SUPPLEMENTARY INFORMATION:

I. Competitive Need Limitations

The GSP program provides for the duty-free importation of designated articles when imported from designated beneficiary developing countries (BDCs). The GSP program is authorized by title V of the Trade Act of 1974 (19 U.S.C. 2461, *et seq.*), as amended (the "1974 Act"), and is implemented in accordance with Executive Order 11888 of November 24, 1975, as modified by subsequent Executive Orders and Presidential Proclamations.

Section 503(c)(2)(A) of the 1974 Act sets out the two competitive need limitations (CNLs). When the President determines that a BDC exported to the United States during a calendar year either: (1) A quantity of a GSP-eligible article having a value in excess of the applicable amount for that year (\$135 million for 2008), or (2) a quantity of a GSP-eligible article having a value equal to or greater than 50 percent of the value of total U.S. imports of the article from all countries (the "50 percent CNL"), the President must terminate GSP duty-free treatment for that article from that BDC by no later than July 1 of the next calendar year. However, Section 503(d) of the 1974 Act sets forth the criteria under which the President may grant a waiver of the CNL for articles imported from specific BDCs. Product petitions requesting CNL waivers for GSP-eligible articles from beneficiary developing countries that exceed the CNLs in 2008 must be filed in the 2008 Annual Review.

Under section 503(c)(2)(F) of the 1974 Act, the President may also waive the 50 percent CNL with respect to an eligible article imported from a BDC if the value of total imports of that article from all

countries during the calendar year did not exceed the applicable *de minimis* amount for that year. Comments on *de minimis* waivers will be requested after publication of a separate *Federal Register* notice in February 2008.

II. Implementation of Competitive Need Limitations

Exclusions from GSP duty-free treatment where CNLs have been exceeded will be effective July 1, 2009, unless granted a waiver before that date by the President. CNL exclusions will be based on full calendar-year 2008 import statistics. Full calendar-year 2008 data for individual tariff subheadings will be available in February 2009 on the Web site of the U.S. International Trade Commission at <http://dataweb.usitc.gov/>.

III. 2008 Competitive Need Limitations Petition Procedure

A. Eight Month Import Data and Announcement That "Warning List" Will Not Be Published

For the purposes of the Competitive Need Limitations, the Office of the United States Trade Representative (USTR) will not be publishing a "warning list" of products that may exceed statutory competitive need limitations (CNLs). Each interested party is responsible for conducting its own review of 2008 import data with regard to the possible application of GSP CNLs. This information can be found on the U.S. International Trade Commission (USITC) Web site (<http://dataweb.usitc.gov>). Interested parties, including foreign governments, may submit petitions to waive the "competitive need limitations" for individual beneficiary developing countries with respect to specific GSP-eligible articles (these limits do not apply to either least-developed beneficiary developing countries or AGOA beneficiary sub-Saharan African countries). As announced in the May 15, 2008, *Federal Register* notice, petitions requesting CNL waivers must be received by the GSP Subcommittee of the Trade Policy Staff Committee no later than 5 p.m. on Thursday, November 13, 2008, in order to be considered in the 2008 Annual Review. Petitions submitted after the deadline will not be considered for review. The list of product petitions accepted for review will be announced in the *Federal Register* at a later date.

As specified in 15 CFR 2007.1, all petitions requesting CNL waivers for GSP-eligible articles from beneficiary developing countries must include a detailed description of the product and
