[GSA FMR Bulletin 2009-B1]

Public Buildings and Space

TO: Heads of Executive Agencies.

SUBJECT: Protecting Federal Employees and the Public From Exposure to Tobacco Smoke in the Federal Workplace.

1. *Purpose.* This bulletin announces the policy concerning the protection of federal employees and the public from exposure to tobacco smoke in the federal workplace.

2. *Expiration Date.* This bulletin contains information of a continuing nature and will remain in effect until canceled.

3. *Background.*

a. On August 9, 1997, President Clinton signed Executive Order (EO) 13058, entitled "Protecting Federal Employees and the Public From Exposure to Tobacco Smoke in the Federal Workplace," to establish a smoke-free environment for federal employees and members of the public visiting or using federal facilities (62 FR 43451, August 13, 1997).

b. On October 20, 1997, the U.S. General Services Administration (GSA) issued GSA Bulletin FPMR D-245, "Protecting Federal Employees and the Public from Exposure to Tobacco Smoke in the Federal Workplace" (62 FR 54461). In accordance with the requirements of EO 13058, GSA Bulletin FPMR D-245 prohibited the smoking of tobacco products in all interior space owned, rented or leased by the executive branch of the Federal Government, except in specially-equipped designated smoking areas, outdoor areas in front of air intake ducts and certain other residential and non-federal occupied space. The bulletin also required the heads of executive agencies to evaluate the need to restrict smoking in courtyards and near doorways.

c. Studies conducted since the issuance of GSA Bulletin FPMR D-245 have concluded that cigarette smoking is the number one preventable cause of morbidity and premature mortality worldwide. Studies also have shown that the harmful effects of smoking are not confined solely to the smoker, but extend to co-workers and members of the general public who are exposed to secondhand smoke as well. Recognition of these facts is evidenced by the stricter laws on smoking enacted by several states over the past ten years. Twenty-six states have banned smoking entirely in all of their state government buildings and 19 have banned smoking in all private work places.

d. EO 13058 encourages the heads of executive agencies to evaluate the need to further restrict smoking at doorways and in courtyards under executive branch control and authorizes the agency heads to restrict smoking in these areas in light of this evaluation.

e. The policy requirements announced by this bulletin are applicable to leased or owned space under the jurisdiction, custody or control of GSA. In addition, federally leased space located in a privately owned building is subject to state and local government smoking restrictions, if the restrictions are more stringent than the federal policy.

f. The revisions to the previous smoking policy may affect conditions of employment for employees. Where there is an exclusive representative for the employees, executive branch agencies will be required to meet their collective bargaining obligations under the Federal Service Labor-Management Relations Act, as amended, 5 U.S.C. Ch. 71, Labor-Management Relations, before the revisions to the previous smoking policy can be implemented.

4. *Action.*

a. As ordered by EO 13058, it is the policy of the executive branch to establish a smoke-free environment for federal employees and members of the public visiting or using federal facilities. In furtherance of this policy, executive agencies must prohibit the smoking of tobacco products in all interior space owned, rented or leased by the executive branch of the Federal Government, and in any outdoor areas under executive branch control in front of air intake ducts. In addition, effective [insert date 6 months after publication of FMR amendment on smoking, FMR Case 2008-102-3], smoking is prohibited in courtyards and within 25 feet of doorways and air intake ducts on outdoor space under the jurisdiction, custody or control of GSA. This date provides a six-month phase-in period
