the Government Printing Office site at http://www.access.gpo//davisbacon. They are also available electronically by subscription to the Davis-Bacon Online service (http://davisbacon.fedworld.gov) of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1–800–363–2068. This subscription offers value-added features such as electronic delivery of modified wage decisions directly to the user's desktop, the ability to access prior wage decisions issued during the year, extensive Help desk support, etc.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 512–1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the six separate Volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC, this 30th day of October, 2003.

Carl J. Poleskey,

Chief, Branch of Construction Wage Determinations.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

National Advisory Committee on Ergonomics, Call for Abstracts

AGENCY: Occupational Safety and Health Administration (OSHA), Labor. **ACTION:** Notice; extension of time to

submit abstracts.

SUMMARY: On October 6, 2003, OSHA published a notice (68 FR 57713) soliciting abstracts from persons wishing to make presentations at a symposium entitled "Musculoskeletal and Neurovascular Disorders—the State of the Research Regarding Workplace Etiology and Prevention." This symposium is scheduled to be held in conjunction with the fourth meeting of the National Advisory Committee on Ergonomics in January 2004. Abstracts were originally due on November 5, 2003. The Agency has decided to extend the deadline for submission of abstracts. Interested persons are asked to refer to

the original October 6, 2003 notice for details on content and format for abstracts.

DATES: Abstracts are due December 1, 2003. The symposium will take place on January 27, 2004.

ADDRESSES: The Symposium will be held in Washington, DC. Submit abstracts to MaryAnn Garrahan, Director, Office of Technical Programs and Coordination Activities, OSHA, U.S. Department of Labor, Room N–3655, 200 Constitution Avenue, NW., Washington, DC 20210. Phone: (202) 693–2144; Fax: (202) 693–1644.

FOR FURTHER INFORMATION CONTACT:

OSHA, Office of Communications, Room N–3647, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. Phone: (202) 693–1999.

SUPPLEMENTARY INFORMATION: In conjunction with NACE's fourth meeting in January 2004, a symposium is being convened to enable the committee to hear from experts in ergonomics. In its October 6, 2003 **Federal Register** notice, OSHA provided the public with information on its plans for the symposium, along with detailed materials to help interested persons to submit abstracts for consideration. Abstracts were originally due on November 5, 2003. However, the Agency is now extending the period for submission of abstracts through December 1, 2003.

Rather than repeating all of the relevant information contained in the October 6, 2003 notice, OSHA asks interested persons to refer directly to that notice for guidance in submitting abstracts. The October 6 notice is available on OSHA's Web site at http://www.osha.gov/FedReg_osha_pdf/FED20031006.pdf.

Authority: This notice was prepared under the direction of John L. Henshaw, Assistant Secretary of Labor for Occupational Safety and Health. It is issued under the Federal Advisory Committee Act (5 U.S.C. App. 2), GSA's FACA Regulations (41 CFR Part 102– 3), and DLMS 3 Chapter 1600.

Signed at Washington, DC, this 4th day of November, 2003.

John L. Henshaw,

Assistant Secretary of Labor. [FR Doc. 03–28092 Filed 11–6–03; 8:45 am] BILLING CODE 4510–26–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-237 and 50-249]

Dresden Nuclear Power Station, Units 2 and 3; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Exelon Generation Company, LLC (the licensee) to withdraw its December 20, 2002, application for proposed amendment to Facility Operating License Nos. DPR–19 and DPR–25 for the Dresden Nuclear Power Station, Units 2 and 3, located in Grundy County, Illinois.

The proposed amendment would have revised the applicability of facility technical specifications pertaining to Reactor Protection System (RPS) instrumentation, main steam isolation valve closure and turbine condenser vacuum—low functions, to eliminate the requirement for these functions be operable while in Mode 2 with reactor pressure greater than or equal to 600 psig and delete the associated Required Action to align with the revised applicability of these functions.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on March 18, 2003, (68 FR 12952). However, by letter dated October 1, 2003, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated December 20, 2002, and the licensee's letter dated October 1, 2003, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, http:// www.nrc.gov/reading-rm/adams/html. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by email to pdr@nrc.gov.

Dated at Rockville, Maryland, this 2nd day of November 2003.

For the Nuclear Regulatory Commission.

Maitri Banerjee,

Project Manager, Section 2, Project Directorate III, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-7580]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment for Fansteel, Inc.— Muskogee, Oklahoma License No. SMB-911

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability of Environmental Assessment and Finding of No Significant Impact.

FOR FURTHER INFORMATION, CONTACT:

James C. Shepherd, Project Manager, Decommissioning Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Mail Stop: T–7F27, Washington, DC 20555–0001. Telephone: (301) 415–6712; Fax number: (301) 415–5398; E-mail: jcs2@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory
Commission (NRC) is considering the
issuance of a license amendment to
Material License Number SMB–911,
issued to Fansteel, Inc. (the licensee), to
authorize decommissioning of its
facility located in Muskogee, Oklahoma.
NRC has prepared an Environmental
Assessment (EA) in accordance with the
requirements of 10 CFR part 51 and to
determine the environmental impacts of
approving the decommissioning plan
(DP), subsequent release of the site for
unrestricted use (as defined in 10 CFR
20.1402), and termination of the license.

II. EA Summary

The purpose of the proposed action is to authorize the decommissioning of Fansteel's Speciality Metals facility, in Muskogee, Oklahoma, for unrestricted use to allow for license termination. The Fansteel processing facility produced tantalum and columbium metals for approximately 33 years until operations ceased in 1990. The raw materials used for tantalum and columbium production contain uranium and thorium as naturally occurring trace constituents.

The concentration of radioactive species present in the process raw materials is sufficient to cause the ores and slags to be classified by the NRC as source material. Consequently, Fansteel operated under NRC License No. SMB—911 for the possession of source material. Fansteel was authorized by the NRC on March 25, 1997, to complete the processing of ore residues, calcium fluoride residues, and wastewater treatment residues containing uranium and thorium, in various site impoundments.

On July 24, 2003, Fansteel requested that NRC approve the DP for the facility, which when complete, would permit the site to be released for unrestricted use. Final approval for release of the site for unrestricted use and license termination would be contingent upon NRC approval of the licensee's final status survey report and making the findings required by the Commission's regulations following completion of the licensee's decommissioning activities. Fansteel's request for the proposed action was previously noticed in the Federal Register on August 11, 2003 (68 FR 47621), along with a notice of an opportunity to request a hearing and an opportunity to provide comments on the action and its environmental impacts.

III. Finding of No Significant Impact

The staff has prepared the EA in support of the proposed license amendment to decommission the site, terminate the license, and release the site for unrestricted use. On the basis of the EA, NRC has concluded that there are no significant environmental impacts from the proposed action, and the license amendment does not warrant preparation of an Environmental Impact Statement. It has been determined that a Finding of No Significant Impact (FONSI) is appropriate. The amendment will be issued following the publication of this Notice.

IV. Further Information

The EA and the documents related to this proposed action, including the application for the license amendment and supporting documentation, are available for inspection at NRC's Public Electronic Reading Room at http:// www.nrc.gov/reading-rm.html [ADAMS] Accession Nos.: ML030240051, ML030240062, ML030240109, ML030240134, and ML030240432 (Decommissioning Plan); ML032100530 (request for license amendment); ML032100558 (revised Decommissioning Plan Sections 15.3-15.5); and ML033040204 (Environmental Assessment, Finding of No Significant Impact). These

documents may also be examined, and/ or copied for a fee, at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852.

Dated at Rockville, Maryland, this 31st day of October, 2003.

For the Nuclear Regulatory Commission.

Janet R. Schlueter,

Acting Director, Division of Waste Management, Office of Nuclear Material Safety and Safeguards.

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension:

• Rule 17Ad–11; SEC File No. 270–261; OMB Control No. 3235–0274.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Rule 17Ad-11: Reports Regarding Aged Record Differences, Buy-ins, and Failure to Post Certificate Detail to Master Securityholder Files

Rule 17Ad-11 requires all registered transfer agents to report to issuers and the appropriate regulatory agency in the event that aged record differences exceed certain dollar value thresholds. An aged record difference occurs when an issuer's records do not agree with those of securityowners as indicated, for instance, on certificates presented to the transfer agent for purchase, redemption or transfer. In addition, the rule requires transfer agents to report to the appropriate regulatory agency in the event of a failure to post certificate detail to the master securityholder file within 5 business days of the time required by Rule 17Ad-10. Also, transfer agents must maintain a copy of each report prepared under Rule 17Ad-11 for a period of three years following the date of the report. These recordkeeping requirements assist the
