

delay to implement the proposed rule change. The PCX contends that these proposed rules are non-controversial as the Exchange is seeking to clarify its rules to conform to current practices for OTC securities. As a result, the Exchange believes that the proposed rule change does not raise any new regulatory issues, significantly affect the protection of investors or the public interest, or impose any significant burden on competition for the proposed rule change to become immediately operative upon filing. The Commission believes that waiving the 30-day operative period is consistent with the protection of investors and the public interest and, therefore, has determined to allow the proposed rule change to become effective and operative as of the date of the filing with the Commission.<sup>12</sup>
