

SOCIAL SECURITY ADMINISTRATION**Privacy Act of 1974; as Amended
Proposed Alteration to an Existing
Privacy Act System of Records, and
New Routine Use**

AGENCY: Social Security Administration (SSA).

ACTION: Altered system of records and routine use.

SUMMARY: We are issuing public notice of our intent to alter an existing system of records and to add a routine use applicable to this system of records in accordance with the Privacy Act (5 U.S.C. 552a(e)(4) and (e)(11)). The system of records is entitled the *Attorney and Eligible Direct Pay Non-Attorney (EDPNA) 1099-MISC File* (60-0325), hereinafter referred to as the *Appointed Representative File*.

We propose the following changes:

- Expand the purpose for the *Appointed Representative File* system of records to allow us to collect, maintain, and use information covered by the system of records to administer activities (e.g., authentication, registration, payment, monitoring, and termination of appointment) of appointed representatives.

- Expand the category of persons covered by the system of records to include non-professional persons (e.g., a friend, neighbor, or minister). In 2010, we will expand the category of persons further to include firms and other professional entities as representatives.

- Expand the category of records we maintain in the system to include the representative's date of birth, cell phone information, and assigned representative identification number.

- Change the system of records name from the *Attorney and Eligible Direct Pay Non-Attorney (EDPNA) 1099-MISC File* to the *Appointed Representative File* to more accurately reflect the persons covered by the system of records. The change also reflects that we have created a single repository, identified as the Appointed Representative Database, in which we will maintain all representational data.

- Add our data protection routine use to the system of records to allow us to release information to appropriate entities, persons, and Federal, State, and local agencies when we suspect or confirm an unauthorized release of personally identifiable information.

We discuss the altered system of records and new routine use in the Supplementary Information section below. We invite public comments on this proposal.

DATES: We filed a report of the altered *Appointed Representative File* system of

records and new routine use disclosure with the Chairman of the Senate Committee on Homeland Security and Governmental Affairs, the Chairman of the House Committee on Oversight and Government Reform, and the Director, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB) on September 23, 2009. The altered *Appointed Representative File* system of records and new routine use will become effective on November 6, 2009, unless we receive comments before that date that would result in a contrary determination.

ADDRESSES: Interested persons may comment on this publication by writing to the Executive Director, Office of Privacy and Disclosure, Office of the General Counsel, Social Security Administration, Room 3-A-6 Operations Building, 6401 Security Boulevard, Baltimore, Maryland 21235-6401. All comments we receive will be available for public inspection at the above address.

Johnson, Social Insurance Specialist (Senior Analyst), Disclosure Policy Development and Services Division I, Office of Privacy and Disclosure, Office of the General Counsel, Social Security Administration, Room 3-A-6 Operations Building, 6401 Security Boulevard, Baltimore, Maryland 21235-6401, telephone: (410) 965-8563 or e-mail: chris.w.johnson@ssa.gov.

SUPPLEMENTARY INFORMATION:**I. Background and Purpose of the
Appointed Representative File System
of Records****A. General Background**

In order to increase the number of disability claims and appeals filed online, we established the Disability Direct initiative and created a staggered roll-out process to automate the disability claims and services process, to the maximum extent possible. Through the Disability Direct initiative, we will: (1) Simplify the online application process; (2) establish an automated suite of services for appointed representatives; and (3) receive application data and medical records by direct transmission from third parties and medical service providers. The Disability Direct initiative will improve online disability claims and appeals to help offset our labor-intensive disability workload.

On September 8, 2008, we published revisions to the Rules on Representation of Parties in the **Federal Register** (See 73 FR 51963 (September 8, 2008)) to make it easier for representatives to do

business with us electronically. We are altering the *Appointed Representative File* system of records specifically to implement an online suite of services for representatives. The online services will enable us to establish a framework of new business processes and systems enhancements and to provide comprehensive online services for representatives who wish to perform services on behalf of our claimants.

To ensure that we administer the appointed representative business process in a more efficient and effective manner, we propose to: (1) Expand the purpose for which we collect, maintain, and use the information covered by this system of records to include the overall administration of all representational activities of appointed representatives; (2) expand the category of persons covered by the system of records to include non-professional persons (e.g., a friend, neighbor, or minister); (3) expand the category of records we maintain in the system to include the representative's date of birth, cell phone information, and representative identification number; (4) change the name of the system of records to more accurately reflect the persons covered by the system of records; and (5) add our data protection routine use to the system of records.

Our long-standing policy is to recognize only persons as representatives. However, in the decades since we adopted that policy, the business practices of claimants' representatives have changed significantly. For example, many claimants prefer to hire a firm rather than a single person within a firm. Accordingly, to provide claimants better flexibility in pursuing matters before us, starting in 2010, we will recognize firms and other professional entities as representatives.

We will maintain all information about appointed representatives, regardless of the category, payment type, or representational status of the representative, in a single repository identified as the Appointed Representative Database, covered by the *Appointed Representative File* system of records.

**B. Discussion of Appointed
Representative File System of Records**

We believe that the proposed alteration will significantly strengthen the framework of the appointed representative business process, as well as our efforts to enhance the infrastructure for electronic paperless processes. The alteration brings together related information in a single repository designed to increase

communication efficiency with other key agency systems. It will also increase accuracy in the way we administer the representative process.

C. Discussion of New Routine Use

As recommended by the President's Identity Theft Task Force, as mandated by the Office of Management and Budget (OMB) in Memorandum M-07-16, and in accordance with the Privacy Act (5 U.S.C. 552a(e)(4) and (11)), we established a routine use that specifically permits us to disclose our information when we respond to the unintentional release of agency information (a data security breach). Such a routine use serves to protect the interests of the people whose information is at risk by allowing us to take appropriate steps to facilitate a timely and effective response to a data breach. (See 72 FR 69723 (December 10, 2007)).

II. Records Storage Medium and Safeguards for the Information Covered by the Appointed Representative File System of Records

We will maintain, in paper and electronic form, appointed representative information covered by the *Appointed Representative File* system of records. We will keep paper records in locked cabinets or in other secure areas. We will safeguard the security of the electronic information covered by the *Appointed Representative File* system of records by requiring the use of access codes to enter the computer system that will house the data.

We annually provide all of our employees and contractors with appropriate security awareness and training that includes reminders about the need to protect personally identifiable information and the criminal penalties that apply to unauthorized access to, or disclosure of, personally identifiable information. See 5 U.S.C. 552a(i)(1). Employees and contractors with access to databases maintaining personally identifiable information must sign a sanction document annually, acknowledging their accountability for inappropriately accessing or disclosing such information.

III. Effects of the Appointed Representative File System of Records and Routine Use Disclosure on the Rights of Individuals

A. Discussion Relating to the Alteration

We propose altering the *Appointed Representative File* system of records as part of our responsibilities in continuing

to expand our business processes. We will adhere to all applicable statutory requirements, including those under the Social Security Act and the Privacy Act, in carrying out our responsibilities. Therefore, we do not anticipate that the proposed alteration to this system of records will have any adverse effect on the privacy or other rights of the persons covered by the system of records.

B. Discussion Relating to the New Routine Use

The new routine use will serve to protect the interests of persons whose information could be at risk. We will take appropriate steps to facilitate a timely and effective response to a security breach of our data, thereby improving our ability to prevent, minimize, or remedy any harm that may result from a compromise of data maintained in our system of records. We do not anticipate that the new routine use will have any adverse effect on the rights of persons whose data might be disclosed.

IV. Compatibility of Proposed Routine Use

As mandated by OMB, as recommended by the President's Identity Theft Task Force, and in accordance with the Privacy Act (5 U.S.C. 552a(a)(7) and (b)(3)) and our disclosure regulation (20 CFR Part 401), we are permitted to release information under a published routine use for a purpose that is compatible with the purpose for which we collected the information. Section 401.20 of our regulations provides that we will disclose information required by law. Since OMB has mandated its publication, this routine use is appropriate and meets the relevant statutory and regulatory criteria. In addition, we disclose to other agencies, entities, and persons, when necessary, to respond to an unintentional release. These disclosures are compatible with the reasons we collect the information, as helping to prevent and minimize the potential for harm is consistent with taking appropriate steps to protect information entrusted to us. See 5 U.S.C. 552a(e)(10).

Dated: September 23, 2009.

Michael J. Astrue,
Commissioner.
