

and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed reinstatement of the "Current Population Survey (CPS) Displaced Worker, Job Tenure, and Occupational Mobility Supplement." A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section of this notice on or before October 5, 2009.

ADDRESSES: Send comments to Carol Rowan, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue, NE., Washington, DC 20212. Written comments also may be transmitted by fax to 202-691-5111. (This is not a toll free number.)

SUPPLEMENTARY INFORMATION:

I. Background

The CPS Displaced Worker, Job Tenure, and Occupational Mobility supplement is conducted biennially and was last collected in January 2008.

This supplement will gather information on workers who have lost or left their jobs because their plant or company closed or moved, there was insufficient work for them to do, or their position or shift was abolished. Data will be collected on the extent to which displaced workers received advance notice of job cutbacks or the closing of their plant or business. For those workers who have been reemployed, the supplement will gather data on the types of jobs they found and will compare current earnings with those from the lost job.

The incidence and nature of occupational changes in the preceding year will be queried. The survey also probes for the length of time workers (including those who have not been

displaced) have been with their current employer. Additional data to be collected include information on the receipt of unemployment compensation, the loss of health insurance coverage, and the length of time spent without a job.

Because this supplement is part of the CPS, the same detailed demographic information collected in the CPS will be available on respondents to the supplement. Comparisons will be possible across characteristics such as sex, race, age, and educational attainment of the respondent.

The information collected by this survey will be used to determine the size and nature of the population affected by job displacements and the needs and scope of programs serving adult displaced workers. It also will be used to assess employment stability by determining the length of time workers have been with their current employer and estimating the incidence of occupational change over the course of a year. Combining the questions on displacement, job tenure, and occupational mobility will enable analysts to obtain a more complete picture of employment stability.

II. Current Action

Office of Management and Budget clearance is being sought for the CPS Displaced Worker, Job Tenure, and Occupational Mobility Supplement. A reinstatement of this previously approved collection for which approval has expired is needed to provide the Nation with timely information about the size and characteristics of the population affected by job displacements as well as an assessment of occupational stability and change.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Type of Review: Reinstatement, without change, of a previously approved collection for which approval has expired.

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0335]

Notice of Availability of Draft Interim Staff Guidance Document for Fuel Cycle Facilities

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT: David Rahn, Senior Electrical/I&C Engineer, Technical Support Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20005-0001, Telephone: (301) 492-3115; Fax: (301) 492-3363; E-mail: David.Rahn@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC continues to prepare and issue Interim Staff Guidance (ISG)

documents for fuel cycle facilities and on the use of digital instrumentation and controls in nuclear facilities. These ISG documents provide clarifying guidance to the NRC staff when reviewing licensee integrated safety analyses, license applications or amendment requests, or other related licensing activities for fuel cycle facilities under 10 CFR Part 70. Draft DI&C-ISC-07, "Digital Instrumentation and Control Systems in Safety Applications at Fuel Cycle Facilities," Revision 0, is being prepared for use by NRC staff reviewers in the review of new license applications or amendments for fuel cycle facilities in conjunction with the NRC Digital Instrumentation and Control Project, and is now being issued for public review and comments.

II. Summary

The purpose of this notice is to notify the public of the availability for review and comments of DI&C-ISC-07, "Digital Instrumentation and Control Systems in Safety Applications at Fuel Cycle Facilities," Revision 0, which provides guidance to NRC staff when performing reviews regarding the use of digital instrumentation and controls in safety applications at fuel cycle facilities. Such reviews would be applicable to new license applications or amendment requests submitted pursuant to 10 CFR Part 70.

Upon receiving public comments, the NRC staff will evaluate the comments and make a determination to incorporate the comments, as appropriate. The NRC staff will incorporate the guidance from the approved ISG into a future revision to the standard review plan governing the performance of fuel cycle facility license application reviews.

DATES: Comments may be submitted by September 2, 2009. Comments received after this date will be considered, if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any one of the following methods. Please include Docket ID NRC-2009-0335 in the subject line of your comments. Comments submitted in writing or in electronic form will be posted on the Federal rulemaking Web site Regulations.gov. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed.

Federal Rulemaking Web site: Go to: <http://www.regulations.gov> and search for documents filed under Docket ID NRC-2009-0335. Address questions about NRC dockets by telephone: 301-492-3668; e-mail carol.gallagher@nrc.gov.

Mail comments to: Michael T. Lesar, Chief, Rulemaking and Directives Branch (RDB), Division of Administrative Services, Office of Administration, Mail Stop: TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by fax to RDB at (301) 492-3446.

III. Further Information
