

services for a diverse public. This goal will be accomplished in part by promoting access to learning and information resources held by museums and libraries through electronic linkages. IMLS is seeking assistance in developing specific plans to collect information from the US library and museum communities to assess the digitization readiness and capacity of libraries and the technological readiness and capacity of museums. These information collections will be developed based on the varying characteristics of each community. A great deal of information has been collected on the internet access of libraries for internal and public access. The information IMLS collects should build on but not duplicate existing or ongoing collections.

*Agency:* Institute of Museum and Library Services.

*Title:* Technology and Digitization Survey.

*OMB Number:* n/a.

*Agency Number:* 3137.

*Frequency:* One time.

*Affected Public:* Museums, libraries and archives.

*Number of Respondents:* 2000.

*Estimated Time Per Respondent:* 1 hour.

*Total Burden Hours:* 2000.

*Total Annualized capital/startup costs:* 0.

*Total Annual costs:* 0.

BILLING CODE 7036-01-M

**NUCLEAR REGULATORY COMMISSION**

[Docket Nos. 50-237, 50-249]

**Exelon Generation Company, LLC, Dresden Nuclear Power Station, Units 2 and 3; Notice of Availability of Draft Supplement 17 to Generic Environmental Impact Statement and Public Meeting for the License Renewal of Dresden Nuclear Power Station, Units 2 and 3**

Notice is hereby given that the Nuclear Regulatory Commission (the Commission) has published a draft plant-specific supplement to the

Generic Environmental Impact Statement (GEIS), NUREG-1437, regarding the renewal of operating licenses DPR-19 and DPR-25 for an additional 20 years of operation at Dresden Nuclear Power Station (DNPS). DNPS is located in Grundy County, Illinois, approximately 8 miles east of Morris, Illinois. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources.

The draft supplement to the GEIS is available for public inspection in the NRC's Public Document Room (PDR) located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, or, electronically, from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm.html> (the NRC's Electronic Reading Room). Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR reference staff at 1-800-397-4209 or 301-415-4737, or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov). In addition, the Morris Area Public Library, located at 604 West Liberty Street, Morris, Illinois; and the Coal City Public Library District, located at 85 North Garfield Street, Coal City, Illinois, have agreed to make the draft supplement to the GEIS available for public inspection.

Any interested party may submit comments on the draft supplement to the GEIS for consideration by the NRC staff. To be certain of consideration, comments on the draft supplement to the GEIS and the proposed action must be received by February 24, 2004. Comments received after the due date will be considered if it is practical to do so, but the NRC staff is able to assure consideration only for comments received on or before this date. Written comments on the draft supplement to the GEIS should be sent to: Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Comments may be hand-delivered to the NRC at 11545 Rockville Pike, Rockville, Maryland, between 7:45 a.m. and 4:15 p.m. on Federal workdays. Electronic comments may be submitted to the NRC by e-mail at [DresdenEIS@nrc.gov](mailto:DresdenEIS@nrc.gov). All comments received by the Commission, including those made by Federal, State, and local agencies, Native American Tribes, or other interested persons, will be made

available electronically at the Commission's PDR in Rockville, Maryland, and from the PARS component of ADAMS.

The NRC staff will hold a public meeting to present an overview of the draft plant-specific supplement to the GEIS and to accept public comments on the document. The public meeting will be held on January 14, 2004, at Jennifer's Garden Banquet and Convention Center located at 555 West Gore Road, Morris, Illinois. There will be two sessions to accommodate interested parties. The first session will commence at 1:30 p.m. and will continue until 4:30 p.m. The second session will commence at 7 p.m. and will continue until 10 p.m. Both meetings will be transcribed and will include: (1) A presentation of the contents of the draft plant-specific supplement to the GEIS, and (2) the opportunity for interested government agencies, organizations, and individuals to provide comments on the draft report. Additionally, the NRC staff will host informal discussions one hour prior to the start of each session at the same location. No comments on the draft supplement to the GEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing, as discussed below. Persons may pre-register to attend or present oral comments at the meeting by contacting Mr. Louis L. Wheeler by telephone at 1-800-368-5642, extension 1444, or by e-mail at [dxw@nrc.gov](mailto:dxw@nrc.gov) no later than January 8, 2004. Members of the public may also register to provide oral comments within 15 minutes of the start of each session. Individual, oral comments may be limited by the time available, depending on the number of persons who register. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Mr. Wheeler's attention no later than January 8, 2004, to provide the NRC staff adequate notice to determine whether the request can be accommodated.

**FOR FURTHER INFORMATION CONTACT:** Mr. Louis L. Wheeler, License Renewal and Environmental Impacts Program, Division of Regulatory Improvement Programs, U.S. Nuclear Regulatory Commission, Mail Stop: O-11F1, Washington, DC 20555-0001. Mr. Wheeler may be contacted at the aforementioned telephone number or e-mail address.

Dated in Rockville, Maryland, this 2nd day of December, 2003.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-160]

### Georgia Institute of Technology, Georgia Institute of Technology Research Reactor; Notice of Approval of Decommissioning Plan and Notice of License Termination

The U.S. Nuclear Regulatory Commission (NRC) is noticing the approval of the decommissioning plan for the Georgia Institute of Technology (GT or the licensee) GT Research Reactor (GTRR) and is also noticing the termination of Facility Operating License No. R-97 for the GTRR.

The NRC has terminated the license of the decommissioned GTRR, which was in the Neely Nuclear Research Center in the north-central part of the GT campus in the city of Atlanta, Georgia, and has released the site for unrestricted use. The licensee requested termination of the license in a letter to NRC dated June 14, 2002. The GTRR was a 5 MW thermal, heavy-water-moderated, -cooled, and -reflected reactor that was fueled with uranium aluminum alloy plates. It was licensed and first operated in 1964 and had a licensed thermal power level of 1 MW, which was upgraded to 5000 kW thermal in 1974. The reactor was permanently shut down on November 17, 1995. The licensee submitted a decommissioning plan to NRC for review and approval in letters dated July 1, 1998, and February 8 and May 28, 1999. The decommissioning plan was approved by License Amendment No. 14 issued on July 22, 1999.

A "Notice and Solicitation of Comments Pursuant to 10 CFR 20.1405 and 10 CFR 50.82(b)(5) Concerning Proposed Action To Decommission Georgia Institute of Technology Georgia Tech Research Reactor" appeared in the **Federal Register** on February 1, 1999 (64 FR 4902). All comments received were considered by the staff during the review of the GTRR Decommissioning Plan.

The NRC completed its review of the GTRR Final Status Survey Report dated June 2002, which was submitted by the licensee to NRC by letter dated June 14, 2002. The report documented the level

of residual radioactivity remaining at the facility and stated that compliance with the criteria as approved in the NRC-approved decommissioning plan had been demonstrated.

Pursuant to 10 CFR 50.82(b)(6), the NRC staff has concluded that the decommissioning has been performed in accordance with the approved decommissioning plan and that the terminal radiation survey and associated documentation demonstrate that the facility and site are suitable for release in accordance with the criteria in the NRC-approved decommissioning plan. Further, on the basis of the decommissioning activities conducted by GT, the NRC's review of the licensee's final status survey report, the results of NRC inspections conducted at the GTRR, and the results of NRC confirmatory surveys, the NRC has concluded that the decommissioning process is complete and the facility and site are suitable to be released for unrestricted use. Based on the NRC staff's conclusions, Facility Operating License No. R-97 is terminated.

For further details see the licensee's application for decommissioning dated July 1, 1998, and February 8 and May 28, 1999; the July 22, 1999, License Amendment No. 14 to Facility Operating License No. R-97; the licensee's request for license termination dated June 14, 2002; the GTRR Final Status Survey Report dated June 2002, which was submitted to NRC by letter dated June 14, 2002; and NRC Inspection Report No. 50-160/2002-20, dated June 24, 2003, and corrected July 17, 2003. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records for GT dated after January 30, 2000, will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should call the NRC PDR reference staff at 1-800-397-4209 or 301-415-4737 or e-mail [pdr@nrc.gov](mailto:pdr@nrc.gov).

Dated in Rockville, Maryland, this 2nd day of December, 2003.

BILLING CODE 7590-01-P

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-315 and 50-316]

### Indiana Michigan Power Company, Donald C. Cook Nuclear Plant, Units 1 and 2; Notice of Acceptance for Docketing of the Application and Notice of Opportunity for Hearing Regarding Renewal of Facility Operating License Nos. DPR-58 and DPR-74 for an Additional 20-Year Period

The U.S. Nuclear Regulatory Commission (NRC or the Commission) is considering an application for the renewal of Operating License Nos. DPR-58 and DPR-74, which authorize the Indiana Michigan Power Company to operate D. C. Cook Nuclear Plant, at 3304 megawatts thermal for Unit 1 and at 3468 megawatts thermal for Unit 2, respectively. The renewed licenses would authorize the applicant to operate D. C. Cook Nuclear Plant, Units 1 and 2, for an additional 20-years beyond the period specified in the current licenses. The current operating licenses for D. C. Cook Nuclear Plant, Units 1 and 2, expire on October 25, 2014 and December 23, 2017, respectively.

On November 3, 2003, the Commission's staff received an application from Indiana Michigan Power Company, filed pursuant to 10 CFR Part 54, to renew the Operating License Nos. DPR-58 and DPR-74 for D. C. Cook Nuclear Plant, Units 1 and 2, respectively. A Notice of Receipt and Availability of the license renewal application, "Indiana Michigan Power Company, D. C. Cook Nuclear Plant, Units 1 and 2; Notice of Receipt and Availability of Application for Renewal of Facility Operating License Nos. DPR-58 and DPR-74 for an Additional 20-Year Period," was published in the **Federal Register** on November 10, 2003 (68 FR 63824).

The Commission's staff has determined that the Indiana Michigan Power Company has submitted sufficient information in accordance with 10 CFR 54.19, 54.21, 54.22, 54.23, and 51.53(c) that is acceptable for docketing. The current Docket Nos. 50-
