DEPARTMENT OF ENERGY

State Energy Advisory Board; Notice of Open Meeting

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a Board Meeting of the State Energy Advisory Board (STEAB). The Federal Advisory Committee Act (Pub. L. 92-463; 86 Stat. 770) requires that public notice of these meetings be announced in the **Federal Register**.

DATES: November 10-12, 2009.

ADDRESSES: North Carolina State University, Dorothy and Roy Park Alumni Center, 2450 Alumni Drive, Centennial Campus, Raleigh, NC 27606.

FOR FURTHER INFORMATION CONTACT: Gary Burch, STEAB Designated Federal Officer, Office of Commercialization and Project Management, Golden Field Office, U.S. Department of Energy, 1617 Cole Boulevard, Golden, CO 80401, Telephone 303-275-4801.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: To make recommendations to the Assistant Secretary for the Office of Energy

Efficiency and Renewable Energy regarding goals and objectives, programmatic and administrative policies, and to otherwise carry out the Board's responsibilities as designated in the State Energy Efficiency Programs Improvement Act of 1990 (Pub. L. 101-440).

Tentative Agenda: Discuss ways the State Energy Advisory Committee can continue to support the Department of Energy's (DOE) commercialization and deployment efforts, consider potential collaborative activities with State Energy Programs in order to facilitate renewable energy advancement, find ways to encourage energy efficiency market transformation, and update members on routine business matters affecting the Board.

Public Participation: The meeting is open to the public. Written statements may be filed with the Board either before or after the meeting. Members of the public who wish to make oral statements pertaining to agenda items should contact Gary Burch at the address or telephone number listed above. Requests to make oral comments must be received five days prior to the meeting; reasonable provision will be made to include requested topic(s) on the agenda. The Chair of the Board is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business.

Minutes: The minutes of the meeting will be available for public review and copying within 60 days on the STEAB web site, <http://www.steab.org>.

Issued at Washington, DC, on September 4, 2009.

Rachel Samuel,

Deputy Committee Management Officer.

DEPARTMENT OF ENERGY

Western Area Power Administration

Notice of Cancellation of the Transmission Agency of Northern California Transmission Project, Environmental Impact Statement

AGENCY: Western Area Power Administration, DOE.

ACTION: Cancellation of Transmission Agency of Northern California Transmission Project Environmental Impact Statement.

SUMMARY: Western Area Power Administration (Western), an agency of the Department of Energy (DOE), is canceling preparation of the Environmental Impact Statement/

Environmental Impact Report (EIS/EIR) for construction, operation, and maintenance of the proposed Transmission Agency of Northern California (TANC) Transmission Project, which would have included building and upgrading over 600 miles of 230-kilovolt (kV) and 500-kV transmission lines and associated equipment and facilities in northern California.

FOR FURTHER INFORMATION CONTACT: For further information, please contact Mr. David Young, NEPA Document Manager, Western Area Power Administration, Sierra Nevada Region, 114 Parkshore Drive, Folsom, CA 95630, telephone (916) 353-4777, fax (916) 353-4772, or e-mail TTPEIS@wapa.gov. For general information on DOE's NEPA review procedures or status of a NEPA review, contact Ms. Carol M. Borgstrom, Director of NEPA Policy and Compliance, GC-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585, telephone (202) 586-4600 or (800) 472-2756.

SUPPLEMENTARY INFORMATION: On February 23, 2009, Western issued a Notice of Intent to prepare an EIS/EIR for the construction, operation, and maintenance of the TANC Transmission Project (74 FR 8086).¹ The project, as proposed, would have included building and upgrading over 600 miles of 230-kV and 500-kV transmission lines and associated equipment and facilities in northern California. In its Notice of Intent, Western described the schedule for scoping meetings for the EIS/EIR, and advised the public that comments regarding the scope of the EIS/EIR were due by April 30, 2009. Western held all public scoping meetings as scheduled. Because of requests from agencies and the public for more time to comment, Western extended the scoping period twice, with a final comment closing on July 30, 2009.

On July 15, 2009, the TANC Commission voted to terminate proceeding further with the environmental process and to stop development work for the TANC Transmission Project. On August 3, 2009, Western received notification from TANC, terminating its agreement with Western to prepare the EIS/EIR. Termination of the agreement terminates Western's obligation to prepare the EIS/EIR and involvement in the TANC Transmission Project. As a result, Western has ceased preparation of the EIS/EIR.

¹ On July 1, 1996, DOE's Assistant Secretary for Environmental, Safety and Health delegated to Western's Administrator, the authority to approve EISs for integrating main transmission system additions.
