

SUPPLEMENTARY INFORMATION: The Indian Gaming Regulatory Act (IGRA) 25 U.S.C. 2701 *et seq.*, was signed into law on October 17, 1988. The IGRA established the National Indian Gaming Commission (Commission). Section 2710 of the IGRA authorizes the Commission to approve class II and class III tribal gaming ordinances. Section 2710(d)(2)(B) of the IGRA as implemented by 25 CFR 522.8 (58 FR 5811 (January 22, 1993)) requires the Commission to publish, in the **Federal Register**, approved class III gaming ordinances.

The IGRA requires all tribal gaming ordinances to contain the same requirements concerning ownership of the gaming activity, use of net revenues, annual audits, health and safety, background investigation and licensing of key employees. The Commission, therefore, believes that publication of each ordinance in the **Federal Register** would be redundant and result in unnecessary cost to the Commission. The Commission believes that publishing a notice of approval of each class III gaming ordinance is sufficient to meet the requirements of 25 U.S.C. 2710(d)(2)(B). Also, the Commission will make copies of approved class III ordinances available to the public upon request. Requests can be made in writing to the Office of General Counsel, National Indian Gaming Commission (Attention: Legal Staff Assistant), 1441 L Street, NW., Suite 9100, Washington, DC 20005.

On August 26, 2002, the Commission published a list of tribes for which the Chairman had previously approved tribal gaming ordinances authorizing class III gaming. It was later discovered that this list was incomplete. Therefore, the following list of tribes constitutes an update and correction to the notice published on August 26, 2002.

1. Apache Tribe of Oklahoma
2. Auberry Big Sandy Rancheria
3. California Valley Miwok Tribe (FKA Sheep Ranch Tribe of We-Wuk Indians)
4. Fort Belknap Indian Community
5. Karuk Tribe of California
6. Manchester Band of Pomo Indians
7. Match-E-Be-She-Wish Band of Pottawatomis Indians
8. Otoe-Missouri Tribe of Oklahoma
9. Seneca-Cayuga Tribe of Oklahoma
10. Seneca Nation of Indians of New York
11. Shawnee Tribe of Oklahoma
12. Viejas Band of Mission Indians
13. Wichita and Affiliated Tribes of

Oklahoma

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-3]

Notice of Issuance of Amendment to Materials License No. SNM-2502; Carolina Power & Light Company, H.B. Robinson Independent Spent Fuel Storage Installation

The U.S. Nuclear Regulatory Commission (NRC or the Commission) has issued Amendment 13 to Materials License SNM-2502 held by Carolina Power & Light Company (CP&L) for the receipt, possession, transfer, and storage of spent fuel at the H.B. Robinson

Independent Spent Fuel Storage Installation (ISFSI), located in Darlington County, South Carolina. The amendment is effective as of the date of issuance.

By application dated September 3, 2003, CP&L requested an amendment to Materials License SNM-2502 for the H.B. Robinson ISFSI to make editorial changes to the technical specifications. The request involved changing the drawing numbers referenced in section 5 of Appendix A of the technical specifications from the original ISFSI vendor's numbers to the H.B. Robinson plant's numbers used for drawing control. The requested changes do not affect the design, operation, or surveillance of the ISFSI.

This amendment complies with the requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR chapter I, which are set forth in the license amendment.

In accordance with 10 CFR 72.46(b)(2), a determination has been made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing on whether the action should be rescinded or modified.

The Commission has determined that the issuance of the amendment meets the criteria for a categorical exclusion set forth in 10 CFR 51.22(c)(10) of the regulations. Therefore, an environmental assessment need not be prepared in connection with issuance of the amendment.

The request for amendment was docketed under 10 CFR part 72, Docket 72-3. For further details with respect to this action, see the amendment request dated September 3, 2003, which is available for public inspection at the Commission's Public Document Room, One White Flint North Building, 11555 Rockville Pike, Rockville, MD or from the publicly available records component of NRC's Agencywide Documents Access and Management System (ADAMS) under Accession No. ML032510880. The NRC maintains ADAMS, which provides text and image files of NRC's public documents. These documents may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html>. If you do not

have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by email to pdr@nrc.gov.

Dated in Rockville, Maryland, this 9th day of December, 2003.

For the Nuclear Regulatory Commission.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-280 and 50-281]

Virginia Electric and Power Company; Surry Power Station, Units 1 and 2 Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment to Renewed Facility Operating License Nos. DPR-32 and DPR-37, issued to Virginia Electric and Power Company (the licensee), for operation of the Surry Power Station, Unit Nos. 1 and 2, Surry County, Virginia. As required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed action would allow the licensee to correct various administrative and editorial errors to the Surry Technical Specifications (TS) in accordance with the licensee's application dated December 19, 2002, as supplemented by letter dated October 20, 2003.

The Need for the Proposed Action

The proposed action corrects administrative and editorial errors to the Surry TS.

Environmental Impacts of the Proposed Action

The NRC has completed its evaluation of the proposed action and concludes, as set forth below, that there are no significant environmental impacts associated with the proposed changes to the Surry TS.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not have a potential to affect any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental

impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

The action does not involve the use of any different resource than those previously considered in the Final Environmental Statement for the Surry Power Station, Unit Nos. 1 and 2, dated May 1972 and June 1972, respectively.

Agencies and Persons Consulted

On November 21, 2003, the staff consulted with the Virginia State official, Mr. Les Foldesi of the Virginia Department of Radiological Health, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated December 19, 2002, as supplemented by letter dated October 20, 2003. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated in Rockville, Maryland, this 9th day of December, 2003.
