

State Compact Officer, if the Authorized Recipient fails to provide a written report notifying the State Compact Officer/Chief Administrator or the FBI Compact Officer of a security violation, or refuses to or is incapable of taking corrective action to successfully resolve a security violation, the Compact Council or the United States Attorney General may suspend or terminate the exchange of CHRI with the Authorized Recipient pursuant to 28 CFR 906.2(d).

b. If the exchange of CHRI is suspended, it may be reinstated after satisfactory written assurances have been provided to the Compact Council Chairman or the United States Attorney General by the Compact Officer/Chief Administrator, the Authorized Recipient and the Contractor that the security violation has been resolved. If the exchange of CHRI is terminated, the Contractor's records (including media) containing CHRI shall be immediately deleted or returned as specified by the Authorized Recipient.

8.04 The Authorized Recipient shall provide written notice (through the State Compact Officer/Chief Administrator if applicable) to the FBI Compact Officer of the following:

a. The termination of a contract for security violations.

b. Security violations involving the unauthorized access to CHRI.

c. The Contractor's name and unique identification number, the nature of the security violation, whether the violation was intentional, and the number of times the violation occurred.

8.05 The Compact Officer/Chief Administrator, Compact Council and the United States Attorney General reserve the right to investigate or decline to investigate any report of unauthorized access to CHRI.

8.06 The Compact Officer/Chief Administrator, Compact Council, and the United States Attorney General reserve the right to audit the Authorized Recipient and the Contractor's operations and procedures at scheduled or unscheduled times. The Compact Council, the United States Attorney General, and the state are authorized to perform a final audit of the Contractor's systems after termination of the contract.

9.0 Miscellaneous Provisions

9.01 This Outsourcing Standard does not confer, grant, or authorize any rights, privileges, or obligations to any persons other than the Contractor, the Authorized Recipient, Compact Officer/Chief Administrator (where applicable), CJIS Systems Agency, and the FBI.

9.02 The following document is incorporated by reference and made part of this Outsourcing Standard: (1) The CJIS Security Policy.

9.03 The terms set forth in this document do not constitute the sole understanding by and between the parties hereto; rather they provide a minimum basis for the security of the system and the CHRI accessed therefrom and it is understood that there may be terms and conditions of the appended contract which impose more stringent requirements upon the Contractor.¹⁰

¹⁰ Such conditions could include additional audits, fees, or security requirements.

9.04 The minimum security measures as outlined in this Outsourcing Standard may only be modified by the Compact Council. Conformance to such security measures may not be less stringent than stated in this Outsourcing Standard without the consent of the Compact Council in consultation with the United States Attorney General.

9.05 This Outsourcing Standard may only be modified by the Compact Council and may not be modified by the parties to the appended contract without the consent of the Compact Council.

9.06 Appropriate notices, assurances, and correspondence to the FBI Compact Officer, Compact Council, and the United States Attorney General required by Section 8.0 of this Outsourcing Standard shall be forwarded by First Class Mail to: FBI Compact Officer, 1000 Custer Hollow Road, Module C 3, Clarksburg, WV 26306.

BILLING CODE 4410-02-P

NATIONAL WOMEN'S BUSINESS COUNCIL

Sunshine Act; Notice of Public Meeting

In accordance with the Women's Business Ownership Act, Public Law 106-554 as amended, the National Women's Business Council (NWBC) would like to announce a forthcoming Council meeting. The meeting will introduce the National Women's Business Council's agenda and action items for fiscal year 2005, included and not limited to procurement, access to capital, access to training and technical assistance, access to markets and affordable health care.

DATE: Tuesday, January 18, 2005.

ADDRESS: The Small Business Administration, Eisenhower Conference Room, 409 3rd Street, SW., 2nd Floor, Washington, DC.

TIME: 9 a.m. to 1 p.m.

STATUS: Open to the public. Attendance by RSVP only.

CONTACT: National Women's Business Council, (202) 205-3850—Katherine Stanley.

Anyone wishing to attend or would like to make an oral presentation at the meeting must contact Katherine Stanley, at (202) 205-6695, no later than Monday, January 10, 2005.

Matthew K. Becker,
Committee Management Officer.

BILLING CODE 8025-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-9022]

Notice of Consideration of an Amendment Request Transferring the License for Hartley and Hartley Landfill Site, Kawkawlin Township, Michigan, From SCA Services to SC Holdings, Inc., and Opportunity to Provide Comments and Request a Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice and opportunity to provide comments and request a hearing.

DATES: Comments must be provided by January 18, 2005. Requests for a hearing must be provided by January 5, 2005.

FOR FURTHER INFORMATION CONTACT: David Nelson, Project Manager, Materials Decommissioning Section, Decommissioning Directorate, Division of Waste Management and Environmental Protection, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: (301) 415-3017; fax number: (301) 415-5397; e-mail: jbh@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is considering issuance of a license amendment to Material License No. SUC-1565 issued to SCA Services (the licensee), to authorize transfer of its license to SC Holdings, Inc. License No. SUC-1565 was issued on June 14, 1995, to SCA Services under Title 10 of the Code of Federal Regulations (10 CFR) part 40 and authorizes SCA Services to possess radioactive materials on site leading to decommissioning of the site.

Pursuant to 10 CFR 40.44, no license issued or granted under the regulations in part 40 shall be transferred, assigned, or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person unless the Commission shall, after securing full information that the transfer is in accordance with the provisions of the Atomic Energy Act of 1954, as amended (AEA), and shall give its consent in writing. Therefore, before the issuance of an amendment, the NRC will have made the findings required by the AEA, and NRC's regulations. These findings will be documented in a Safety Evaluation Report. An Environmental Assessment (EA) will not be performed because, pursuant to 10 CFR 51.22(c)(21), this action is categorically

excluded from the requirement to perform an EA.

II. Opportunity To Provide Written Comments

The NRC hereby provides notice that this is a proceeding regarding an application for a license amendment regarding the transfer of NRC License No. SUC-1565 from SCA Services to SC Holdings, Inc. In accordance with 10 CFR 2.1305, any person may submit written comments regarding this license transfer to the NRC as an alternative to requests for hearings and petitions to intervene. Comments with respect to this action should be provided in writing by January 18, 2005. Comments should be addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff. Written comments should also be transmitted to the Secretary of the Commission either by means of facsimile transmission to (301) 415-1101, or by e-mail to SECY@nrc.gov. Comments received after 30 days will be considered if practicable to do so, but only those comments received on or before the due date can be assured consideration.

III. Opportunity To Request a Hearing

The NRC hereby provides notice that this is a proceeding on an application for a license amendment regarding the transfer of NRC License No. SUC-1565 from SCA Services to SC Holdings, Inc. In accordance with the general requirements in subpart C of 10 CFR part 2, as amended on January 14, 2004 (69 FR 2182), any person whose interest may be affected by this proceeding and who desires to participate as a party must file a written request for a hearing and a specification of the contentions which the person seeks to have litigated in the hearing.

In accordance with 10 CFR 2.302 (a), a request for a hearing must be filed with the Commission either by:

1. First class mail addressed to: Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications;

2. Courier, express mail, and expedited delivery services: Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, Attention: Rulemakings and Adjudications Staff, between 7:45 a.m. and 4:15 p.m., Federal workdays;

3. E-mail addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, HEARINGDOCKET@NRC.GOV; or

4. By facsimile transmission addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC, Attention: Rulemakings and Adjudications Staff, at (301) 415-1101; verification number is (301) 415-1966.

In accordance with 10 CFR 2.302 (b), all documents offered for filing must be accompanied by proof of service on all parties to the proceeding or their attorneys of record as required by law or by rule or order of the Commission, including:

1. The applicant, by delivery to Waste Management, Inc., 700 56th Avenue, Zeeland, MI, 49464, Attention: Philip M. Mazor, and,

2. The NRC staff, by delivery to the Office of the General Counsel, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, or by mail addressed to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Hearing requests should also be transmitted to the Office of the General Counsel, either by means of facsimile transmission to (301) 415-3725, or by e-mail to ogcmailcenter@nrc.gov.

The formal requirements for documents contained in 10 CFR 2.304 (b), (c), (d), and (e), must be met. In accordance with 10 CFR 2.304 (f), a document filed by electronic mail or facsimile transmission need not comply with the formal requirements of 10 CFR 2.304 (b), (c), and (d), as long as an original and two (2) copies otherwise complying with all of the requirements of 10 CFR 2.304 (b), (c), and (d) are mailed within two (2) days thereafter to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff.

In accordance with 10 CFR 2.309 (b), a request for a hearing must be filed by January 5, 2005.

In addition to meeting other applicable requirements of 10 CFR 2.309, the general requirements involving a request for a hearing filed by a person other than an applicant must state:

1. The name, address, and telephone number of the requester;

2. The nature of the requester's right under the Atomic Energy Act to be made a party to the proceeding;

3. The nature and extent of the requester's property, financial or other interest in the proceeding;

4. The possible effect of any decision or order that may be issued in the proceeding on the requester's interest; and,

5. The circumstances establishing that the request for a hearing is timely in accordance with 10 CFR 2.309(b).

In accordance with 10 CFR 2.309(f)(1), a request for hearing or petitions for leave to intervene must set forth with particularity the contentions sought to be raised. For each contention, the request or petition must:

1. Provide a specific statement of the issue of law or fact to be raised or controverted;

2. Provide a brief explanation of the basis for the contention;

3. Demonstrate that the issue raised in the contention is within the scope of the proceeding;

4. Demonstrate that the issue raised in the contention is material to the findings that the NRC must make to support the action that is involved in the proceeding;

5. Provide a concise statement of the alleged facts or expert opinions which support the requester's/petitioner's position on the issue and on which the requester/petitioner intends to rely to support its position on the issue; and,

6. Provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. This information must include references to specific portions of the application (including the applicant's environmental report and safety report) that the requester/petitioner disputes and the supporting reasons for each dispute, or, if the requester/petitioner believes the application fails to contain information on a relevant matter as required by law, the identification of each failure and the supporting reasons for the requester's/petitioner's belief.

In addition, in accordance with 10 CFR 2.309(f)(2), contentions must be based on documents or other information available at the time the petition is to be filed, such as the application, supporting safety analysis report, environmental report or other supporting document filed by an applicant or licensee, or otherwise available to the petitioner. On issues arising under the National Environmental Policy Act, the requester/petitioner shall file contentions based on the applicant's environmental report. The requester/petitioner may amend those contentions or file new contentions if there are data or conclusions in the NRC draft, or final environmental impact statement, environmental assessment, or any supplements relating thereto, that differ significantly from the data or conclusions in the applicant's documents. Otherwise, contentions may be amended or new contentions filed

after the initial filing only with leave of the presiding officer.

Each contention shall be given a separate numeric or alpha designation within one of the following groups:

1. Technical—primarily concerns issues relating to matters discussed or referenced in the Safety Evaluation Report for the proposed action.
2. Environmental—primarily concerns issues relating to matters discussed or referenced in the Environmental Report for the proposed action.
3. Emergency Planning—primarily concerns issues relating to matters discussed or referenced in the Emergency Plan as it relates to the proposed action.
4. Physical Security—primarily concerns issues relating to matters discussed or referenced in the Physical Security Plan as it relates to the proposed action.
5. Miscellaneous—does not fall into one of the categories outlined above.

Requesters/petitioners should, when possible, consult with each other in preparing contentions and combine similar subject matter concerns into a joint contention, for which one of the co-sponsoring requesters/petitioners is designated the lead representative. Further, in accordance with 10 CFR 2.309(f)(3), any requester/petitioner that wishes to adopt a contention proposed by another requester/petitioner must do so in writing within ten days of the date the contention is filed, and designate a representative who shall have the authority to act for the requester/petitioner.

In accordance with 10 CFR 2.309(g), a request for hearing and/or petition for leave to intervene may also address the selection of the hearing procedures, taking into account the provisions of 10 CFR 2.310.

IV. Further Information

Documents related to this action, including the application for amendment and supporting documentation, are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS accession number for the document related to this notice is the August 9, 2004, letter requesting that the license be amended, ADAMS Accession No. ML042510430. If you do not have access to ADAMS or if there are problems accessing the documents located in ADAMS, contact the NRC's Public Document Room (PDR)

Reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov.

These documents may also be viewed electronically on the public computers located at the NRC's PDR, O 1 F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. The PDR reproduction contractor will copy documents for a fee.

Please note that on October 25, 2004, the NRC suspended public access to ADAMS, and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's Web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the Public Document Room pending resumption of public access to ADAMS. The NRC Public Document Room is located at NRC Headquarters in Rockville, MD, and can be contacted at 800-397-4209 or 301-415-4737 or pdr@nrc.gov.

Dated in Rockville, Maryland this 9th day of December, 2004.

For the Nuclear Regulatory Commission.

Daniel M. Gillen,

Deputy Director, Decommissioning Directorate, Division of Waste Management and Environmental Protection, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Draft Regulatory Guide; Issuance, Availability

The U.S. Nuclear Regulatory Commission (NRC) has issued for public comment a draft revision to an existing guide in the agency's Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

The draft Revision 2 of Regulatory Guide 1.152, entitled "Criteria for Use of Computers in Safety Systems of Nuclear Power Plants," is temporarily identified by its task number, DG-1130, which should be mentioned in all related correspondence. The regulatory guide describes a method that is acceptable to the NRC staff for complying with the NRC's regulations for promoting high functional reliability and design quality

for the use of computers in safety systems of nuclear plants. For the purposes of DG-1130, the term "computer" means a system that includes computer hardware, software, firmware, and interfaces.

The guidance provided in DG-1130 is consistent with General Design Criterion (GDC) 21, "Protection System Reliability and Testability," of appendix A, "General Design Criteria for Nuclear Power Plants," to title 10, part 50, "Domestic Licensing of Production and Utilization Facilities," of the Code of Federal Regulations (10 CFR part 50). Among other things, GDC 21 requires that protection systems (or safety systems) must be designed for high functional reliability, commensurate with the safety functions to be performed. In addition, Criterion III, "Design Control," of appendix B, "Quality Assurance Criteria for Nuclear Power Plants and Fuel Reprocessing Plants," to 10 CFR part 50 requires, among other things, that quality standards must be specified, and design control measures must be provided, for verifying or checking the adequacy of design.

The new draft regulatory guide DG-1130 also contains the staff's regulatory position on the "Standard Criteria for Digital Computers in Safety Systems of Nuclear Power Generating Stations,"¹ which the Nuclear Power Engineering Committee of the Institute of Electrical and Electronics Engineers (IEEE) has promulgated as IEEE Std 7-4.3.2-2003. The NRC staff has collaborated in the development of IEEE Std 7-4.3.2-2003 to ensure that the guidance provided by the consensus standard is consistent with the NRC's regulations. This standard evolved from IEEE Std 7-4.3.2-1993 and reflects advances in digital technology. It also represents a continued effort by IEEE to support the specification, design, and implementation of computers in safety systems of nuclear power plants. In addition, IEEE Std 7-4.3.2-2003 specifies computer-specific requirements to supplement the criteria and requirements of IEEE Std 603-1998, "Standard Criteria for Safety Systems for Nuclear Power Generating Stations."

It is the staff's intent to endorse IEEE Std 7-4.3.2-2003, with certain exceptions, in the final regulatory guide as an acceptable method for satisfying the NRC's regulations with respect to (1) high functional reliability and design requirements for computers used in safety systems of nuclear power plants,

¹ IEEE publications may be purchased from the IEEE Service Center, 445 Hoes Lane, Piscataway, NJ 08854.
