

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The Commission is requesting an extension (no change in the reporting and/or recordkeeping requirements) of this information collection. The Commission is reporting a significant decrease in the estimated number of respondents/responses since this was last submitted to OMB in 2006. In 2006, the Commission reported 10 respondents/responses with 6,000 total annual burden hours. For this submission to the OMB, the number of respondents/responses increased to 24 with an estimated annual burden of 6,000 total annual burden hours and an increase in annual costs. The annual costs are now estimated to be \$785,320 (no costs were estimated in 2006). The reasons for the change in burden are thus:

(1) The estimated time per response was changed from 6,000 hours to 250 hours;

(2) A re-estimate of the number of respondents/responses from 10 to 24 respondents; and

(3) The annual costs have been added to include a \$32,680 filing fee per 47 CFR 1.1105. Section 43.43 establishes the reporting requirements for depreciation prescription purposes. Communication common carriers with annual operating revenues of \$138 million or more that the Commission has found to be dominant must file information specified in Section 43.43 before making any change in the depreciation rates applicable to their operating plant. Section 220 also allows the Commission, in its discretion, to prescribe the form of any and all accounts, records, and memoranda to be kept by carriers subject to the Act, including the accounts, records and memoranda of the movement of traffic, as well as receipts and expenditures of moneys. Carriers are required to file four summary exhibits along with the underlying data used to generate them, and must provide the depreciation factors (*i.e.*, life, salvage, curve shape, depreciation reserve) required to verify the calculation of the carrier's depreciation expenses and rates. Mid-sized carriers are no longer required to file theoretical reserve studies. Certain price cap incumbent LECs in certain instances may request a waiver of the depreciation prescription process.

OMB Control Number: 3060-0441.

Title: Section 90.621(b)(4) and (b)(5), Selection and Assignment of Frequencies.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit; not-for-profit institutions and state, local or tribal government.

Number of Respondents: 20 respondents; 20 responses.

Estimated Time per Response: Respondents contracting out the on occasion reporting requirement will need an estimated .5 hours to comply with this requirement and respondents who will use in-house respondents will need an estimated 1.5 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 154(i) and 309(j).

Total Annual Burden: 30 hours.

Total Annual Cost: \$2,000.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The Commission is requesting a revision which is due to the elimination of a reporting requirement for minor modification applicants filing pursuant to Short-Spacing Separation Table of under section 90.621(b)(4), which previously required that licensees file notifications of such minor modifications, as well as, the implementation of the 800 MHz re-banding *2nd Report and Order*. There are no additional recordkeeping or other compliance requirements imposed beyond those contained in the *800 MHz Report and Order*, 61 FR 41190 (July 31, 1997). The Commission has adjusted this collection to reflect the decrease in the total number of filings made pursuant to sections 90.621(b)(4) that do not involve compliance with the referenced short spacing table and 90.621(b)(5) since the time of the previous OMB submission. The Commission reported 1,000 responses in 2006 which we have reduced to 20; the burden hours have reduced from 1,500 hours to 30 hours; and the annual cost has reduced from \$100,000 to \$2,000.

The Commission will continue to use this information to determine whether to grant licenses to applicants making "minor modifications" to their systems which do not satisfy mileage separation requirements pursuant to the Short-Spacing Separation Table.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0999.

Title: Hearing Aid Compatibility Status Report and section 20.19, Hearing Aid-Compatible Mobile Handsets (Hearing Aid-Compatibility Act).

Form No.: FCC Form 655—electronic only.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 925 respondents; 925 responses.

Estimated Time per Response: 1–2.5 hours.

Frequency of Response: Annual and on occasion reporting requirement and third party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154(i), 157, 201, 202, 208, 214, 301, 303, 308, 309(j) and 310.

Total Annual Burden: 12,063 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality:

Information in the reports may include confidential information. However, covered entities would be allowed to request that such materials submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection (IC) to the OMB as a revision during this comment period to obtain the full three-year clearance from them. There is a slight change in the number of respondents/responses. In 2008, we reported 950 respondents/responses. Therefore, the Commission has recalculated the estimates and the annual burden hours have decreased by 537 hours.

In the First Report and Order in WT Docket No. 07–250, FCC 08–68, which updated several of the performance benchmarks for manufacturers and service providers, and instituted new requirements for manufacturers to refresh their product lines and for service providers to offer hearing aid-compatible handset models with differing levels of functionality. The Commission also adopted a new version of the technical standard for measuring hearing aid compatibility, and addressed the application of the rules to phones that operate in multiple frequency bands or air interfaces. In order to avoid potential consumer confusion over technical capabilities, the Order also modified the product labeling requirements slightly.

The Commission is also revising this information collection to implement mandatory electronic filing using the newly created FCC Form 655. Many of these data elements have already been approved by OMB, however, the Commission decided to create this new electronic form to eliminate the paper-based annual reports and will require annual reports filed by manufacturers and service providers beginning on July 15, 2009. Use of the electronic FCC Form 655 will help filers ensure that their reports include all of the required information, will facilitate the Commission's compilation of data from the reports, and will decrease the paperwork burden on all respondents.
