the receipt of applications. SAMHSA does not guarantee to accommodate or explain SPOC comments that are received after the 60-day cut-off.

Dated: November 14, 2002.

Richard Kopanda,

Executive Officer, Substance Abuse and Mental Health Services Administration.
