

vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

#### Request for Comments

FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31136(e) and 31315. However, FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by January 21, 2009.

FMCSA believes that the requirements for a renewal of an exemption under 49 U.S.C. 31136(e) and 31315 can be satisfied by initially granting the renewal and then requesting and evaluating, if needed, subsequent comments submitted by interested parties. As indicated above, the Agency previously published notices of final disposition announcing its decision to exempt these 44 individuals from the vision requirement in 49 CFR 391.41(b)(10). The final decision to grant an exemption to each of these individuals was based on the merits of each case and only after careful consideration of the comments received to its notices of applications. The notices of applications stated in detail the qualifications, experience, and medical condition of each applicant for an exemption from the vision requirements. That information is available by consulting the above cited **Federal Register** publications.

Interested parties or organizations possessing information that would otherwise show that any, or all of these drivers, are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

The guidance explains FTA's interpretation of the provision, which allows the acquisition of pre-existing railroad right-of-way, under certain conditions, before the completion of the environmental review for a transit project that would use the right-of-way. FTA requests comments on this guidance, which is available on the U.S. Government electronic docket site and on the FTA Web site.

**SUPPLEMENTARY INFORMATION:** Section 3024 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) added a new provision at 49 U.S.C. 5324(c) that allows a grant applicant, under conditions that may be specified by the Secretary of Transportation, to acquire existing railroad right-of-way prior to the completion of the environmental review of the transportation project(s) that will eventually use that right-of-way. Under authority delegated by the Secretary, FTA has developed proposed guidance that would (1) specify the conditions under which this provision may be used and (2) give guidance on applying that provision to specific situations. We request your comments on the guidance, which is available in the U.S. Government's electronic docket site at <http://www.regulations.gov> under docket number FTA-2008-0054 and on the FTA Web site at <http://www.fta.dot.gov> under "Planning and Environment."
