

CIS system of records entitled "Verification Information System, Justice/INS 035," last published in the **Federal Register** on October 17, 2002. This system of records is used to provide immigration status information to Federal, State, and local government agencies for immigrants and naturalized U.S. citizens applying for public benefits. By accessing the USCIS database, these state agencies may obtain an alien registration number for the potential applicant or beneficiary for public benefits. Where the alien registration number is located, the state agency will receive electronically from the USCIS database the following data upon which to determine eligibility: The alien registration number, last name, first name, date of birth, country of birth, social security number (if available), date of entry, immigration status data, and employment eligibility data. If the state agency determines that an alien is not entitled to public benefits, in accordance with 5 U.S.C. 552a(p), the state agency will provide the alien applicant with 30 days notice and an opportunity to contest any adverse finding before final action is taken against that alien because of ineligibility as established through the computer match.

DHS has approved agreements to permit these computer matching programs for an 18-month period. The matching program may be extended for an additional 12 months thereafter, if certain conditions are met. Matching activities under the new agreements will be effective 30 days after publication of this computer matching notice in the **Federal Register**, or 40 days after a report concerning the computer matching programs has been transmitted to the Office of Management and Budget (OMB) and transmitted to Congress with a copy of the agreements, whichever is later.

In accordance with 5 U.S.C 552a(o)(A) and (r), the required report has been provided to the Office of Management and Budget, and to the Congress together with a copy of the agreements.

Dated: January 30, 2005.

Nuala O'Connor Kelly,
Chief Privacy Officer.
