

on all Americans to dedicate 4,000 hours or two years of their lives to volunteer service. He created the USA Freedom Corps, a coordinating office at the White House to oversee these efforts and to bring increased attention to the ways in which the Administration could work together to enhance opportunities for all Americans to serve their neighbors and their nation.

In support of the President's call to service, the Corporation created an electronic Record of Service to provide citizens a way to track their service activities and individually record their volunteer service hours. Use of this tracking tool is 100 percent electronic in that users establish a user ID and password that automatically creates an account which is only accessible to that individual user. The Record of Service can only be updated by the user who established the account. The Record of Service has received heavy public use and is a primary way for individuals to track their eligibility for the President's Volunteer Service Award.

Individuals may link to this tracking tool through the USA Freedom Corps Web site at <http://www.usafreedomcorps.gov> or the President's Volunteer Service Award Web site at <http://www.presidentialserviceawards.gov>.
