

policy issues. Finally, this interim directive would not alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients of such programs. Accordingly, this proposed action is not subject to Office of Management and Budget review under Executive Order 12866.

Moreover, this proposed action has been considered in light of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), and it has been determined that this proposed action would not have a significant economic impact on a substantial number of small entities as defined by the act because it will not impose record-keeping requirements on them; it would not affect their competitive position in relation to large entities; and it would not affect their cash flow, liquidity, or ability to remain in the market.

Unfunded Mandates

Pursuant to Title II of the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538), which the President signed into law on March 22, 1995, the Agency has assessed the effects of this proposed action on State, local, and tribal governments and the private sector. This interim directive would not compel the expenditure of \$100 million or more by any State, local, or tribal government or anyone in the private sector. Therefore, a statement under section 202 of the act is not required.

Controlling Paperwork Burdens on the Public

This interim directive does not contain any additional record-keeping or reporting requirements associated with National Forest System land management planning or other information collection requirements as defined in 5 CFR part 1320 that are not already required by law or not already approved for use. The Office of Management and Budget (OMB) (Number 0596–00158) has approved the information collection associated with the submitting an objection under the planning rule (36 CFR part 219). Accordingly, the review provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) and its implementing regulations at 5 CFR part 1320 do not apply.

Conclusion

This interim directive provides consistent interpretation of the planning rule for line and staff officers, and interdisciplinary teams. Therefore, the Agency can fulfill its commitment to improve public involvement and decisionmaking associated with

developing, amending, or revising a land management plan.
