## DEPARTMENT OF TRANSPORTATION

### Federal Railroad Administration

#### Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

#### Massachusetts Bay Transportation Authority

*(Waiver Petition Docket Number FRA-2004-18063)*

Massachusetts Bay Transportation Authority (MBTA) seeks a waiver of compliance with the Passenger Equipment Safety Standards, 49 CFR Part 238. Section 231(b), as it pertains to "The brake system design of passenger equipment ordered after September 8, 2000, or placed in service for the first time on or after September 9, 2002, shall not require an inspector to place himself on, under, or between components of the equipment to observe brake actuation and release". MBTA is in the process of receiving twenty-eight new bi-level passenger coaches equipped with tread brakes and inboard disk brakes. Placement of the inboard disk brake equipment does not allow for an inspector to observe the brake actuation or release without placing himself on, under, or between components of the equipment.

MBTA proposes that it be allowed to perform all brake inspections to the extent possible on a daily basis. The

twenty-eight cars would also be equipped with brake indicators, two per truck, that are fed down stream of the truck air brake cut out valves. MBTA proposes that these brake indicators' functionality would be tested at the required one-hundred-eighty day periodic inspection. In addition the twenty-eight new cars would receive an under car inspection to be performed by a "Qualified Maintenance Person" over a pit not less often than every five days. MBTA indicates that the pit inspection will allow for a full and complete inspection of all brake system components.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (FRA-2004-18063) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). ## DEPARTMENT OF TRANSPORTATION

### Federal Railroad Administration

#### Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System or Relief From the Requirements of Title 49 Code of Federal Regulations Part 236

Pursuant to Title 49 Code of Federal Regulations (CFR) Part 235 and 49 U.S.C. 20502(a), the following railroad has petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR Part 236 as detailed below.

#### Docket No. FRA-2004-17994

*Applicant: CSX Transportation, Incorporated*

Mr. N. M Choat, Chief Engineer, Communications and Signal, 4901 Belfort Road, Suite 130, Jacksonville, Florida 32256.

CSX Transportation, Incorporated seeks approval of the proposed modification of the traffic control system, on the main and siding tracks, on the Aberdeen Subdivision, Florence Service Lane, in North Carolina, consisting of the following:

1. At N.E. Apex, milepost S-169.94, convert the power-operated switch to hand operation, equipped with an electric lock, and remove the three associated controlled signals;
2. At Apex, milepost S-170.92, convert the north power-operated switch to hand operation, equipped with an electric lock, relocate the southbound controlled signal on the main track, and remove the southbound controlled signal and signal system from the north siding;
3. At A&R Connection, milepost S-228.60, convert the power-operated switch to hand operation, and remove the three associated controlled signals;
4. At Aberdeen, milepost S-228.70, convert the north power-operated switch to hand operation, equipped with an electric lock, relocate the southbound controlled signal on the main track, and remove the southbound controlled signal and signal system from the north siding;
5. At S. Aberdeen, milepost S-230.14, convert the south power-operated switch to hand operation, equipped with an electric lock, relocate the northbound controlled signal on the main track, and remove the northbound controlled signal from the north siding; and
6. At Addor, milepost S-232.7, convert the power-operated switch to

hand operation, equipped with an electric lock, and remove the three associated controlled signals.

The reason given for the proposed changes is to eliminate facilities no longer needed in present day operation.

Any interested party desiring to protest the granting of an application shall set forth specifically the grounds upon which the protest is made, and include a concise statement of the interest of the party in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.

All communications concerning this proceeding should be identified by the docket number and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590-0001. Communications received within 45 days of the date of this notice will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the internet at the docket facility's Web site at <http://dms.dot.gov>.

FRA wishes to inform all potential commenters that anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477-78) or you may visit <http://dms.dot.gov>.

FRA expects to be able to determine these matters without an oral hearing. However, if a specific request for an oral hearing is accompanied by a showing that the party is unable to adequately present his or her position by written statements, an application may be set for public hearing.

Issued in Washington, DC, on July 7, 2004.

## DEPARTMENT OF TRANSPORTATION

### Federal Railroad Administration

#### Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System or Relief from the Requirements of Title 49 Code of Federal Regulations Part 236

Pursuant to Title 49 Code of Federal Regulations (CFR) Part 235 and 49 U.S.C. 20502(a), the following railroad has petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR Part 236 as detailed below.

#### Docket No. FRA-2004-18485

##### Applicants

CSX Transportation, Incorporated, Mr. N. M Choat, Chief Engineer, Communications and Signal, 4901 Belfort Road, Suite 130, Jacksonville, Florida 32256.

Allegheny Valley Railroad Company, Mr. Russell A. Peterson, 25 South Broadway, Scottdale, Pennsylvania 15683.

Buffalo and Pittsburgh Railroad, Incorporated, Mr. David J. Collins, President, New York/Pennsylvania Region, 1200-C Scottsville Road, Suite 200, Rochester, New York 14624.

CSX Transportation, Incorporated, Allegheny Valley Railroad Company (AVR), and Buffalo and Pittsburgh Railroad, Incorporated (BPRR), jointly seek approval of the proposed discontinuance and removal of the traffic control system, on the single main track and sidings, between milepost BG-1.3, near Etna, Pennsylvania and milepost BG-55.4, near New Castle, Pennsylvania, on the Baltimore Division, P&W Subdivision. The proposed changes include the conversion of all power-operated switches to hand operation, installation of operative approach signals at mileposts BG-3.0 and BG-50.95, and designation of the method of operation to Rule 105, Other than Main Track. The proposal also includes retention of all highway-rail grade crossing warning system in the application area.

The reason given for the proposed changes is to eliminate facilities no longer needed in present day operation. AVR will take over operations between Glenwood, Pennsylvania and milepost BG-10.4, and BPRR will take over operations between mileposts BG-10.4 and BG-51.2.

Any interested party desiring to protest the granting of an application

shall set forth specifically the grounds upon which the protest is made, and include a concise statement of the interest of the party in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.

All communications concerning this proceeding should be identified by the docket number and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590-0001. Communications received within 45 days of the date of this notice will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the internet at the docket facility's Web site at <http://dms.dot.gov>.

FRA wishes to inform all potential commenters that anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477-78) or you may visit <http://dms.dot.gov>.

FRA expects to be able to determine these matters without an oral hearing. However, if a specific request for an oral hearing is accompanied by a showing that the party is unable to adequately present his or her position by written statements, an application may be set for public hearing.

Issued in Washington, DC, on July 7, 2004.
