BILLING CODE 4830-01-P

DEPARTMENT OF THE TREASURY

Bureau of Engraving and Printing

Privacy Act of 1974, as Amended; Systems of Records

AGENCY: Bureau of Engraving and Printing, Treasury.

ACTION: Notice of systems of records.

SUMMARY: In accordance with the requirements of the Privacy Act of 1974, as amended, 5 U.S.C. 552a, the Bureau of Engraving and Printing is publishing its inventory of Privacy Act systems of records.

SUPPLEMENTARY INFORMATION: Pursuant to the Privacy Act of 1974 (5 U.S.C. 552a) and the Office of Management and Budget (OMB) Circular No. A-130, Bureau of Engraving and Printing (BEP) has completed a review of its Privacy Act systems of records notices to identify minor changes that will more accurately describe these records.

On May 22, 2007, the Office of Management and Budget (OMB) issued Memorandum M-07-16 entitled "Safeguarding Against and Responding to the Breach of Personally Identifiable Information." It required agencies to publish the routine use recommended by the President's Identity Theft Task Force. As part of that effort, the Department published the notice of the proposed routine use on October 3, 2007, at 72 FR 56434 and was effective on November 13, 2007. The new routine use has been added to each BEP system of records below. Other changes throughout the document are editorial in nature and consist principally of minor editorial changes and editing of headings for consistency, and to add a "purposes" statement to each system of records notice.

Department of the Treasury regulations require the Department to publish the existence and character of all systems of records every three years (31 CFR 1.23(a)(1)). The BEP has leveraged this requirement to incorporate the review of its current holding of personally identifiable information required by M-07-16. With respect to its inventory of Privacy Act systems of records, the BEP has determined that the information contained in its systems of records is accurate, timely, relevant, complete, and is the minimum necessary to maintain

the proper performance of a documented agency function.
