

any amendments, related measures, or implementing measures:

- The Regulations on the Administration of the Films Industry;
- The Provisional Rules on the Entry Criteria for Operating Film Enterprises; and
- The Provisional Specific Implementing Rules for Reforming Film Distribution and Exhibition.

It appears that these measures establish a dual distribution system for imported and domestically produced films for theatrical release. Imported films can be distributed within China only by two entities, each of which operates on a nationwide basis. By contrast, domestically produced films can be distributed not only by those same two entities, but also by many other entities, including entities that operate on a local, provincial or other subnational basis.

Accordingly, the measures at issue appear to be inconsistent with China's obligations under the provisions of paragraphs 1.2 and 5.1 of Part I of the Accession Protocol and Article III:4 of the GATT 1994.

The fourth matter on which the United States has requested the establishment of a WTO dispute settlement panel concerns certain measures that provide less favorable distribution opportunities for sound recordings imported into China in physical form than for sound recordings produced in China.

In this regard, the measures at issue include the following, as well as any amendments and related or implementing measures:

- The Interim Regulations on Internet Culture Administration;
- The Circular of the Ministry of Culture on Relevant Issues of Implementation of the Interim Regulations on Internet Culture Administration;
- The Catalogue for Guidance of Foreign Investment Industries;
- The Several Opinions of the Ministry of Culture, the State Administration of Radio, Film and Television, the General Administration of Press and Publication, the National Development and Reform Commission and the Ministry of Commerce on Introducing Foreign Investment into the Cultural Sector; and
- The Several Opinions on the Development and Regulation of Network Music.

These measures appear to require that sound recordings imported into China in physical form but intended for digital distribution must undergo content review by the Chinese Government prior to such distribution within China.

However, domestically produced sound recordings appear not to be subject to this requirement, but can instead be digitally distributed immediately. It thus appears that sound recordings imported into China in physical form are treated less favorably than sound recordings produced in China in physical form.

The foregoing measures appear to USTR to be inconsistent with China's obligations under provisions of paragraphs 1.2 and 5.1 of Part I of the Accession Protocol and Article III:4 of the GATT 1994.
