Foreign Agricultural Service

Assessment of Fees for Dairy Import Licenses for the 2010 Tariff-Rate Import Quota Year

AGENCY: Foreign Agricultural Service, USDA.

ACTION: Notice.

SUMMARY: This notice announces a fee of \$150 to be charged for the 2010 tariff-rate quota (TRQ) year for each license issued to a person or firm by the U.S. Department of Agriculture (USDA) authorizing the importation of certain dairy articles, which are subject to tariff-rate quotas set forth in the Harmonized Tariff Schedule (HTS) of the United States.

DATES: *Effective Date:* August 14, 2009.

FOR FURTHER INFORMATION CONTACT:

Jorge Martinez, Dairy Import Licensing Program, Import Policies and Export Reporting Division, STOP 1021, U.S. Department of Agriculture, 1400 Independence Avenue, SW., Washington, DC 20250-1021 or telephone at (202) 720-9439 or e-mail at jorge.martinez@fas.usda.gov.

SUPPLEMENTARY INFORMATION: The Dairy Tariff-Rate Import Quota Licensing Regulation promulgated by USDA and codified at 7 CFR 6.20-6.37 provides for the issuance of licenses to import certain dairy articles that are subject to TRQs set forth in the HTS. Those dairy articles may only be entered into the United States at the in-quota TRQ tariff-rates by or for the account of a person

or firm to whom such licenses have been issued and only in accordance with the terms and conditions of the regulation.

Licenses are issued on a calendar year basis, and each license authorizes the license holder to import a specified quantity and type of dairy article from a specified country of origin. The use of such licenses is monitored by the Dairy Import Licensing Program, Import Policies and Export Reporting Division, Foreign Agricultural Service, USDA, and the U.S. Customs and Border Protection, U.S. Department of Homeland Security.

The regulation at 7 CFR 6.33(a) provides that a fee will be charged for each license issued to a person or firm by the Licensing Authority in order to defray USDA's costs of administering the licensing system under this regulation.

The regulation at 7 CFR 6.33(a) also provides that the Licensing Authority will announce the annual fee for each license and that such fee will be set out in a notice to be published in the **Federal Register**. Accordingly, this notice sets out the fee for the licenses to be issued for the 2010 calendar year.

Notice: The total cost to USDA of administering the licensing system for 2010 has been estimated to be \$333,000, and the estimated number of licenses expected to be issued is 2,300. Of the total cost, \$280,000 represents staff and supervisory costs directly related to administering the licensing system, and \$53,000 represents other miscellaneous costs, including travel, postage, publications, forms, and Automated Data Processing system support.

Accordingly, notice is hereby given that the fee for each license issued to a person or firm for the 2010 calendar year, in accordance with 7 CFR 6.33, will be \$150 per license.

Issued at Washington, DC, the 13th day of July 2009.

Ronald Lord,

Licensing Authority.

Natural Resources Conservation Service

Rehabilitation of Floodwater Retarding Structure No. 6 of the Calaveras Creek Watershed, Bexar County, TX

AGENCY: Natural Resources Conservation Service, USDA.

ACTION: Notice of a Finding of No Significant Impact.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR part 1500); and the Natural Resources Conservation Service Regulations (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the rehabilitation of Floodwater Retarding Structure No. 6 of the Calaveras Creek Watershed, Bexar County, Texas.

FOR FURTHER INFORMATION CONTACT:

Donald W. Gohmert, State Conservationist, Natural Resources Conservation Service, 101 South Main, Temple, Texas 76501-7682, Telephone (254) 742-9800.

SUPPLEMENTARY INFORMATION: The environmental assessment of this Federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Donald W. Gohmert, State Conservationist, has determined that the

preparation and review of an environmental impact statement is not needed for this project. The project will rehabilitate Floodwater Retarding Structure No. 6 to maintain the present level of flood control benefits and comply with the current performance and safety standards.

Rehabilitation of the site will require the dam to be modified to meet current performance and safety standards for a high hazard dam. The modification will consist of raising the top of dam 2.0 feet, extending the back toe of the embankment and flatten the back slope to a 3:1 slope, replace the existing principal spillway and plunge pool with a new principal spillway and impact basin, installation of a foundation drain system along the back toe of the embankment, realign and extend both auxiliary spillways, widen both auxiliary spillways by 55 feet and installing a splitter dike in both auxiliary spillways. All disturbed areas will be planted to adapted native and/or introduced species. The proposed work will not have a significant effect on any prime farmland, endangered or threatened species, wetlands, or cultural resources.

Federal assistance will be provided under authority of the Small Watershed Rehabilitation Amendments of 2000 (Section 313, Pub. L. 106-472). Total project cost is estimated to be \$1,821,900, of which \$1,293,800 will be paid from the Small Watershed Rehabilitation funds and \$528,100 from local funds.

The notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Donald W. Gohmert, State Conservationist.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

Dated: August 7, 2009.

Donald W. Gohmert,

State Conservationist.
