

protection. The OSC detects the rocket plume of missiles and sends appropriate signals to the CP for processing. The CP analyzes the data from each OSC and automatically deploys the appropriate countermeasures. The CP also contains comprehensive built-in test circuitry. The control indicator displays the incoming direction of the threat, so that the pilot can take appropriate action. Hardware is Unclassified. Technical data and documentation to be provided is Unclassified. Overall system classification is SECRET due to data that can be gleaned about vulnerabilities associated with the photomultiplier tube and false alarm rate. These vulnerabilities will be apparent to any user of the system. There will be no additional release of classified information beyond what has already been approved for release.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware or software in this proposed sale, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

Pursuant to 5 U.S.C. paragraph 552b, as amended, and 41 CFR paragraph 102-3.155, the Department of Defense has determined that the meeting shall be closed to the public. The Director, U.S. Nuclear Command and Control System Support Staff, in consultation with his General Counsel, has determined in writing that the public interest requires that all sessions of the committee's meeting will be closed to the public because they will be concerned with classified information and matters covered by section 5 U.S.C. paragraph 552b(c)(1).

Pursuant to 41 CFR paragraphs 102-3.105(j) and 102-3.140, and section 10(a)(3) of the Federal Advisory Committee Act of 1972, the public or interested organizations may submit written statements at any time to the Nuclear Command and Control System Federal Advisory Committee about its mission and functions. All written statements shall be submitted to the Designated Federal Officer for the Nuclear Command and Control System Federal Advisory Committee. He will ensure that written statements are provided to the membership for their consideration. Written statements may also be submitted in response to the stated agenda of planned committee meetings. Statements submitted in response to this notice must be received by the Designated Federal Official at least five calendar days prior to the meeting which is the subject of this notice. Written statements received after that date may not be provided or considered by the Committee until its next meeting. All submissions provided before that date will be presented to the committee members before the meeting that is subject of this notice. Contact information for the Designated Federal Officer is listed below.

Committee's Designated Federal Officer: Mr. William L. Jones, (703) 681-8681, U.S. Nuclear Command and Control System Support Staff (NSS), Skyline 3, 5201 Leesburg Pike, Suite 500, Falls Church, Virginia 22041. William.jones@nss.pentagon.mil.
