

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Docket No. CP08-455-000]****CenterPoint Energy Gas Transmission Company; Notice of Request Under Blanket Authorization**

August 7, 2008.

Take notice that on August 1, 2008, CenterPoint Energy Gas Transmission Company (CenterPoint), 1111 Louisiana Street, Houston, Texas, filed in Docket No. CP08-455-000 a prior notice request pursuant to sections 157.205 of the Commission's regulations under the Natural Gas Act (NGA), and CenterPoint's blanket certificate issued in Docket No. CP82-384-000 on September 1, 1982,¹ and amended in Docket No. CP82-384-001 on February 10, 1983.² CenterPoint seeks authorization to install approximately one-half mile of 16-inch pipe, a rental compressor station, and a meter station in Red River Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Specifically, CenterPoint proposes to install approximately 2,215 feet of 16-inch diameter steel pipe to interconnect its CP-5 line to Texas Eastern Transmission, LLC's Sligo Lateral Line 11-G, a rental 1,680 horsepower Waukesha L7044GSI compressor station, and an 8-inch ultrasonic meter station, at a cost of \$10.018 million. CenterPoint has filed this application under the Commission's prior notice procedures even though the estimated cost is below the maximum allowed for an automatic authorization cost limit of \$10.2 million stated in section 157.208(d)³ of the Commission's regulations because of the recent rapid increases in material and labor costs. The proposed project will allow CenterPoint to access supplies from the Sligo Gas Processing Plant⁴ which processes natural gas from the Sligo

Field in northwest Louisiana. It will also create additional supply sources for CenterPoint's newly constructed pipeline from Carthage, TX, to the Perryville Hub in Louisiana (Line CP). The additional supply sources will allow CenterPoint to compete effectively in its geographic market and to offer its customers more transportation alternatives.

Any questions regarding this application should be directed to Larry Thomas, Director, Rates & Regulatory, CenterPoint Energy Gas Transmission Company, P. O. Box 21734, Shreveport, Louisiana 71151, or call (318) 429-2804.

Any person or the Commission's Staff may, within 60 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and, pursuant to section 157.205 of the Commission's Regulations under the Natural Gas Act (NGA) (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the NGA.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the internet in lieu of paper. See 18 CFR 385.2001(a) (1) (iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street, NE., Washington, DC 20426.

Comment Date: October 6, 2008.

Kimberly D. Bose,

Secretary.

Beaches Environmental Assessment and Coastal Health Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Expected Changes to the Grant Allocation Formula for Awarding Grants Under the BEACH Act.

SUMMARY: The Beaches Environmental Assessment and Coastal Health (BEACH) Act authorizes EPA to award program development and implementation grants to eligible States, Territories, Tribes, and local governments to support microbiological monitoring and notification of the public of the potential for exposure to disease-causing microorganisms in coastal recreation waters. EPA awards BEACH Act grant funds to eligible States, Territories and Tribes each year using an allocation formula to determine the amount of federal funds available for award to each State and Territory. EPA is considering changes to this allocation formula for the award of grants in 2010 and is providing States, Territories, and Tribes advance notice of expected changes.

SUPPLEMENTARY INFORMATION:

I. Background

A. What Is the BEACH Act?

The Beaches Environmental Assessment and Coastal Health (BEACH) Act of 2000 amends the Clean Water Act to better protect public health at our Nation's beaches through improved water quality standards and beach monitoring and notification programs. The BEACH Act authorizes EPA to award grants to develop and implement monitoring and public notification programs for coastal recreation waters, consistent with EPA's required performance criteria. EPA published the required performance criteria for grants in its "National Beach Guidance and Required Performance Criteria for Grants" (EPA-823-B-02-004), on July 19, 2002. Currently, all 35 eligible States and Territories operate beach monitoring and notification programs using BEACH Act grant funds.

B. Who Is Eligible To Apply for BEACH Act Grants?

Coastal and Great Lake States and Territories that meet the requirements of CWA section 406(b)(2)(A) are eligible for BEACH Act grants. These are the States adjacent to the Great Lakes, the Atlantic and Pacific Oceans, and the Gulf of Mexico as well as the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands. Tribes may also be eligible for BEACH Act grants. In order to be eligible, a Tribe must have coastal recreation waters adjacent to beaches or similar points of access that are used by the public, and the Tribe must demonstrate that it meets the "treatment in the same manner as a State" criteria in CWA Section 518(e) for the purposes of receiving a Section 406 BEACH Act grant.

C. How Much Funding Is Available?

After the first year of funding of approximately two million dollars in 2001, funding for the years between
