BILLING CODE 3410-02-P

FEDERAL RESERVE SYSTEM

12 CFR Part 202

[Regulation B; Docket No. R-1008]

Equal Credit Opportunity

AGENCY: Board of Governors of the Federal Reserve System. **ACTION:** Technical amendment.

SUMMARY: The Board is publishing a technical amendment to Regulation B (Equal Credit Opportunity). The amendment updates the model application form "Uniform Residential Loan Application" (Freddie Mac 65/Fannie Mae 1003) in Appendix B of the regulation.

DATES: The amendment is effective January 1, 2004.

FOR FURTHER INFORMATION CONTACT: Minh-Duc T. Le, Attorney, Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System, Washington, DC 20551, at (202) 452–3667 or (202) 452–2412. For users of Telecommunications Device for the Deaf (TDD) *only*, contact (202) 263–4869.

SUPPLEMENTARY INFORMATION:

I. Background

The Equal Credit Opportunity Act (ECOA), 15 U.S.C. 1691–1691f, makes it unlawful for a creditor to discriminate against an applicant in any aspect of a credit transaction on the basis of the applicant's national origin, marital status, religion, sex, color, race, age (provided the applicant has the capacity to contract), receipt of public assistance benefits, or the good faith exercise of a right under the Consumer Credit Protection Act (15 U.S.C. 1601 *et. seq.*). The ECOA is implemented by the Board's Regulation B.

On March 5, 2003, the Board published a final rule amending Regulation B (68 FR 13144) after a comprehensive review of the regulation. Appendix B contains model application forms, including joint Freddie Mac/ Fannie Mae "Uniform Residential Loan Application" (Form 65/1003) for use in certain residential mortgage transactions. At the time the final rule was issued, Freddie Mac and Fannie Mae were in the process of revising Form 65/1003. This technical amendment to Regulation B replaces the prior version of Form 65/1003 with the new form that Freddie Mac/Fannie Mae have adopted. Creditors should continue to use the current model form until January 1, 2004.

List of Subjects in 12 CFR Part 202

Banks, Banking, Credit, Federal Reserve System, Mortgages.

■ For the reasons set forth in the preamble, the Board amends 12 CFR Part 202 as follows:

PART 202—EQUAL CREDIT OPPORTUNITY ACT (REGULATION B)

■ 1. The authority citation for part 202 continues to read as follows:

Authority: 15 U.S.C. 1691–1891f.

■ 2. Appendix B is amended by removing the joint Freddie Mac/Fannie Mae "Uniform Residential Loan Application" (Form 65/1003) dated 10/ 92 and adding the joint Freddie Mac/ Fannie Mae "Uniform Residential Loan Application" (Form 65/1003) dated 01/ 04 in its place.

APPENDIX B TO PART 202—MODEL APPLICATION FORMS

Uniform Residential Loan Application

This application is designed to be completed by the applicant(s) with the Lender's assistance. Applicants should complete this form as "Borrower" or "Co-Borrower," as applicable. Co-Borrower information must also be provided (and the appropriate box checked) when income or assets of a person other than the "Borrower" (including the Borrower's spouse) will be used as a basis for loan qualification, but his or her liabilities must be considered because the Borrower resides in a community property tate, the security property is located in a community property state, es a basis for repayment of the loan.

14 CFR Part 39

[Docket No. 2001–NM–370–AD; Amendment 39–13296; AD 2003–18–05]

RIN 2120-AA64

Airworthiness Directives; Boeing Model 757 Series Airplanes Powered by Pratt & Whitney Engines

AGENCY: Federal Aviation Administration, DOT. **ACTION:** Final rule.

SUMMARY: This amendment supersedes an existing airworthiness directive (AD), applicable to certain Boeing Model 757 series airplanes, that currently requires modification of the nacelle strut and wing structure. This amendment reduces a certain compliance time in the existing AD. The actions specified by this AD are intended to prevent fatigue cracking in primary strut structure and consequent reduced structural integrity of the strut. This action is intended to address the identified unsafe condition. **DATES:** Effective October 16, 2003.

The incorporation by reference of Boeing Service Bulletin 757–54–0034, Revision 1, dated October 11, 2001, as listed in the regulations, is approved by the Director of the Federal Register as of October 16, 2003.

The incorporation by reference of certain other publications, as listed in the regulations, was approved previously by the Director of the Federal Register as of November 13, 2000 (65 FR 59703, October 6, 2000).

ADDRESSES: The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, PO Box 3707, Seattle, Washington 98124–2207. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT:

Dennis Stremick, Aerospace Engineer, Airframe Branch, ANM–120S, FAA, Seattle Aircraft Certification Office, 1601 Lind Avenue, SW., Renton, Washington 98055–4056; telephone (425) 917–6450; fax (425) 917–6590.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) by superseding AD 2000–20–09, amendment 39–11920 (65 FR 59703, October 6, 2000), which is applicable to certain Boeing Model 757 series airplanes, was published in the **Federal Register** on June 18, 2003 (68 FR 36499). The action proposed to continue to require modification of the nacelle strut and wing structure. The action also proposed to reduce a certain compliance time in the existing AD.

Comments

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were submitted in response to the proposal or the FAA's determination of the cost to the public.

Conclusion

The FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

Changes to 14 CFR Part 39/Effect on the AD

On July 10, 2002, the FAA issued a new version of 14 CFR part 39 (67 FR 47997, July 22, 2002), which governs the FAA's airworthiness directives system. The regulation now includes material that relates to altered products, special flight permits, and alternative methods of compliance (AMOCs). Because we have now included this material in part 39, only the office authorized to approve AMOCs is identified in each individual AD. However, for clarity and consistency in this final rule, we have retained the language of the NPRM regarding that material.

Change to Labor Rate Estimate

We have reviewed the figures we have used over the past several years to calculate AD costs to operators. To account for various inflationary costs in the airline industry, we find it necessary to increase the labor rate used in these calculations from \$60 per work hour to \$65 per work hour. The cost impact information, below, reflects this increase in the specified hourly labor rate.

Cost Impact

There are approximately 317 airplanes of the affected design in the worldwide fleet. The FAA estimates that 278 airplanes of U.S. registry will be affected by this AD. Since this AD will merely reduce the compliance time for certain actions required by AD 2000– 20–09 (Service Bulletin 757–54–0036), it will add no additional costs, and will require no additional work to be performed by affected operators. The current costs associated with AD 2000– 20–09 are reiterated in their entirety (as follows) for the convenience of affected operators:

It will take approximately 800 work hours per airplane to accomplish the required modification of the nacelle strut and wing structure described in Boeing Service Bulletin 757–54–0034, at an average labor rate of \$65 per work hour. Required parts will be provided at no cost by the airplane manufacturer. Based on these figures, the cost impact of this required modification on U.S. operators is estimated to be \$14,456,000, or \$52,000 per airplane.

It will take approximately 26 work hours per airplane to accomplish the actions described in Boeing Service Bulletin 757–54–0027, Revision 1, at an average labor rate of \$65 per work hour. Required parts will be provided at no cost by the airplane manufacturer. Based on these figures, the cost impact of these required actions on U.S. operators is estimated to be \$469,820, or \$1,690 per airplane.

It will take approximately 90 work hours per airplane to accomplish the actions described in Boeing Service Bulletin 757–54–0036, at an average labor rate of \$65 per work hour. Required parts will be provided at no cost by the airplane manufacturer. Based on these figures, the cost impact of these required actions on U.S. operators is estimated to be \$1,626,300, or \$5,850 per airplane.

The cost impact figures discussed above are based on assumptions that no operator has yet accomplished any of the requirements of this AD action, and that no operator would accomplish those actions in the future if this AD were not adopted. The cost impact figures discussed in AD rulemaking actions represent only the time necessary to perform the specific actions actually required by the AD. These figures typically do not include incidental costs, such as the time required to gain access and close up, planning time, or time necessitated by other administrative actions.

Regulatory Impact

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States,
