

5 p.m.–5:30 p.m.: *Public Comments* (Open)—The Committee will make time available for comments from the public.

**Wednesday, March 26, 2003,
Conference Room T-2B3, 11545
Rockville Pike, Rockville, Maryland**

Working Group on NRC and DOE Performance Assessments: Assumptions and Differences (Open) (Continued)

8:30 a.m.–8:35 a.m.: *Opening Statement* (Open)—The Chairman will make opening remarks regarding the conduct of today's sessions.

8:35 a.m.–10:35 a.m.: *Simplified Models of Key Contributors to Dose Traced through Various Modules* (Open)—The Committee will hear presentations by and hold discussions with representatives of the NRC's NMSS/DWM and DOE regarding the key contributors as traced through various modules in TSPA and TPA, including:

- Infiltration/tunnel dripping
- Source Term
- Near Field
- Unsaturated Zone
- Saturated Zone
- Biosphere and dose

10:50 a.m.–12:45 p.m.: *Presentations by representatives of the State of Nevada, Counties, Las Vegas Paiute Tribe, and Electric Power Research Institute* (Open)—The Committee will hear presentations by and hold discussions with representatives of the State of Nevada, Counties, Las Vegas Paiute Tribe, and Electric Power Research Institute regarding the working group on NRC and DOE performance assessments for the proposed high-level waste repository at Yucca Mountain, NV—assumptions and differences.

2:15 p.m.–3:15 p.m.: *Working Group Roundtable Panel Discussion on TSPA and TPA: Assumptions and Differences* (Open)—The Committee will have a roundtable panel discussion on the topics reviewed during the Working Group on NRC and DOE performance assessments for the proposed HLW repository at Yucca Mountain, NV—assumptions and differences.

3:15 p.m.–4:15 p.m.: *Committee Summary Discussion* (Open)—The Committee will summarize the day's discussion.

4:30 p.m.–5:20 p.m.: *Public Comments* (Open)—The Committee will summarize the major themes developed during the Working Group.

5:20 p.m.–5:30 p.m.: *Closing Comments by Working Group Chairman* (Open)—The Working Group Chairman will conclude the formal sessions with some brief remarks.

5:30 p.m.–6:15 p.m.: *Preparation of ACNW Report* (Open)—The Committee

will discussed the principal points in a proposed ACNW report on TSPA/TPA Working Group.

Thursday, March 27, 2003, Conference Room 2B3, 11545 Rockville Pike, Rockville, Maryland

8:30 a.m.–8:35 a.m.: *Opening Statement by the ACNW Chairman* (Open)—The ACNW Chairman will make opening remarks regarding the conduct of today's sessions.

8:35 a.m.–9:10 a.m.: *NRC/EPA Memorandum of Understanding (MOU) Related to Decommissioning and Decontamination of Contaminated Sites* (Open)—The Committee will hear presentations by and hold discussions with representatives of the NRC staff regarding this recent (October 2002) MOU between the NRC and the Environmental Protection Agency.

9:10 a.m.–9:45 a.m.: *Discussion of Self-Assessment Survey Preliminary Results* (Open)—The Committee will discuss the preliminary results of the self-assessment survey of the ACNW's recent activities.

10 a.m.–12 noon: *ACNW Action Plan* (Open)—The Committee members will discuss an update to the ACNW 2002–2003 Action Plan.

1 p.m.–2:45 p.m.: *ACNW Action Plan* (Open)—The Committee will continue discussions related to an update of ACNW 2002–2003 Action Plan.

2:45 p.m.–3 p.m.: *Miscellaneous* (Open)—The Committee will discuss matters related to the conduct of Committee activities and matters and specific issues that were not completed during previous meetings, as time and availability of information permit.

Procedures for the conduct of and participation in ACNW meetings were published in the **Federal Register** on October 11, 2002 (67 FR 63459). In accordance with these procedures, oral or written statements may be presented by members of the public, electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Committee, its consultants, and staff. Persons desiring to make oral statements should notify Mr. Howard J. Larson, ACNW (Telephone 301/415–6805), between 7:30 a.m. and 4 p.m. e.t., as far in advance as practicable so that appropriate arrangements can be made to schedule the necessary time during the meeting for such statements. Use of still, motion picture, and television cameras during this meeting will be limited to selected portions of the meeting as determined by the ACNW Chairman. Information regarding the

time to be set aside for taking pictures may be obtained by contacting the ACNW office, prior to the meeting. In view of the possibility that the schedule for ACNW meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should notify Mr. Howard J. Larson as to their particular needs.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefore can be obtained by contacting Mr. Howard J. Larson.

ACNW meeting notices, meeting transcripts, and letter reports are now available for downloading or viewing on the Internet at <http://www.nrc.gov/ACRSACNW>.

Videoteleconferencing service is available for observing open sessions of ACNW meetings. Those wishing to use this service for observing ACNW meetings should contact Mr. Theron Brown, ACNW Audiovisual Technician (301/415–8066), between 7:30 a.m. and 3:45 p.m. e.t., at least 10 days before the meeting to ensure the availability of this service. Individuals or organizations requesting this service will be responsible for telephone line charges and for providing the equipment and facilities that they use to establish the videoteleconferencing link. The availability of videoteleconferencing services is not guaranteed.

Dated: March 6, 2003.

Andrew L. Bates,

Advisory Committee Management Officer.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

Notice of Availability of Model Application Concerning Technical Specification Improvement To Extend Accumulator Completion Times for Westinghouse Plants Using the Consolidated Line Item Improvement Process

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

SUMMARY: Notice is hereby given that the staff of the Nuclear Regulatory Commission (NRC) has prepared a model application for changing the completion time from 1 hour to 24 hours for Condition B of Technical Specification (TS) 3.5.1,

"Accumulators," for Westinghouse nuclear steam supply system (NSSS) plants. The purpose of this model is to permit the NRC to efficiently process amendments that propose to modify TS to extend the completion time for accumulators. Licensees of nuclear power reactors to which the model applies may request amendments utilizing the model application.

DATES: The NRC staff issued a **Federal Register** notice (67 FR 46542, July 15, 2002) which provided a model safety evaluation (SE) and a model no significant hazards consideration (NSHC) determination relating to the extension of the completion time for TS actions related to accumulators. The NRC staff hereby announces that the model SE and NSHC determination may be referenced in plant-specific applications to extend the accumulator completion times from 1 hour to 24 hours. The staff has posted a model application on the NRC web site to assist licensees in using the consolidated line item improvement process (CLIIP) to request the subject TS change. The NRC staff can most efficiently consider applications based upon the model application if the application is submitted within a year of this **Federal Register** notice.

FOR FURTHER INFORMATION CONTACT: William Reckley, Mail Stop: O-7D1, Division of Licensing Project Management, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone 301-415-1323.

SUPPLEMENTARY INFORMATION:

Background

Regulatory Issue Summary 2000-06, "Consolidated Line Item Improvement Process for Adopting Standard Technical Specifications Changes for Power Reactors," was issued on March 20, 2000. The CLIIP is intended to improve the efficiency of NRC licensing processes. This is accomplished by processing proposed changes to the standard technical specifications (STS) in a manner that supports subsequent license amendment applications. The CLIIP includes an opportunity for the public to comment on proposed changes to the STS following a preliminary assessment by the NRC staff and finding that the change will likely be offered for adoption by licensees. The CLIIP directs the NRC staff to evaluate any comments received for a proposed change to the STS and to either reconsider the change or to proceed with announcing the availability of the change for proposed adoption by licensees. Those licensees opting to apply for the subject change to

TS are responsible for reviewing the staff's evaluation, referencing the applicable technical justifications, and providing any necessary plant-specific information. Each amendment application made in response to the notice of availability will be processed and noticed in accordance with applicable rules and NRC procedures.

This notice involves the extension from 1 hour to 24 hours of the completion time for Condition B of TS 3.5.1, which defines requirements for accumulators. Accumulators are part of the emergency core cooling system and consist of tanks partially filled with borated water and pressurized with nitrogen gas. The contents of the tank are discharged to the reactor coolant system if, as during a loss of coolant accident, the coolant pressure decreases to below the accumulator pressure. Condition B of TS 3.5.1 specifies a completion time to restore an accumulator to operable status when it has been declared inoperable for a reason other than the boron concentration of the water in the accumulator not being within the required range. This change was proposed for incorporation into the STS by the Westinghouse Owners Group participants in the Technical Specification Task Force (TSTF) and is designated TSTF-370. TSTF-370 is supported by WCAP-15049-A, "Risk-Informed Evaluation of an Extension to Accumulator Completion Times," dated May 18, 1999. TSTF-370 can be viewed on the NRC Web site (<http://www.nrc.gov>).

Applicability

This proposed TS change to revise the completion time from 1 hour to 24 hours for Condition B in TS 3.5.1 is applicable to all Westinghouse NSSS plants, regardless of plant vintage and number of loops.

The CLIIP does not prevent licensees from requesting an alternative approach or proposing the changes without the attached model SE and the NSHC. Variations from the approach recommended in this notice may, however, require additional review by the NRC staff and may increase the time and resources needed for the review.

Public Notices

In a notice in the **Federal Register** dated July 15, 2002 (67 FR 46542), the NRC staff requested comment on the use of the CLIIP to process requests to extend the completion time from 1 hour to 24 hours for Condition B of TS 3.5.1, "Accumulators."

TSTF-370, as well as the NRC staff's SE and model application, may be

examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, Public File Area 01 F21, 11555 Rockville Pike, Rockville, Maryland. Publicly available records are accessible electronically from the ADAMS Public Library component on the NRC Web site, (the Electronic Reading Room).

The NRC staff did not receive comments following the notice soliciting comments about the use of the CLIIP for licensees to adopt TSTF-370. As described in the model application prepared by the staff, licensees may reference in their plant-specific applications to adopt this change to TS the SE, NSHC determination, and environmental assessment previously published in the **Federal Register** (67 FR 46452, July 15, 2002).

Dated in Rockville, Maryland, this 6th day of March, 2003.

For the Nuclear Regulatory Commission.

Herbert N. Berkow,

Director, Project Directorate IV, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 35-27657]

Filings Under the Public Utility Holding Company Act of 1935, as Amended ("Act")

March 6, 2003.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated under the Act. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendment(s) is/are available for public inspection through the Commission's Branch of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by March 31, 2003, to the Secretary, Securities and Exchange Commission, Washington, DC 20549-0609, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for hearing
