Background and Purpose: The MLC, 2006, was adopted by the International Labour Conference of the International

Labour Organization (ILO) in February 2006. It sets out seafarers' rights to decent conditions of work and helps to create conditions of fair competition for shipowners. The MLC, 2006, has been designed to become the "fourth pillar" of the international regulatory regime for quality shipping complementing the key conventions of the International Maritime Organization (IMO), such as the International Convention for the Safety of Life at Sea, 1974, as amended (SOLAS), the International Convention on Standards of Training, Certification and Watchkeeping, 1978, as amended (STCW), and the International Convention for the Prevention of Pollution from Ships, 73/78 (MARPOL). The MLC, 2006, contains a comprehensive set of global standards, based on those that are already found in 68 maritime labour instruments adopted by the ILO since 1920.

Meeting Agenda: The purpose of this meeting is to provide the industry with an overview of the MLC, 2006, and to help clarify areas that may require additional interpretation. This meeting is strictly informational and it is not meant to discuss the merits of ratification of the MLC, 2006. The tentative agenda of the meeting is:

- Introduction to the MLC, 2006;
- Seafarer's perspective;
- Shipowner's perspective;
- Overview of the MLC, 2006;
- United States Process for ratification.
