4. Indicate the languages your members/patients seek health information. [Please use 20 words or less.]

##### *Health Information*

NIH produces a large number of health, medical, and science education materials and resources on a wide variety of health topics for audiences that include patients, family members and caregivers, medical, health and policy professionals, legislatures, and media professionals. Your response to the question below will help NIH better understand what new topics health consumers seek and better tailor the information we disseminate.

1. Please describe the health topics that are currently important to your members/patients (for example information on diseases, prevention, diagnosis, treatment, and health for

women, men, teens, children, etc.) Identify what language(s) the topics are requested. [Please use 100 words or less.]

##### *Health Information Sources*

NIH disseminates research advances to improve health and quality of life for all. Your responses to the questions below will help fulfill our mission to serve as a primary source of health information for consumers we may not be reaching and using sources ranging from community locations, to national organizations to new Internet sources such as online forums, blogs, podcasts, social network sites, wikis and other social media.

1. Indicate how you think NIH should use the new Internet sources to send health information to your members/patients and describe the cases when NIH should use these sources (for example, online forums, blogs, podcasts, social network sites, wikis). [Please use 200 words or less.]

2. List ideas you have for NIH to distribute health information to specific audiences and indicate which audiences and how to reach them (for example local, regional, or national channels, print, online, in-person events). [Please use 200 words or less.]

##### *NIH Awareness and Role in Health Communications*

NIH has a responsibility to communicate science-based, trustworthy public health and science information to a wide range of audiences, including the public at large, patients, family members, health care providers, scientists, public health workers, nonprofit health organizations, and professional societies. Your responses to the following questions will help us assess how familiar our audiences are with the agency's efforts to provide health information.

1. Please describe your organization's or practice's understanding of the NIH's role in (a) disseminating health information and (b) meeting the health information needs of the public. [Please use 200 words or less.]

2. Please describe how NIH can better communicate results of Federally-funded biomedical and behavioral research initiatives for maximum impact on the nation's health, both within your organization or practice and directly to the wider public. [Please use 200 words or less.]

##### *Open Response on Health Information*

1. Describe any additional information you would like NIH to know about health information and/or

health information resources. [Please use 300 words or less.]
