

petition is to be filed, such as the application or other supporting documents filed by the applicant, or otherwise available to the petitioner. Contentions may be amended or new contentions filed after the initial filing only with leave of the presiding officer.

Requesters/petitioners should, when possible, consult with each other in preparing contentions and combine similar subject matter concerns into a joint contention, for which one of the co-sponsoring requesters/petitioners is designated the lead representative. Further, in accordance with 10 CFR 2.309(f)(3), any requester/petitioner that wishes to adopt a contention proposed by another requester/petitioner must do so in writing within ten days of the date the contention is filed, and designate a representative who shall have the authority to act for the requester/petitioner.

In accordance with 10 CFR 2.309(g), a request for hearing and/or petition for leave to intervene may also address the selection of the hearing procedures, taking into account the provisions of 10 CFR 2.310.

III. Further Information

Documents related to this action, including the applications for renewals and supporting documentation, are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS accession number for the document related to this Notice is: Request for a Ten Year License Renewal (application enclosed), ML041530045. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at (800) 397-4209 or (301) 415-4737, or by e-mail to pdr@nrc.gov. These documents may also be examined, and/or copied for a fee, at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (First Floor), Rockville, MD 20852. The PDR is open from 7:45 a.m. to 4:15 p.m., Monday through Friday, except on Federal holidays.

Dated at Rockville, Maryland, this 19th day of July 2004.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-483]

Union Electric Company; Notice of Partial Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Union Electric Company (the licensee) to partially withdraw its June 27, 2003, application for proposed amendment to Facility Operating License No. NPF-30 for the Callaway Plant, Unit 1, located in Callaway County, Missouri.

The request for amendment to the operating license in the application dated June 27, 2003, would allow plant modifications in order to facilitate maintenance on the replacement steam generators (SGs) to be installed in Refueling Outage (RO) 14 (Fall 2005). The proposed modifications (1) replace the existing sludge lance platforms with new platforms to provide a larger platform area around each SG, and (2) cut a permanent access opening through the secondary shield wall to improve access to the sludge lance platforms, which are to be done in RO 13 (Spring 2004). To allow these modifications, the licensee requested approval of the use of (1) the ASCE 4-86 "100-40-40" method of combining components of seismic response loads, and (2) leak-before-break (LBB) methodology for the accumulator, pressurizer surge, and residual heat removal (RHR) lines to exclude the dynamic effects associated with large reactor coolant system branch line ruptures. The amendment approving the installation of the permanent access opening through the secondary shield wall and the use of LBB for the accumulator and RHR lines was issued April 12, 2004, and the opening was installed by the licensee in RO 13.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on July 22, 2003 (68 FR 43397) for the application for amendment dated June 27, 2003. However, by letters dated April 5 and July 2, 2004, the licensee withdrew

portions of its amendment request. The letter dated April 5, 2004, revised the original request for application of LBB on the pressurizer surge line and the letter dated July 2, 2004, withdrew its request to use the ASCE 4-86 methodology. The Commission has previously issued a Notice of Partial Withdrawal of Application for Amendment published in the **Federal Register** on April 20, 2004 (69 FR 21166) for the letter dated April 5, 2004. This Notice of Partial Withdrawal of Application for Amendment is for the letter dated July 2, 2004.

For further details with respect to this action, see the application for amendment dated June 27, 2003, and the licensee's letter dated July 2, 2004, which partially withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams/html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by email to pdr@nrc.gov.

Dated at Rockville, Maryland, this 20th day of July 2004.
