Notice of Intent To Prepare an Environmental Impact Statement (EIS) for the Boardman-Hemingway 500 kilovolt (kV) Transmission Line Project (Project) in Idaho and Oregon and Possible Land Use Plan Amendments

AGENCIES: Bureau of Land Management, DOI; and Forest Service, USDA.

ACTION: Notice of Intent to prepare an Environmental Impact Statement, possible land use plan amendments, and notice of public scoping meetings.

SUMMARY: Pursuant to section 102 (2)(C) of the National Environmental Policy Act (NEPA) of 1969 and in response to right-of-way (ROW) applications filed by Idaho Power Company, the Bureau of Land Management (BLM), Vale District Office, and U.S. Forest Service (USFS), Wallowa-Whitman National Forest announce their intent to prepare an EIS and conduct public scoping meetings. Idaho Power Company proposes to construct, operate, and maintain a single circuit 500 kV overhead electric transmission line and appurtenant facilities beginning near Boardman, Oregon, and terminating near Melba, Idaho. The proposed route roughly parallels Interstate 84 and is approximately 278 miles long. Authorization of this Project may require the amendment of USFS or BLM land use plans.

DATES: This notice initiates the public scoping process as required by NEPA. The BLM and USFS request that public comments be submitted by November 14, 2008. To provide the public an opportunity to review project information, public meetings are planned in Idaho and Oregon in communities near the proposed route. The following communities are being considered for meeting locations: Ontario, Baker City, La Grande, Pendleton, Pilot Rock, Hermiston, and Boardman, Oregon; Marsing and Homedale, Idaho. The scoping meetings will be conducted in an "open house" format. Staff from the BLM, USFS,

Oregon Department of Energy, Idaho Power Company, and environmental contractors will be available to answer questions and explain their respective roles and responsibilities. The BLM and USFS will announce the exact meeting dates, times, and locations at least 15 days prior to the event. Announcements will be made by news release, individual postcard mailings, and posting on the Project Web site (<http://www.boardmantohemingway.com>).

ADDRESSES: You may submit comments by any of the following methods:

- *Web site:* <http://www.boardmantohemingway.com>.
- *E-mail:* B2HComments@blm.gov.
- *Mail:* Bureau of Land Management, Vale District Office, 100 Oregon Street, Vale, Oregon, 97918, Attention: Lucas Lucero.

Documents pertinent to the ROW application are on file and may be examined at:

- Bureau of Land Management, Vale District Office, 100 Oregon Street, Vale, Oregon, 97918.
- U.S. Forest Service, Wallowa-Whitman Supervisor's Office, 1550 Dewey Avenue, Baker City, Oregon, 97814.
- U.S. Forest Service, La Grande Ranger District, 3502 Highway 30, La Grande Oregon, 97850.

SUPPLEMENTARY INFORMATION: Idaho Power Company has submitted ROW applications to construct, operate, and maintain a 500kV single circuit overhead electric transmission line on Federal lands. The purpose and need of the Project is to relieve existing congestion, capacity, and reliability constraints and allow for the delivery of up to 1500 megawatts (MW) of additional energy to target service areas principally in Idaho and Utah. The proposed project begins near Boardman, Oregon, just north of the Boardman Power Plant, at the newly proposed Boardman Substation. The Project route continues southeast to interconnect with the Hemingway Substation in southeastern Oregon. The Hemingway Substation is being planned and built separately from this Project and will be built regardless of the outcome of this Project so the Hemingway Substation will not be analyzed in this EIS. The Project route then proceeds southeast and terminates near Melba, Idaho, at the newly proposed Sand Hollow
