SUPPLEMENTARY INFORMATION: Pursuant to section 2101 of the Public Health Service Act (42 U.S.C. 300aa-1), the Secretary of Health and Human Services was mandated to establish the National Vaccine Program to achieve optimal prevention of human infectious diseases through immunization and to achieve optimal prevention against adverse reactions to vaccines. The National Vaccine Advisory Committee was established to provide advice and make recommendations to the Director of the National Vaccine Program, on matters related to the Program's responsibilities. The Assistant Secretary for Health serves as Director of the National Vaccine Program.

Topics to be discussed at the meeting include vaccine safety recommendations, the National Vaccine Plan, adult immunization recommendations, NVAC evaluation, vaccine stockpile, vaccine financing, 2009 H1N1 influenza outbreak, and other related issues. The meeting agenda will be posted on the Web site: <http://www.hhs.gov/nvpo/nvac> by May 18, 2009.

Public attendance at the meeting is limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the designated contact person at least one week prior to the meeting. Members of the public will have the opportunity to provide comments at the meeting. Public comment will be limited to five minutes per speaker. Individuals who would like to submit written statements should e-mail or fax their comments to the National Vaccine Program Office at least five business days prior to the

meeting. Register by sending an e-mail to nvpo@hhs.gov or by calling 202-690-5566 and providing name, e-mail address and organization.

Dated: April 29, 2009.
Bruce Gellin,
Deputy Assistant Secretary for Health, Director, National Vaccine Program Office.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 and send comments to Maryam I. Daneshvar, CDC Acting Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should

be received within 60 days of this notice.

Proposed Project

Tremolite Asbestos Registry (TAR) OMB# 0923-0039—Extension—Agency for Toxic Substances and Disease Registry, (ATSDR) Centers for Disease Control and Prevention, (CDC).

Background and Brief Description

The Agency for Toxic Substances and Disease Registry (ATSDR) is mandated pursuant to the 1980 Comprehensive Environmental Response Compensation and Liability Act (CERCLA) and its 1986 Amendments, the Superfund Amendments and Re-authorization Act (SARA), to establish and maintain national registries of persons who have been exposed to hazardous substances in the environment and national registries of persons with illnesses or health problems resulting from such exposure. In 2003, ATSDR created the Tremolite Asbestos Registry (TAR) as a result of this legislation in an effort to provide scientific information about potential adverse health effects people develop as a result of exposure to the amphibole fibers that are found in vermiculite mined from Libby, Montana. The purpose of the TAR is to improve communication with people at risk for developing asbestos-related diseases resulting from exposure in Libby, Montana and to support research activities related to TAR registrants. The TAR is currently composed of information about former vermiculite workers, the people that lived with them during their tenure as vermiculite workers (*i.e.*, the workers' household contacts), and people who participated in screening programs funded by ATSDR conducted in Libby and other sites that received Libby vermiculite. TAR participants are interviewed to collect information on exposure pathways, tobacco use, and health outcomes. The standardized TAR survey is administered using a computer-assisted personal interview instrument.

There is no cost to the respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS
