June 16, 2003.

New Athens Generating Company, LLC, New Covert Generating Company, LLC, New Harquahala Generating Company, and New Millennium Power Partners, LLC (collectively, "Applicants") filed applications for market-based rate authority, with accompanying tariffs. The proposed tariffs provide for the sale of capacity, energy and ancillary services at market-based rates, resale of firm transmission rights, and reassignment of transmission capacity. Applicants also requested waiver of various Commission regulations. In particular, Applicants requested that the Commission grant blanket approval under 18 CFR part 34 of all future issuances of securities and assumptions of liability by Applicants.

On June 6, 2003, pursuant to delegated authority, the Director, Division of Tariffs and Market Development—South, granted the request for blanket approval under part 34, subject to the following:

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is July 7, 2003.

Absent a request to be heard in opposition by the deadline above, Applicants are authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of Applicants, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of Applicants' issuances of securities or assumptions of liability.
