Adoption of the Amendment

■ Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. Section 39.13 is amended by removing amendment 39-12392 (66 FR 43076, August 17, 2001), and by adding a new airworthiness directive (AD), amendment 39-13733, to read as follows:

2004-14-24 Empresa Brasileira de Aeronautica S.A. (EMBRAER):

Amendment 39-13733. Docket 2003-NM-81-AD. Supersedes AD 2001-17-01, Amendment 39-12392.

Applicability: Model EMB-120 series airplanes, certificated in any category; with serial numbers 120004 and 120006 through 120355 inclusive; that have been modified in accordance with EMBRAER Service Bulletin 120-31-0039, 120-31-0040, 120-31-0041, or 120-31-0042.

Compliance: Required as indicated, unless accomplished previously.

To prevent restricted movement of the aileron or elevator, which could result in reduced controllability of the airplane, accomplish the following:

Restatement of the Requirements of AD 2001-17-01: Inspection and Corrective Action, if Necessary

(a) Within 50 flight hours after August 27, 2001 (the effective date of AD 2001-17-01, amendment 39-12392), measure the gap

between the bellcrank and the body of the rotary variable inductive transducers (RVITs) of the elevator and aileron, in accordance with EMBRAER Alert Service Bulletin 120-31-A046, dated July 13, 2001.

(1) If the gap is within the limits specified by the alert service bulletin: Prior to further flight, tighten the bolt that attaches the bellcrank to the RVIT shaft to a torque of 40-45 inch pounds, in accordance with the alert service bulletin.

(2) If the gap is not within the limits specified by the alert service bulletin: Prior to further flight, accomplish all applicable corrective actions (including inspecting to detect damage of the connecting rod, replacing any damaged rod with a new rod having the same part number, and adjusting the gap between the bellcrank and the RVIT body), and tighten the bolt that attaches the bellcrank to the RVIT shaft to a torque of 40-45 inch pounds; in accordance with the alert service bulletin.

New Actions Required by This AD: Corrective Action

(b) Within 4,000 flight hours after the effective date of this AD: Replace the aileron and elevator RVIT bellcranks having part number (P/N) 123-82549-007 or P/N 123-82549-009, as applicable, with new, improved bellcranks having P/N 145-51146-001 or P/N 145-51147-001, respectively, in accordance with Paragraph 2.8 of the Accomplishment Instructions of EMBRAER Service Bulletin 120-31-0046, Revision 01, dated December 27, 2002.

(c) Replacement of the bellcranks accomplished before the effective date of this AD per EMBRAER Service Bulletin 120-31-0046, dated February 20, 2002, are considered acceptable for compliance with the corresponding action specified in this AD.

Alternative Methods of Compliance

(d) In accordance with 14 CFR 39.19, the Manager, International Branch, ANM-116, FAA, Transport Airplane Directorate, is authorized to approve alternative methods of compliance for this AD.

Incorporation by Reference

(e) The actions shall be done in accordance with EMBRAER Service Bulletin 120-31-0046, Revision 01, dated December 27, 2002; and EMBRAER Alert Service Bulletin 120-31-A046, dated July 13, 2001; as applicable.

(1) The incorporation by reference of EMBRAER Service Bulletin 120-31-0046, Revision 01, dated December 27, 2002, is approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

(2) The incorporation by reference of EMBRAER Alert Service Bulletin 120-31-A046, dated July 13, 2001, was approved previously by the Director of the Federal Register as of August 27, 2001 (66 FR 43076, August 17, 2001).

(3) Copies may be obtained from Empresa Brasileira de Aeronautica S.A. (EMBRAER), P.O. Box 343—CEP 12.225, Sao Jose dos Campos—SP, Brazil. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the National Archives and

Records Administration (NARA). For information on the availability of this material at NARA, call (202) 741-6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

Note 1: The subject of this AD is addressed in Brazilian airworthiness directive 2001-07-01R1, dated February 10, 2003.

Effective Date

(f) This amendment becomes effective on August 23, 2004.

Issued in Renton, Washington, on July 8, 2004.

Kevin M. Mullin,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

Revisions of Export Licensing Jurisdiction of Certain Types of Energetic Material and Other Chemicals Based on Review of the United States Munitions List

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: This final rule amends the Export Administration Regulations (EAR) to implement decisions to move export licensing jurisdiction of certain types of energetic materials and other chemicals from the Department of State, Directorate of Defense Trade Controls (DTC), to the Department of Commerce, Bureau of Industry and Security (BIS), and to move such jurisdiction for other chemicals from BIS to DTC.

DATES: This rule is effective July 19, 2004.

SUPPLEMENTARY INFORMATION:

Background

This rule, along with a complementary rule published by the Department of State (67 FR 70839, November 27, 2002) (hereinafter "November 27 rule"), implements decisions reached in an ongoing review of the United States Munitions List (USML) that is part of the Defense Trade Security Initiative. That initiative, announced on May 24, 2000 at a NATO ministerial meeting by the Secretary of State, includes annual review of portions of the USML with the objective of reviewing the entire list every four years. This rule adds some chemicals formerly on the USML to the Export Administration Regulations (EAR) and removes from the EAR other chemicals that were added to the USML by the November 27 rule.

This rule adds to the Commerce Control List (CCL) the following chemicals: chloropicrin; propyleneimine (2-methylaziridine) (CAS 75-55-8); liquid pepper, except when packaged in individual containers of 3 ounces (85.05 grams) or less; and oxidizers and mixtures thereof that are compounds composed of fluorine and one or more of the following—other halogens, oxygen, or nitrogen. In addition, three chemicals that were removed from the USML by the November 27 rule are not being added to the CCL because they were already listed thereon. Those chemicals are fluorine, guanidine nitrate, and nitroguanidine. This rule removes from the CCL: 0-ethyl-2-diisopropyl aminoethyl methylphosphonite (QL), ethyl phosphonyl difluoride, methylphosphonyl difluoride (DF), methyl phosphonous dichloride, methylphosphinyl difluoride, and methylphosphonyl dichloride because the November 27 rule placed them on the USML.

This rule also replaces the phrase "Office of Defense Trade Controls" with "Directorate of Defense Trade Controls" in several places to reflect the name change of that organization and revises the references to Libya and Syria in the License Requirements section of ECCN 1C350 to reflect the current provisions of the EAR that address export controls that apply to those countries.

The specific descriptions of the changes to the EAR made by this rule are as follows.

Chemicals Transferred from the United States Munitions List to the Commerce Control List

This rule adds chloropicrin to ECCN 1C355 by creating a new paragraph (b.1.d) in the List of Items Controlled section of that entry. This action imposes a reexport license requirement on chloropicrin that is subject to the EAR when reexported from one country that is not a party to the Chemical Weapons Convention (Convention) to another country not a party to the Chemical Weapons Convention, and when exported from the United States to a country not a party to the Convention if the exporter has not received an End Use Certificate issued by the importing country. This rule also imposes a license requirement for antiterrorism reasons for exports and reexports of chloropicrin to a limited number of destinations. The imposition of this control is described in a report to Congress on July 2, 2004. This rule removes a reference to chloropicrin as being under the export license jurisdiction of DTC in the Related Controls paragraph of the List of Items Controlled section of ECCN 1C355. This rule also removes and reserves paragraph (b.3) from ECCN 1C355 because the mixtures containing chloropicrin described therein are subsumed in the new paragraph (b.1.d.)

This rule adds propyleneimine (2-methylaziridine) (CAS 75-55-8) to ECCN 1C018 by adding a new paragraph (l) to the List of Items Controlled section of ECCN 1C018. This rule adds oxidizers and mixtures thereof that are compounds composed of fluorine and one or more of the following: other halogens, oxygen, or nitrogen to ECCN 1C018 by adding a new paragraph (m) to that entry and by adding "MT column 1" as a reason for control applicable only to the items covered by the new paragraph (m) because these oxidizers are listed on both the Missile Technology Control Regime (MTCR) Annex and the Munitions List maintained by the Wassenaar Arrangement. A note to new paragraph 1C018.m excludes nitrogen trifluoride (NF₃) in a gaseous state and refers readers to 1C992. Another note to that paragraph excludes chlorine trifluoride (ClF₃) from national security controls. Cross references are added to the "Related Controls" paragraphs of ECCN 1C018 and ECCN 1C238 to alert readers that both entries impose controls on ClF₃. The addition of the oxidizers and mixtures to new paragraph 1C018.m is a new foreign policy control requiring a report to Congress. The report was delivered to Congress on July 2, 2004.

This rule also adds language to the "Related Controls" paragraph of ECCN 1C111 to notify readers that oxidizers and mixtures thereof that are compounds composed of fluorine and one or more of other halogens, oxygen, or nitrogen, are controlled under ECCN 1C018.

This rule also amends the heading of ECCN 1C018 to add "and Certain Chemicals as follows (See List of Items Controlled)" because the chemicals added by this rule are controlled by that entry regardless of whether they are incorporated into a commercial charge or device. This rule also adds paragraph references to the Related Controls paragraph of ECCN 1C018 to clarify for the reader which paragraphs in those related ECCNs describe commercial charges and devices containing USML controlled materials, and which do not. USML controlled materials, when not incorporated into the charges and devices described in the paragraphs of those ECCNs, remain on the USML. However, the chemicals being added to those ECCNs by this rule are subject to the EAR unless they are incorporated into an item on the USML. This rule adds a sentence to the Related Controls paragraph of ECCN 1C018 to alert readers to that fact. This rule also corrects the citations to the USML at several places in both of those entries. This rule also imposes a license requirement on the chemicals that it adds to ECCN 1C018 for antiterrorism reasons to some destinations. The antiterrorism controls imposed by these changes are in a report submitted to Congress on July 2, 2004.

A note is added to ECCN 1C018 providing that when a chemical in paragraphs .1 or .m of ECCN 1C018 is incorporated into a commercial charge or device described in paragraphs .a through .k of ECCN 1C018 or of ECCN 1C992, the item is classified as the commercial charge or device.

The November 27 rule also removed liquid pepper from the USML. This rule adds liquid pepper, except when in individual containers with net weight of 3 ounces (85.05 grams) or less, to ECCN 1A984. This addition is a new foreign policy control requiring a report to Congress. The report was delivered to Congress on July 2, 2004.

This rule also revises the heading and list of items controlled paragraph in ECCN 1C992 to add nitrogen trifluoride in a gaseous state. It also adds a reference to 1C018 to the related controls paragraph of 1C992 alerting readers to the fact that nitrogen trifluoride when not in a gaseous state is controlled by 1C018.

Chemicals Removed From the USML That Are Not Being Added to the CCL

The November 27 rule published by the Department of State removed fluorine, guanidine nitrate, and nitroguanidine from the USML. These chemicals were already listed on the CCL prior to the publication of this rule. Guanidine nitrate and nitroguanidine will continue to be covered by ECCN 1C011 paragraphs .c and .d, which impose a license requirement to all destinations except Canada. Fluorine will continue to be subject to ECCN 1C999, which imposes a license requirement to North Korea.

Chemicals Transferred From the Commerce Control List to the United States Munitions List

This rule removes 0-ethyl-2-diisopropyl aminoethyl methylphosphonite (QL), ethyl phosphonyl difluoride, and methyl phosphonyl difluoride (DF), from the CCL by removing and reserving paragraph (a) in the "List of Items Controlled" section of ECCN 1C350. This rule also removes methylphosphonous dichloride, methylphosphonous difluoride, and methylphosphonyl dichloride from the Commerce Control List by removing and reserving subparagraphs (b.15) (b.16) and (b.17) in the List of Items Controlled section of ECCN 1C350. These six chemicals are now on the USML.

This rule removes references to ECCN 1C350.a from the following: paragraph (a)(2)(i)(A) of § 742.2; paragraphs (a)(1), (b)(1)(i), (b)(1)(ii), and (b)(1)(iii) of § 742.18; paragraph (q) of part 748, Supplement No. 2; the Reason for Control and License Requirements Notes paragraphs of the License Requirements section of ECCN 1C350; the Related Controls paragraph of the License Requirements section of 1C395; and the Related Controls Paragraph of the List of Items Controlled section of ECCN 1C995.

This rule removes the following references to chemicals that are now subject to the licensing jurisdiction of DTC and no longer subject to the licensing control of BIS. References to methylphosphonyl difluoride are removed from paragraphs (1), (4) and (8) and methylphosphonyl dichloride is removed from paragraph (8) of part 742, Supplement No. 1, which deals with contract sanctity dates. References to 0-ethyl-2-diisopropyl aminoethyl methylphosphonite (QL), ethyl phosphonyl difluoride, methyl phosphonyl difluoride (DF), methylphosphonous dichloride, methylphosphonous difluoride, and

methylphosphonyl dichloride and their synonyms are removed from paragraph (k) of § 770.2, which provides alternative names for chemicals subject to ECCN 1C350.

Conforming Changes to ECCN 1C350

In the "License Requirements" section of ECCN 1C350, this rule replaces the reference to part 742 of the EAR as the source of information about antiterrorism controls that apply to Syria with a reference to Supplement No. 1 to part 736. It also replaces the reference to part 746 as the source of information about antiterrorism controls that apply to Libya with a reference to part 742. These changes are being made to make this ECCN conform to recently published rules about Libya (69 FR 23626, April 29, 2004) and a general order implementing the Syria Accountability and Lebanese Sovereignty Act (69 FR 26766, May 14, 2004).

Savings Clause

Items that this rule transfers to BIS export licensing jurisdiction, and that have been authorized for export or reexport pursuant to a license issued by DTC, may be exported or reexported in accordance with the terms of that license until that license expires. Items that this rule removes from BIS licensing that have been authorized for export or reexport pursuant to a license issued by BIS may be exported or reexported in accordance with the terms of that license until that license expires. Items that will require an export or reexport license from BIS upon publication of this rule and that, prior to publication of this rule, were eligible for export or reexport under a License Exception or with no license required (NLR) may be exported or reexported under those conditions if they are on dock for loading, on lighter, laden aboard an exporting carrier or en route aboard a carrier to a port of export on August 2, 2004, pursuant to actual orders for export to a specific destination, and actually are exported from the United States or reexported from another country before August 16, 2004. Any such items not actually exported or reexported before midnight August 16, 2004 may be exported or reexported only if authorized by BIS.

Rulemaking Requirements

1. This final rule has been determined to be not significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to nor be subject to a penalty for failure to comply with a collection

of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously approved by the OMB under control numbers 0694-0088, "Multi-Purpose Application," which carries a burden hour estimate of 58 minutes to prepare and submit form BIS-748. Miscellaneous and recordkeeping activities account for 12 minutes per submission. Burden hours associated with the Paperwork Reduction Act and Office of Management and Budget control number 0694-0088 are not impacted by this regulation. Send comments regarding these burden estimates or any other aspect of these collections of information, including suggestions for reducing the burden, to David Rostker, OMB Desk Officer, by e-mail at david_rostker@omb.eop.gov or by fax to (202) 395-7285; and to the Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, P.O. Box 273, Washington, DC 20044.

3. This rule does not contain policies with Federalism implications as that term is defined under E.O. 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military and foreign affairs function of the United States (5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this final rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under the Administrative Procedure Act or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. Comments should be submitted to William Arvin, Office of Exporter Services, Bureau of Industry and Security, Department of Commerce, Room H2705, Washington, DC 20230.

Reason for Control: NS, MT, AT, UN

Control(s)	Country chart
NS applies to entire entry except as noted in 1C018.m.	NS column 1.
MT applies to 1C018.m except as noted therein.	MT Column 1.
AT applies to entire entry	AT Column 1.
UN applies to entire entry	Rwanda.

List of Items Controlled

Unit: * * *

Related Controls: (1) Explosive devices or charges in paragraphs .a through .k of this entry that utilize USML controlled energetic materials (See 22 CFR 121.1 Category V) are subject to the licensing authority of the U.S. Department of State, Directorate of

Defense Trade Controls if they have been specifically designed, developed, configured, adapted, or modified for a military application. (2) With the exception of slurries, cutters and severing tools, if the USML controlled materials utilized in devices and charges controlled by paragraphs .a through .k of this entry can be easily extracted without destroying the device or charge, then they are subject to the export licensing authority of the U.S. Department of State, Directorate of Defense Trade Controls. (3) Commercial prefabricated slurries and emulsions containing greater than 35% of USML controlled energetic materials are subject to the export licensing authority of the U.S. Department of State, Directorate of Defense Trade Controls. (4) The individual USML controlled energetic materials in paragraphs .a through .k of this entry, even when compounded with other materials, remain subject to the export licensing authority of the Department of State when not incorporated into explosive devices or charges controlled by this entry or 1C992. (5) The chemicals in paragraphs .l and .m of this entry, when incorporated into items listed on the United States Munitions List, become subject to the licensing jurisdiction of the U.S. Department of State, Directorate of Defense Trade Controls (6) *See also* ECCNs 1C011, 1C111, and 1C239 for additional controlled energetic materials. (7) *See* ECCN 1C238 for additional controls on chlorine trifluoride (ClF₃).

Related Definitions: (1) For purposes of this entry, the term “controlled materials” means controlled energetic materials (see ECCNs 1C011, 1C111, 1C239 and 22 CFR 121.1 Category V). (2) For purposes of this entry, the mass of aluminum powder, potassium perchlorate, and any of the substances listed in the note to the USML (see 22 CFR 121.1 Category V) (such as ammonium pictrate, black powder, etc.) contained in commercial explosive devices and in the charges are omitted when determining the total mass of controlled material.

Items:

a. Shaped charges specially designed for oil well operations, utilizing one charge functioning along a single axis, that upon detonation produce a hole; and

- a.1. Contain any controlled materials;
- a.2. Have a uniform shaped conical liner with an included angle of 90 degrees or less;
- a.3. Have more than 0.090 kg but not more than 2.0 kg of controlled materials; and

a.4. Have a diameter not exceeding 4.5 inches.

b. Detonating cord or shock tubes containing greater than 0.064 kg per meter (300 grains per foot), but not more than 0.1 kg per meter (470 grains per foot) of controlled materials;

c. Cartridge power devices containing greater than 0.70 kg, but not more than 1.0 kg of controlled materials;

d. Detonators (electric or nonelectric) and assemblies thereof containing greater than 0.01 kg, but not more than 0.1 kg of controlled materials;

e. Igniters containing greater than 0.01 kg, but not more than 0.1 kg of controlled materials;

f. Oil well cartridges containing greater than 0.015 kg, but not more than 0.1 kg of controlled materials;

g. Commercial cast or pressed boosters containing greater than 1.0 kg, but not more than 5.0 kg of controlled materials;

h. Commercial prefabricated slurries and emulsions containing greater than 10 kg and less than or equal to thirty-five percent by weight of USML controlled materials;

i. Cutters and severing tools containing greater than 3.5 kg, but not more than 10 kg of controlled materials;

j. Pyrotechnic devices when designed exclusively for commercial purposes (e.g., theatrical stages, motion picture special effects, and fireworks displays), and containing greater than 3.0 kg, but not more than 5.0 kg of controlled materials;

k. Other commercial explosive devices and charges, not controlled by 1C018.a through g above, when used for commercial applications and containing greater than 1.0 kg but not more than 5.0 kg of controlled materials;

l. Propyleneimine (2-methylaziridine) (CAS 75–55–8); or

m. Any oxidizer or mixture thereof that is a compound composed of fluorine and one or more of the following—other halogens, oxygen, or nitrogen.

Note: Nitrogen trifluoride (NF₃) in a gaseous state is controlled by ECCN 1C992 and not by 1C018.

Note: National security is not a reason for control for chlorine trifluoride.

Note: If a chemical in paragraphs .l or .m of 1C018 is incorporated into a commercial charge or device described in paragraphs .a through .k of ECCN 1C018 or in 1C992, the classification of the commercial charge or device applies to the item.

■ 12. In supplement No. 1 to part 774, Category 1—Materials, Chemicals, “Microorganisms,” and Toxins, Export Control Classification Number 1C111

revise the Related Controls paragraph in the List of Items Controlled section to read as follows:

■ 14. In supplement No. 1 to part 774, Category 1—Materials, Chemicals, “Microorganisms,” and Toxins—Export Control Classification Number 1C350, revise the License Requirements section and the Related Controls and Items paragraphs of the List of Items Controlled Section to read as follows:

1C350 Chemicals that may be used as precursors for toxic chemical agents

License Requirements

Reason for Control: CB, CW, AT

Control(s)	Country chart
CB applies to entire entry.	CB Column 2.

CW applies to 1C350 .b and .c. The Commerce Country Chart is not designed to determine licensing requirements for items controlled for CW reasons. A license is required, for CW reasons, to export or reexport

Schedule 2 chemicals and mixtures identified in 1C350.b to States not Party to the CWC (destinations not listed in Supplement No. 2 to part 745 of the EAR). A license is required, for CW reasons, to export Schedule 3 chemicals and mixtures identified in 1C350.c to States not Party to the CWC, unless an End-Use Certificate issued by the government of the importing country has been obtained by the exporter prior to export. A license is required, for CW reasons, to reexport Schedule 3 chemicals and mixtures identified in 1C350.c from a State not Party to the CWC to any other State not Party to the CWC. (See § 742.18 of the EAR for license requirements and policies for toxic and precursor chemicals controlled for CW reasons. See § 745.2 of the EAR for End-Use Certificate requirements that apply to exports of Schedule 3 chemicals to countries not listed in Supplement No. 2 to part 745 of the EAR.)

AT applies to entire entry. The Commerce Country Chart is not designed to determine licensing requirements for items controlled for AT reasons in 1C350. A license is required, for AT reasons, to export or reexport items controlled by 1C350 to Cuba, Iran, Iraq, Libya, North Korea, Sudan, and Syria. (See part 742 of the EAR for additional information on the AT controls that apply to Iran, North Korea, Sudan, and Libya. See part 746 of the EAR for additional information on the comprehensive trade sanctions that apply to Cuba, Iran, and Iraq. (See Supplement No. 1 to part 736 of the EAR for export controls on Syria.)

License Requirement Notes:

1. **SAMPLE SHIPMENTS:** Subject to the following requirements and restrictions, a license is not required for sample shipments when the cumulative total of these shipments does not exceed a 55-gallon container or 200 kg of a single chemical to any one consignee during a calendar year. A consignee that receives a sample shipment under this exclusion may not resell, transfer, or reexport the sample shipment, but may use the sample shipment for any other legal purpose unrelated to chemical weapons.

a. *Chemicals Not Eligible:*

A. [RESERVED]

B. *CWC Schedule 2 chemicals (States not Party to the CWC).* No CWC Schedule 2 chemical or mixture identified in 1C350.b is eligible for sample shipment to States not Party to the CWC (destinations not listed in Supplement No. 2 to part 745 of the EAR) without a license.

b. *Countries Not Eligible:* The following countries are *not* eligible to

receive sample shipments of any chemicals controlled by this ECCN without a license: Cuba, Iran, Iraq, Libya, North Korea, Sudan, Syria.

c. *Sample shipments that require an End-Use Certificate for CW reasons:* No CWC Schedule 3 chemical or mixture identified in 1C350.c is eligible for sample shipment to States not Party to the CWC (destinations not listed in Supplement No. 2 to part 745 of the EAR) without a license, unless an End-Use Certificate issued by the government of the importing country is obtained by the exporter prior to export (see § 745.2 of the EAR for End-Use Certificate requirements).

d. *Sample shipments that require a license for reasons set forth elsewhere in the EAR:* Sample shipments, as described in this Note 1, may require a license for reasons set forth elsewhere in the EAR. See, in particular, the end-use/end-user restrictions in part 744 of the EAR, and the restrictions that apply to embargoed countries in part 746 of the EAR.

e. *Quarterly report requirement.* The exporter is required to submit a quarterly written report for shipments of samples made under this Note 1. The report must be on company letterhead stationery (titled “Report of Sample Shipments of Chemical Precursors” at the top of the first page) and identify the chemical(s), Chemical Abstract Service Registry (C.A.S.) number(s), quantity(ies), the ultimate consignee’s name and address, and the date exported. The report must be sent to the U.S. Department of Commerce, Bureau of Industry and Security, P.O. Box 273, Washington, DC 20044, Attn: “Report of Sample Shipments of Chemical Precursors”.

2. **MIXTURES:**

a. Mixtures that contain precursor chemicals identified in ECCN 1C350, in concentrations that are below the levels indicated in 1C350.b through .d, are controlled by ECCN 1C395 or 1C995 and are subject to the licensing requirements specified in those ECCNs.

b. A license is not required for mixtures controlled under this ECCN when the controlled chemical in the mixture is a normal ingredient in consumer goods packaged for retail sale for personal use. Such consumer goods are classified as EAR99.

Note to Mixtures: Calculation of concentrations of AG-controlled chemicals:

a. *Exclusion.* No chemical may be added to the mixture (solution) for the sole purpose of circumventing the Export Administration Regulations;

b. *Percent Weight Calculation.* When calculating the percentage, by weight, of

components in a chemical mixture, include all components of the mixture, including those that act as solvents.

3. **COMPOUNDS.** Compounds created with any chemicals identified in this ECCN 1C350 may be shipped NLR (No License Required), without obtaining an End-Use Certificate, unless those compounds are also identified in this entry or require a license for reasons set forth elsewhere in the EAR.

4. **TESTING KITS:** Certain medical, analytical, diagnostic, and food testing kits containing small quantities of chemicals identified in this ECCN 1C350, are excluded from the scope of this ECCN and are controlled under ECCN 1C395 or 1C995. (Note that replacement reagents for such kits are controlled by this ECCN 1C350 if the reagents contain one or more of the precursor chemicals identified in 1C350 in concentrations equal to or greater than the control levels for mixtures indicated in 1C350.)

Technical Notes: 1. For purposes of this entry, a "mixture" is defined as a solid, liquid or gaseous product made up of two or more components that do not react together under normal storage conditions.

2. The scope of this control applicable to Hydrogen Fluoride (see 1C350.d.7 in the List of Items Controlled) includes its liquid, gaseous, and aqueous phases, and hydrates.

30 CFR Part 913

[IL-102-FOR]

Illinois Regulatory Program and Illinois Abandoned Mine Land Reclamation Plan

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule; technical amendment.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSM), are amending our regulations to reflect a change in the address for the Illinois Department of Natural Resources. We are also deleting information which is repetitive in nature. These actions are editorial in nature and are intended to provide accuracy to the agency's regulations.

This rule is being made effective immediately in order to provide the public with up-to-date information.

EFFECTIVE DATE: July 19, 2004.

FOR FURTHER INFORMATION CONTACT:

Andrew R. Gilmore, Director, Indianapolis Field Office, Minton-Capehart Federal Building, 575 North Pennsylvania Street, Room 301, Indianapolis, Indiana 46204. Telephone: (317) 226-6700. Internet address: IFOMAIL@osmre.gov.

SUPPLEMENTARY INFORMATION: We are amending our regulations at 30 CFR part 913 to reflect a change in the address for the Illinois Department of Natural Resources, Office of Mines and Minerals' Land Reclamation Division and Abandoned Mine Lands Reclamation Division. Illinois recently moved its offices to One Natural Resources Way, Springfield, Illinois. We are updating the addresses for the location of the publicly available copies of the Illinois regulatory program (Illinois program) and the Illinois Abandoned Mine Land Reclamation (AMLR) plan. These changes will ensure awareness of the current location where the public may inspect the Illinois program and the Illinois AMLR plan.

Technical Change

In this document, we are updating 30 CFR 913.10 and 913.20 to reflect the new location where the public may inspect copies of the Illinois program and the Illinois AMLR plan. We are also revising 30 CFR 913.25 by removing information regarding addresses that is duplicative of the information in 30 CFR 913.20.
