OFFICE OF NATIONAL DRUG CONTROL POLICY

Leadership Conference on Medical Education in Substance Abuse

AGENCY: Office of National Drug Control Policy.

ACTION: Notice.

SUMMARY: A conference of leaders in the field of medical education and healthcare policy will be held on Wednesday, January 16th, 2008 at the Hyatt Regency Hotel, Washington, DC on Capitol Hill, New Jersey Ave., NW., and Washington DC, starting at 8 a.m. and concluding at 5:30 p.m. The overall objectives of the Leadership Conference are to advance widespread use of screening and brief intervention procedures designed to identify and promote behavioral change in populations engaged in risky, problematic substance use, or that have a diagnosis of abuse/addiction. Abuse of illicit drugs, alcohol, or prescription drugs adversely affects the health of millions of Americans. Wide-spread implementation of screening and brief intervention procedures can have a major, positive impact on public health. The specific conference objectives are: (1) To share with medical educators and other contributors to improving in public health, the positive benefits of screening and brief interventions; (2) To devise strategies to implement and sustain Screening, Brief Intervention

and Referral to Treatment (SBIRT) procedures for substance abuse in various healthcare settings; (3) To promote adoption and use of new reimbursable healthcare procedural codes (screening and brief intervention) and examine cost-effectiveness of implementing the codes; (4) To address best practices for performing these procedures in various healthcare settings; (5) To identify challenges to implementation of these procedures in various healthcare settings and conceptualize strategies to address these challenges; (6) To generate business models for the procedures applicable to specific health care environments; (7) To address training and educational needs for the medical community and devise efficient methods for widespread dissemination of these practices. Members of the public who wish to attend the meeting should telephone ONDCP's Leadership Conference on Medical Education telephone line at (202) 395-6750 to arrange building access.

FOR FURTHER INFORMATION CONTACT: June Sivilli at (202) 395-5526.

Dated: December 6, 2007.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-341]

Detroit Edison Company; FERMI 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from Title 10 of the *Code of Federal Regulations* (10 CFR) Part 74, section 74.19(c), for Facility Operating License No. NPF-43, issued to Detroit Edison Company (the licensee), for operation of Fermi 2, located in Monroe County, Michigan. Therefore, as required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

Environmental Assessment

Identification of the Proposed ACTION:

The proposed action would exempt the licensee from the requirement in 10 CFR 74.19(c) to conduct a physical inventory of all special nuclear material (SNM) at intervals not to exceed 12 months. Specifically, the request is for exemption from the physical inventory requirements for those fuel assemblies that are stored under the Holtec Overhead Platforms (HOPs) when the HOPs are installed in the spent fuel racks.

The proposed action is in accordance with the licensee's application dated April 27, 2007, as supplemented by letter dated November 9, 2007.

The Need for the Proposed Action

The proposed action would allow the licensee to not have to perform physical inventory of fuel assemblies below the HOPs when the HOPs are installed. Therefore, the licensee would not have to empty and remove the HOPs to perform the annual SNM physical inventory.

Environmental Impacts of the Proposed Action

The NRC has completed its safety evaluation of the proposed action and concludes that exempting the licensee from performing a physical inventory of fuel assemblies under the HOPs when the HOPs are installed is acceptable.

The details of the staff's safety evaluation will be provided in the exemption that will be issued as part of the letter to the licensee approving the exemption to the regulation.

The proposed action will not significantly increase the probability or consequences of accidents. No changes are being made in the types of effluents that may be released off site. There is no significant increase in the amount of any effluent released off site. There is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not have a potential to affect any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.
