

SUMMARY: The Environmental Protection Agency has decided to terminate the National Environmental Performance Track Program.

DATES: The Performance Track Program is terminated effective May 14, 2009.

FOR FURTHER INFORMATION CONTACT: Chuck Kent, Office of Policy, Economics and Innovation, 202-566-2805 or by e-mail at Kent.Chuck@epa.gov.

SUPPLEMENTARY INFORMATION: On June 26, 2000, EPA announced the launch of the National Environmental Performance Track, "Performance Track", which was initially designed to have two levels, the "Achievement Track," and the "Stewardship Track." On July 6, 2000, EPA published in the **Federal Register** (65 FR 41655) the design of the Achievement Track level of the Performance Track program. The Achievement Track was subsequently renamed the National Environmental Performance Track Program and the development of the Stewardship Track led instead to the creation of the Performance Track Corporate Leader designation.

On March 16, 2009, EPA Administrator Lisa P. Jackson issued a memorandum halting the Performance Track Program. The Administrator's memorandum was followed by a memorandum from Chuck Kent, Director, Office of Policy Economics, and Innovation, dated March 25, 2009, which provided more details about the termination, including that the low priority for routine inspections incentive is no longer in effect. This notice announces that EPA's decision to terminate the Performance Track Program is effective as of the date of this publication, and provides public notice that the low priority for routine inspections incentive for Performance Track facilities is hereby terminated.

Dated: May 11, 2009.

Marcia E. Mulkey,

Acting Associate Administrator, Office of Policy, Economics and Innovation.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority, Comments Requested

May 5, 2009.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden

invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, 44 U.S.C. 3501-3520. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comment on this information collection should submit comments by July 13, 2009. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget (OMB), via fax at 202-395-5167, or via the Internet at Nicholas.A.Fraser@omb.eop.gov and to Judith-B.Herman@fcc.gov, Federal Communications Commission (FCC). To submit your comments by e-mail send them to: PRA@fcc.gov.

To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the Web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the Web page called "Currently Under Review", (3) click the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box and (6) when the list of FCC ICRs currently under review appears, look for the title of this ICR (or its OMB Control Number, if there is one) and then click on the ICR Reference Number to view detailed information about this ICR.

FOR FURTHER INFORMATION CONTACT: For additional information, send an e-mail to Judith B. Herman at 202-418-0214.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0259.
Title: Section 90.263, Substitution of Frequencies Below 25 MHz.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit and State, local or Tribal government.

Number of Respondents: 35 respondents; 35 responses.

Estimated Time per Response: .50 hours.

Frequency of Response: On occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. Sections 4(i), 11, 303(g), 303(r), and 332(c)(7) of the Communications Act of 1934, as amended.

Total Annual Burden: 18 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The Commission is requesting an extension (no change in the reporting requirement) of this information collection. The Commission is reporting a decrease of 12 total annual burden hours since this information collection was last submitted to OMB in 2006 for review and approval. The reason for the decrease is fewer respondents (now 35 respondents rather than 60 in 2006). Thus, the total annual burden hours has been adjusted now to 18 total annual burden hours.

Section 90.263 requires applicants proposing operations in certain frequency bands below 25 MHz to submit precise information concerning transmitter output power, type and directional characteristics, if any, and the antenna, and the minimum necessary hours of operation.

OMB Control Number: 3060-0264.

Title: Section 80.413, On-board Station Equipment Records.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit and State, local or Tribal government.

Number of Respondents: 1,000 respondents; 1,000 responses.

Estimated Time per Response: 2 hours.

Frequency of Response: Recordkeeping requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. Sections 4, 303, 307(e), 309 and 332 of the Communications Act of 1934, as amended.

Total Annual Burden: 2,000 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The Commission is requesting an extension (no change in the recordkeeping requirement) of this information collection. There is no change in the hourly burden estimate.

Section 80.413 requires the licensee of an on-board station to keep equipment records which show: (1) The ship name and identification of the on-board station; (2) the number of and type of repeater and mobile units used on-board the vessel; and (3) the date the type of equipment which is added or removed from the on-board station.

The information is used by FCC personnel during inspections and investigations to determine what mobile units and repeaters are associated with on-board stations aboard a particular vessel. If this information were not collected, no means would be available to determine if this type of radio equipment is authorized or who is responsible for its operation. Enforcement and frequency management programs would be negatively affected.

OMB Control Number: 3060-0297.

Title: Section 80.503, Cooperative Use of Facilities.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and State, local or Tribal government.

Number of Respondents: 100 respondents; 100 responses.

Estimated Time per Response: 16 hours.

Frequency of Response:

Recordkeeping requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. Sections 4, 303, 307(e), 309, and 332 of the Communications Act of 1934, as amended.

Total Annual Burden: 1,600 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The Commission is requesting an extension (no change in the recordkeeping requirement) of this information collection. There is no change in the hourly burden estimate.

Section 80.503 states that a person engaged in the operation of one or more commercial transport vessels or government vessels may receive maritime mobile service from a private coast station or a marine utility station on shore even though not the licensee of the private coast station or the marine utility station. Restrictions on cooperative arrangements are as follows:

(1) Foreign persons must be the licensees of the radio stations installed on board their vessels.

(2) The licensee of a private coast station or marine utility station on shore may install ship radio stations on board United States commercial transport vessels of other persons. In each case these persons must enter into a written agreement verifying that the ship station licensee has the sole right of control of the ship stations, that the vessel operators must use the ship stations subject to the orders and instructions of the coast station or marine utility station on shore, and that the ship station licensee will have sufficient control of the ship station to enable it to carry out its responsibilities under the ship station license.

(a) Cooperative arrangements are limited concerning cost and charges as follows:

(1) The arrangement must be established on a non-profit, cost-sharing basis by written contract. A copy of the contract must be kept with the station records and made available for inspection by Commission representatives.

(2) Contributions to capital and operating expenses are to be prorated on an equitable basis among all persons who are parties to the cooperative arrangement. Records which reflect the cost of the service and its non-profit, cost-sharing nature must be maintained by the licensee of the station and made available for inspection by Commission representatives.

The information is used by FCC personnel during inspection and investigations to insure compliance with applicable rules. If this information were not available, enforcement efforts could be hindered, frequency

congestion in certain bands could increase, and the financial viability of some public coast radiotelephone stations could be threatened.

OMB Control Number: 3060-0387.

Title: Sections 15.201(d), 15.211, 15.213, and 15.221, On-Site Verification of Field Disturbance Sensors.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 200 respondents; 200 responses.

Estimated Time per Response: 18 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. Sections 4(i), 301, 302, 303(e), 303(f), 303(r), 303(s), 304, and 307 of the Communications Act of 1934, as amended.

Total Annual Burden: 3,600 hours.

Total Annual Cost: \$40,000.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: Applicants may request that information be withheld from public inspection pursuant to 47 CFR 0.457(d) for trade secrets which may be submitted to the Commission as part of the documentation of test results. No other assurance of confidentiality are provided to respondents.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The Commission is requesting an extension (no change in the reporting and/or recordkeeping requirements) of this information collection. There is no change in the burden estimates.

OMB Control Number: 3060-0441.

Title: Section 90.621, Selection and Assignment of Frequencies and Section 90.693, Grandfathering Provisions for Incumbent Licensees.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and State, local or Tribal government.

Number of Respondents: 20 respondents; 20 responses.

Estimated Time per Response: 1.5 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory

authority for this information collection is contained in 47 U.S.C. Sections 154 and 309(j) of the Communications Act of 1934, as amended.

Total Annual Burden: 30 hours.

Total Annual Cost: \$2,000.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality:

There is no need for confidentiality.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The Commission is requesting an extension (no change in the reporting and/or recordkeeping requirements) of this information collection. There is a change in the number of respondents since this was last submitted to OMB for approval. The estimated number of respondents has decreased by 980 fewer respondents; and 1,470 hourly burden reduction adjustments. The Commission is also reporting a \$98,000 annual cost decrease since the 2006 submission.

Section 90.621(b)(4) allows stations to be licensed at distances less than those prescribed in the Short-Spacing Separation Table where applicants "secure a waiver". Applicants seeking a waiver in these circumstances are still required to submit with their application an interference analysis, based upon any of the generally-accepted terrain-based propagation models, demonstrating that co-channel stations would receive the same or greater interference protection than provided in the Short-Spacing Separation Table.

Section 90.621(b)(5) permits stations to be located closer than the required separation, so long as the applicant provides letters of concurrence indicating that the applicant and each co-channel licensee within the specified separation agree to accept any interference resulting from the reduced separation between systems. Applicants are still required to file such concurrence letters with the Commission. Additionally, the Commission did not eliminate filings required by provisions such as international agreements, its environmental (National Environmental Protection Act (NEPA)) rules, its antenna structure registration rules, or quiet zone notification/filing procedures.

Section 90.693 requires that 800 MHz incumbent Specialized Mobile Radio (SMR) service licensees "notify the Commission within 30 days of any changes in technical parameters or additional stations constructed that fall within the short-spacing criteria." It has

been standard practice for incumbents to notify the Commission of all changes and additional stations constructed in cases where such stations are in fact located less than the required 70 mile distance separation, and are therefore technically "short-spaced", but are in fact fully compliant with the parameters of the Commission's Short-Spacing Separation Table.

The Commission uses this information to determine whether to grant licenses to applicants making "minor modifications" to their systems which do not satisfy mileage separation requirements pursuant to the Short-Spacing Separation Table.

Marlene H. Dortch,

Secretary, Federal Communications Commission.

BILLING CODE 6712-01-P

FEDERAL RESERVE SYSTEM

Agency Information Collection Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB

SUMMARY: *Background.* Notice is hereby given of the final approval of proposed information collections by the Board of Governors of the Federal Reserve System (Board) under OMB delegated authority, as per 5 CFR 1320.16 (OMB Regulations on Controlling Paperwork Burdens on the Public). Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the Paperwork Reduction Act Submission, supporting statements and approved collection of information instrument(s) are placed into OMB's public docket files. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

FOR FURTHER INFORMATION CONTACT:

Acting Federal Reserve Board Clearance Officer—Cynthia Ayouch—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202-452-3829).

OMB Desk Officer—Shagufta Ahmed—Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.

Final approval under OMB delegated authority of the extension for three

years, without revision of the following reports:

1. *Report title:* The Senior Loan Officer Opinion Survey on Bank Lending Practices.

Agency form number: FR 2018.

OMB control number: 7100-0058.

Frequency: Up to six times a year.

Reporters: Large U.S. commercial banks and large U.S. branches and agencies of foreign banks.

Annual reporting hours: 1,008 hours.

Estimated average hours per response: 2 hours.

Number of respondents: 84.

Small businesses are not affected.

General description of report: This information collection is voluntary (12 U.S.C. 225a, 248(a)(2), and 3105(c)(2)) and is given confidential treatment (5 U.S.C. 552 (b)(4)).

Abstract: The FR 2018 is conducted with a senior loan officer at each respondent bank, generally through a telephone interview, up to six times a year. The purpose of the survey is to provide qualitative and limited quantitative information on credit availability and demand, as well as evolving developments and lending practices in the U.S. loan markets. Consequently, a portion of the questions in each survey typically covers special Topics of timely interest. There is the option to survey other types of respondents (such as other depository institutions, bank holding companies, or other financial entities) should the need arise. The FR 2018 survey provides crucial information for monitoring and understanding the evolution of lending practices at banks and developments in credit markets.

Current Actions: On February 26, 2009, the Federal Reserve published a notice in the **Federal Register** (74 FR 8794) requesting public comment for 60 days on the extension, without revision, of the Senior Loan Officer Opinion Survey. The comment period for this notice expired on April 27, 2009. No comments were received.

2. *Report title:* Senior Financial Officer Survey.

Agency form number: FR 2023.

OMB control number: 7100-0223.

Frequency: Up to four times a year.

Reporters: Large commercial banks.

Annual reporting hours: 240 hours.

Estimated average hours per response: 1 hour.

Number of respondents: 60.

Small businesses are not affected.

General description of report: This information collection is voluntary (U.S.C. 225a, 248(a), and 263). It has been anticipated that most, if not all, of the information to be collected on the FR 2023 would be exempt from
