DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2008-0020]

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps

are available for inspection as indicated on the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton Jr., Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Assistant Administrator of the Mitigation Directorate has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This final rule is categorically excluded

from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Atlantic Highly Migratory Species; 2009 Atlantic Bluefin Tuna Quota Specifications and Effort Controls; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; correction.

SUMMARY: NMFS published a final rule in the **Federal Register** on June 1, 2009, concerning the final 2009 fishing year specifications for the Atlantic bluefin tuna (BFT) fishery, including quotas for each of the established domestic fishing categories and effort controls for the General category and Angling category. While the effective dates in the **DATES** section were correct, the rule contained a typo with regard to effective dates of the BFT daily retention limits in the **SUPPLEMENTARY INFORMATION** section. This document corrects that typo.

DATES: This correction is effective on June 1, 2009.

FOR FURTHER INFORMATION CONTACT: Sarah McLaughlin, 978-281-9260.

SUPPLEMENTARY INFORMATION:

Correction

In rule FR Doc. E9-12654 that published in the **Federal Register** on June 1, 2009 (74 FR 26112) make the following correction. On page 26112, in the first column, revise **SUPPLEMENTARY INFORMATION** sections IV and V to read as follows:

IV. General Category Effort Controls

Because of the large quota available for the General category, NMFS

increases the daily retention limit of BFT for the June-August subperiod from the default one-fish retention limit to a three-fish limit. Therefore, persons aboard vessels permitted in the General category may retain three large medium or giant BFT (measuring 73 inches or greater) per vessel per day/trip from June 1, 2009 through August 31, 2009. The BFT retention limit may be adjusted via inseason action, if warranted, under § 635.23(a)(4).

V. Angling Category Effort Controls

This final rule establishes an Angling category retention limit of one school BFT (27 inches to less than 47 inches), and one large school/small medium BFT (47 inches to less than 73 inches) per vessel per day/trip. This retention limit is effective for persons aboard vessels permitted in the Angling category from June 1, 2009 through December 31, 2009. This retention limit may be adjusted via inseason action, if warranted, under § 635.23(b)(3).

Dated: June 11, 2009.

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
