

Respondents/Affected Entities: The affected entities are the 56 printing facilities which are participating in the PrintSTEP pilot in New Hampshire and St. Louis, Missouri, as well as the 2 State agencies implementing the pilots.

Estimated Number of Respondents: 58.

Frequency of Response: One-time response at the end of the pilot (including response to telephone survey and submission of written information).

Estimated Total Annual Hour Burden: 143 hours.

Estimated Total Annual Cost: \$5,000, includes \$0 annual capital/startup and SO&M costs.

Changes in the Estimates: There is a decrease of 1,857 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. Originally, the evaluation approach was going to include the use of a control group of printers. It was determined that this approach was not feasible. The decrease in hours is the result of not using a control group, as well as knowing the final number of printers who will be subject to the evaluation.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of particular interest to persons who work in agricultural settings or persons who are concerned about implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA); the Federal Food, Drug, and Cosmetic Act (FFDCA); and the amendments to both of these major pesticide laws by the Food Quality Protection Act (FQPA) of 1996. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this
