### SUPPLEMENTARY INFORMATION:

#### A. Background

Under the Endangered Species Act of 1973 (Pub. L. 93-205), as amended, and the Marine Mammals Protection Act of 1972 (Pub. L. 92-522), as amended, the Florida Manatee was designated as an endangered species and the Indian River Lagoon system within and adjacent to NASA's KSC has been designated as a critical habitat for the Florida Manatee. In order to ensure compliance with these two acts, the NFS clause 1852.247-71, Protection of the Florida Manatee, was developed and implemented. This clause is required in NASA solicitations and contracts when deliveries or vessel operations, dockside work, or disassembly functions under the contract will involve the use of these waterways inhabited by the Manatees. The clause requires that contractors ensure that all employees and subcontractors are aware of the applicable Federal regulations relative to protecting the Florida Manatee while working in this critical habitat area. Contractors are also required to obtain the applicable Federal and/or state permits and notify and coordinate all water related activities at KSC with the Environmental Management Branch. NASA is proposing to revise this clause to ensure that accurate, current requirements and information essential to protecting the Florida Manatee are properly conveyed to NASA KSC contractors in a concise manner.

This is not a significant regulatory action and, therefore, is not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This proposed rule is not a major rule under 5 U.S.C. 804.

#### B. Regulatory Flexibility Act

NASA certifies that this proposed rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because it merely updates, for clarification and currency purposes, requirements that already exist in this
