SUPPLEMENTARY INFORMATION: The Commission is deleting five systems of records: CPSC-16, Equal Employment Opportunity Counseling Files; CPSC-18, Procurement Integrity Files; CPSC-19, Office of Hazard Identification and Reduction Tracking System; CPSC-21, Contractor Personnel Security System File; and CPSC-22, Management Information System. CPSC-16, Equal Employment Opportunity Counseling Files, is now covered by a government-wide system of records notice, EEOC/GOVT-1 published by the Office of Equal Opportunity, Equal Employment Opportunity Commission. CPSC-18, Procurement Integrity Files no longer exists and is being deleted. CPSC-19, Office of Hazard Identification and Reduction Tracking System contains individuals' names but does not meet the definition of a "system of records" for purposes of the Privacy Act. CPSC-22, Management Information System, is no longer maintained as a system of records although MIS codes are used in a system maintained by the Department of Interior's National Business Center and covered under their system of records notice. CPSC-21, Contractor Personnel Security System File information is merged with CPSC-20, Personnel Security File and no longer exists as a separate system of records.

The Consumer Product Safety Commission is also announcing a new system of records, CPSC-23, Equal Employment Opportunity Disability/Accommodation Files. This system will be used to maintain records of employees who initiate reasonable accommodation requests under the Rehabilitation Act, 29 U.S.C. 794, and Americans with Disabilities Act, 42 U.S.C. 12101.

The Congress and the Office of Management and Budget have been notified of the new system of records.

Dated: December 12, 2007.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.

POLICY JUSTIFICATION

United Arab Emirates – Upgrades/Refurbishments of E-2C Aircraft

The Government of the United Arab Emirates has requested a possible sale of upgrades and refurbishment for three (3) used, excess defense articles (EDA) E-2C Airborne Early Warning (AEW) aircraft with radar and antennae. The aircraft are being notified in a separate EDA sale package (I-012865/07). These upgrades/refurbishments include E-2C Group II Navigation Upgrade configuration, 8 T56-A-427 Turbo Shaft engines, Phased Maintenance Inspection, spare and repairs parts, support equipment, personnel training and training equipment, technical data and publications, tactical software and software laboratory, system software development and installation, testing of new system modifications, U.S. Government and contractor technical and logistics personnel services, and other related support elements. The estimated cost is \$437 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country, which has been and continues to be an important force for political stability and economic progress in the Middle East. The United Arab Emirates needs the E-2C aircraft to develop an effective air defense network for its naval forces and to provide an Airborne Early Warning (AEW) surveillance and enhanced command, control, and communications capability.

The proposed sale of the upgrades and refurbishments will strengthen the effectiveness and interoperability of a potential coalition partner, reduce the dependence on U.S. forces in the region and enhance any coalition operations the U.S. may undertake. The United Arab Emirates will have no difficulty absorbing these aircraft into its armed forces. The proposed sale of these weapon systems will not affect the basic military balance in the region.

The prime contractor will be Northrop Grumman Aircraft Corporation of Bethpage, New York. The purchaser requested offsets; however, at this time, agreements are undetermined but will be defined in negotiations between the purchaser and contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government and contractor representatives to the United Arab Emirates.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 08-25**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vii****(vii) Sensitivity of Technology:**

1. The E-2C contains sensitive state-of-the-art technology. Some of the hardware, publications, performance specifications, operational capability, parameters, vulnerabilities to countermeasures, and software documentation are classified Secret. The classified information to be provided consists of that which is necessary for the operation, maintenance, and repair (through depot level) of the E-2C aircraft and its installed systems and related software.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware in the proposed sale, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
