

BURDEN ESTIMATE—Continued

SAMHSA/CSAP program	Number of grantees	Number of respondents	Responses per respondent	Hours/response	Total hours
Methamphetamine	12	3,000	3	0.75	6,750
Annual Average	10,196	0.75	15,359

* The Strategic Prevention Framework State Incentive Grant (SPF SIG) has a three level evaluation: The Grantee, Community and Program Level. The Grantee level data will be pre-populated by SAMHSA. The use of the Community Level instrument is optional as they relate to targeted interventions implemented during the reporting period. At the program level, items will be selected to direct services implemented.

Send comments to Summer King, SAMHSA Reports Clearance Officer, Room 7-1044, One Choke Cherry Road, Rockville, MD 20857 AND e-mail her a copy at summer.king@samhsa.hhs.gov. Written comments should be received within 60 days of this notice.

Dated: September 12, 2008.

Elaine Parry,

Acting Director, Office of Program Services.

BILLING CODE 4162-20-P

DEPARTMENT OF THE INTERIOR

Central Utah Project Completion Act

AGENCIES: Department of the Interior, Office of the Assistant Secretary—Water and Science.

ACTION: Notice of Availability, Final Environmental Assessment (FEA) and Finding of No Significant Impact (FONSI), Hobbie Creek Stream Restoration, Utah County, Utah.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969, as amended, the Central Utah Project Completion Act Office has evaluated the environmental impacts of a proposal to relocate, and restore natural stream sinuosity, and fisheries habitat, in Hobbie Creek, a tributary to Utah Lake in Utah County, Utah, to assist recovery of the endangered June sucker fish (*Chasmistes liorus*). Following a review of issues, with public involvement, the Department has concluded that no significant impacts affecting the quality of the human environment are anticipated to result from this action. Therefore, no Environmental Impact Statement will be prepared.

Under the Proposed Action, approximately the last one mile of Hobbie Creek, where it enters Utah Lake, will be relocated onto property owned by the State of Utah. The project will improve the hydrology of the stream, open the upper reaches of Hobbie Creek to spawning June sucker, which currently exist in Utah Lake. As part of the project, adjacent wetlands

and connecting side channels will be constructed on the property to create backwater habitat for survival and rearing of larval stages of June sucker produced in the creek. After construction, the project lands would be managed by the Utah Division of Wildlife Resources for protection of wetlands and conservation of the June sucker. The Utah Transit Authority, State of Utah, and the U.S. Fish and Wildlife Service served as cooperating agencies in completing the environmental evaluations under NEPA.

This project is being implemented in cooperation with the June Sucker Recovery Implementation Program (JSRIP).

FOR FURTHER INFORMATION CONTACT:

Copies of the Final EA and FONSI are available by contacting Mr. Ralph G. Swanson at the Central Utah Project Completion Act Office, 302 East 1860 South, Provo, Utah 84606, by calling 801/379-1254, or E-mail at rswanson@uc.usbr.gov.

Copies of the Final EA and FONSI are also available for inspection at:

Springville City Library, 50 South Main, Springville, Utah 84663;

Department of the Interior, Central Utah Project Completion Act Office, 302 East 1860 South, Provo, Utah 84606.

In addition, both documents are available at the JSRIP Web site at <http://www.junesuckerrecovery.org> or the Utah Transit Authority Web site at <http://www.rideuta.com>.

SUPPLEMENTARY INFORMATION: None.

Reed R. Murray,

CUP Program Director, Department of the Interior.

Draft Recovery Plan for the Prairie Species of Western Oregon and Southwestern Washington

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability for review and comment.

SUMMARY: The U.S. Fish and Wildlife Service announces the availability of the draft Recovery Plan for the Prairie Species of Western Oregon and Southwestern Washington for public review and comment. The listed species addressed in the recovery plan are: Fender's blue butterfly (*Icaricia icarioides fenderi*), *Erigeron decumbens* var. *decumbens* (Willamette daisy), *Lomatium bradshawii* (Bradshaw's lomatium), *Lupinus sulphureus* ssp. *kincaidii* (Kincaid's lupine), *Sidalcea nelsoniana* (Nelson's checker-mallow) and *Castilleja levisecta* (golden paintbrush).

ADDRESSES: Copies of the draft recovery plan are available by request from the U.S. Fish and Wildlife Service, Oregon Fish and Wildlife Office, 2600 SE 98th Avenue, Suite 100, Portland, Oregon 97266 (phone: 503-231-6179). An electronic copy of the draft recovery plan is also available at <http://endangered.fws.gov/recovery/index.html#plans>. Printed copies of the draft recovery plan will be available for distribution within 4 to 6 weeks.

FOR FURTHER INFORMATION CONTACT: Cat Brown, Fish and Wildlife Biologist, at the above Portland address and telephone number.

SUPPLEMENTARY INFORMATION:

Background

Recovery of endangered or threatened animals and plants is a primary goal of the Endangered Species Act (Act) (16 U.S.C. 1531 *et seq.*) and our endangered species program. Recovery means
