

Program. Section 51–2.4 of the regulations describes the criteria that the Committee must consider when adding a product or service to its Procurement List. One of these criteria is that a proposed addition must demonstrate a potential to generate employment for people who are blind or severely disabled. The Committee decided that evidence that employment will be generated for those individuals consists of recordkeeping that tracks direct labor and revenues for products or services sold through a JWOD Program contract. This recordkeeping can be done on each individual JWOD project or by product or service family.

In addition, § 51–4.3 of the regulations requires that nonprofit agencies keep records on direct labor hours performed by each worker and keep an individual record or file for each blind or severely disabled individual documenting that individual's disability and capabilities for competitive employment. The records that nonprofit agencies must keep in accordance with § 51–4.3 of the regulations constitute the bulk of the hour burden associated with this OMB control number.

This information collection renewal request seeks approval for the Committee to continue to ensure compliance with recordkeeping requirements established by the authority of the JWOD Act and set forth in the Act's implementing regulations and to ensure that the Committee has the ability to confirm the suitability of products and services on its Procurement List. The recordkeeping requirements described in this document are the same as those currently imposed on nonprofit agencies participating in the JWOD Program.
