

- What benefits would you expect as a result of including a matching requirement in the programs listed above?
  - How will the matching requirement increase the sustainability of the grant projects funded through these programs?
  - How will the matching requirement increase the services supported through the grant projects funded through these programs?
  - What other benefits can be expected?
  - What challenges would you anticipate as a result of including a matching requirement in the programs listed above? What suggestions do you have to help minimize those challenges?
- How would the benefits and challenges of the matching requirement change if the matching requirement were higher (e.g., 25% in year 1 and increasing in subsequent years)?
- What is the highest point at which the match would be supportable for you/ your organization?
- At what level (i.e., percent of the grant) would the cost of a matching requirement become a barrier to applying for a grant from SAMHSA?
- As an applicant, would you be interested in a provision that would allow you to choose to defer the matching requirement in the first year of the grant, with an offsetting increased match in later years of the grant? What are the benefits and challenges of such an approach?
  - What other options for a matching requirement (e.g., different percentages) would you recommend that SAMHSA consider?

Toian Vaughn,

Public Health Analyst, Substance Abuse and Mental Health, Services Administration.
