

J. Treasury and General Government Appropriations Act, 2001

The Treasury and General Government Appropriations Act, 2001 (44 U.S.C. 3516 note) provides for agencies to review most disseminations of information to the public under guidelines established by each agency pursuant to general guidelines issued by OMB. OMB's guidelines were published at 67 FR 8452 (February 22, 2002), and DOE's guidelines were published at 67 FR 62446 (October 7, 2002). DOE has reviewed today's notice under the OMB and DOE guidelines and has concluded that it is consistent with applicable policies in those guidelines.

K. Executive Order 13211

Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use," 66 FR 28355 (May 22, 2001), requires Federal agencies to prepare and submit to OMB a Statement of Energy Effects for any proposed significant energy action. A "significant energy action" is defined as any action by an agency that promulgated or is expected to lead to promulgation of a final rule, and that (1) is a significant regulatory action under Executive Order 12866, or any successor order; and (2) is likely to have a significant adverse effect on the supply, distribution, or use of energy; or (3) is designated by the Administrator of OIRA as a significant energy action. For any proposed significant energy action, the agency must give a detailed statement of any adverse effects on energy supply, distribution, or use should the proposal be implemented, and of reasonable alternatives to the action and their expected benefits on energy supply, distribution, and use. Today's regulatory action is not a significant regulatory action under Executive Order 12866 or any successor order; would not have a significant adverse effect on the supply, distribution, or use of energy; and has not been designated by the Administrator of OIRA as a significant energy action. Accordingly, DOE has not prepared a Statement of Energy Effects.

L. Executive Order 12630

Pursuant to Executive Order 12630, "Governmental Actions and Interference with Constitutionally Protected Property Rights," 53 FR 8859 (March 15, 1988), DOE has determined that this rule would not result in any takings that might require compensation under the Fifth Amendment to the U.S. Constitution.

M. Section 32 of the Federal Energy Administration Act of 1974

Under section 301 of the Department of Energy Organization Act (Pub. L. 95-91), the Department of Energy must comply with section 32 of the Federal Energy Administration Act of 1974 (Pub. L. 93-275), as amended by the Federal Energy Administration Authorization Act of 1977 (Pub. L. 95-70). (15 U.S.C. 788) Section 32 provides that where a proposed rule authorizes or requires use of commercial standards, the notice of proposed rulemaking must inform the public of the use and background of such standards. In addition, section 32(c) requires DOE to consult with the Department of Justice and the Federal Trade Commission concerning the impact of the commercial or industry standards on competition. This final rule to repeal the test procedure for determining the energy efficiency of television sets does not authorize or require the use of any commercial standards. Therefore, no consultation with either DOJ or FTC is required.

N. Congressional Notification

As required by 5 U.S.C. 801, DOE will report to Congress on the promulgation of today's rule before its effective date. The report will state that it has been determined that the rule is not a "major rule" as defined by 5 U.S.C. 804(2).

IV. Approval of the Office of the Secretary

The Secretary of Energy has approved publication of this final rule.

List of Subjects in 10 CFR Part 430

Administrative practice and procedure, Confidential business information, Energy conservation, Household appliances, Imports, Intergovernmental relations, Small businesses.

Issued in Washington, DC, on October 2, 2009.

Henry Kelly,

Principal Deputy Assistant Secretary, Energy Efficiency and Renewable Energy.

■ For the reasons stated in the preamble, part 430 of chapter II of title 10, Code of Federal Regulations, is amended as set forth below:

PART 430—ENERGY CONSERVATION PROGRAM FOR CONSUMER PRODUCTS

■ 1. The authority citation for Part 430 continues to read as follows:

Authority: 42 U.S.C. 6291-6309; 28 U.S.C. 2461 note.

§ 430.23 [Amended]

■ 2. Section 430.23 is amended by removing and reserving paragraph (h).

§ 430.24 [Amended]

■ 3. Section 430.24 is amended by removing and reserving paragraph (h).

Appendix H [Removed and Reserved]

■ 4. Appendix H to subpart B of part 430 is removed and reserved.

RIN 2120-A186

Pilot, Flight Instructor, and Pilot School Certification; Correction

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: The Federal Aviation Administration (FAA) is making several corrections to its "Pilot, Flight Instructor, and Pilot School Certification" final rule published in the **Federal Register** on August 21, 2009. The FAA corrections include standardizing certain part 61 time period durations from "60 days" to now read "2 calendar months." We are also correcting an omission and errors to the prerequisite eligibility requirements for use of flight simulators. Additionally, we are correcting the duration of a student pilot certificate to 60 calendar months for a student pilot seeking a sport pilot certificate. Finally, we are correcting a sentence in the preamble to conform with the final rule regarding the use of flight training devices.

DATES: These corrections are effective on October 20, 2009.

FOR FURTHER INFORMATION CONTACT: John D. Lynch, Certification and General Aviation Operations Branch, AFS-810, General Aviation and Commercial Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-3844; e-mail to john.d.lynch@faa.gov.

For legal interpretative questions about this final rule, contact: Michael Chase, AGC-240, Office of Chief Counsel, Regulations Division, Federal

Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-3110; e-mail to michael.chase@faa.gov.

SUPPLEMENTARY INFORMATION:

Background

The FAA published a final rule in the **Federal Register**, entitled "Pilot, Flight Instructor, and Pilot School Certification" on August 21, 2009 (74 FR 42500). That final rule made revisions to the training, qualification, certification, and operating rules for pilots, flight instructors, ground instructors, and pilot schools in part 61, part 91, and part 141. The FAA's intention was to update and clarify certain training and qualification rules for pilots, flight instructors, ground instructors, and pilot schools ensuring a better understanding of those rules relating to aircraft operations in the National Airspace System (NAS). However, the published final rule contained some inadvertent errors that we are now correcting.

In the amendatory instructions to § 61.3, we stated that we were revising paragraph (c)(2)(xii). However, paragraph (c)(2)(xii) is a new subparagraph in § 61.3. We are correcting the amendatory instruction to state that we are adding the new paragraph.

We revised § 61.39(a)(6)(i) to change the time period from "60 days" to read "2 calendar months." Since the publication of the final rule, the FAA has received numerous inquiries about this difference where § 61.39(a)(6)(i) reads "2 calendar months" and other sections reference "60 days." This conforming change should have been in the published final rule. For these reasons, we are now correcting §§ 61.99, 61.109, 61.129, and 61.313 to revise the references to "60 days" to read "2 calendar months." We are also adding clarifying language to these sections that the flight training must be conducted with an authorized instructor, which is the intent of § 61.39(a)(6)(1) and the definition of "flight training" in § 61.1. This correction will parallel §§ 61.99, 61.109, 61.129, and 61.313 with the new § 61.39(a)(6)(i), as originally intended.

In the preamble to the final rule, we stated: "The requirement that a minimum of a Level 5 flight training device be used if a flight training device is used for the practical test conforms with existing FAA policy." (*Id.* at 42522.) This sentence is not correct. The sentence should read: "The requirement that a minimum of a Level 5 flight training device be used if a flight

simulator is used for any portion of the practical test conforms with existing FAA policy." This corrected sentence now parallels § 61.64(b)(4), (d)(4), and (f)(4).

In the final rule, we intended to consolidate and clarify the uses of flight simulators and flight training devices from § 61.63(e), (f), and (g) and § 61.157(g), (h), and (i) into a new § 61.64 without substantive changes to the uses of or prerequisite eligibility requirements to flight simulators and flight training devices. However, the language used in § 61.64(a)(1)(iii), (c)(1)(iii), and (e)(1)(iii) requires the use of a qualified and approved Level C flight simulator if a flight simulator is used for "any portion of the practical test." This change from the previous requirement in § 61.63 and § 61.157 was not intended. We are correcting § 61.64(a)(1)(iii), (c)(1)(iii), and (e)(1)(iii) to require the use of a qualified and approved Level C flight simulator if a flight simulator is used for the entire practical test, as previously required.

Additionally, when we established § 61.64(a)(2) and § 61.64(a)(3), we inadvertently omitted one of the prerequisite eligibility requirements from old § 61.63(e)(4)(ii)(C) and § 61.157(g)(3)(ii)(C). We are correcting § 61.64(a)(2) and § 61.64(a)(3) to add the previously available prerequisite option for pilots who have logged "at least 2,000 hours of flight time, of which 500 hours is in turbine-powered airplanes of the same class of airplane for which the type rating is sought."

In the final rule, we inadvertently omitted the clarifying phrase "as appropriate" in § 61.64(a)(4). To prevent any confusion as to the intent of the rule, we are adding the clarifying phrase "as appropriate" in § 61.64(a)(4). This section applies when the applicant does not meet the prerequisite eligibility requirement for either a turbojet airplane or a turbo-propeller type rating.

We are making a formatting revision to the rule text in § 61.64(a)(4)(i), (c)(3)(i), and (e)(3)(i) by replacing the period at the end of the paragraph and replace it with semicolon and adding the word "or". We are also modifying the text in § 61.64(a)(4)(ii), (c)(3)(ii), and (e)(3)(ii). These changes will clarify that the rule still provides for partial use of the aircraft for performing the preflight inspection, normal takeoff, normal instrument landing system approach, missed approach, and normal landing tasks, or the applicant will receive the supervised operating experience.

We are also making a minor correction to § 61.19(b)(3). Section 61.19(b)(3) provides that for student pilots seeking a glider or balloon rating

that the student pilot certificate does not expire until 60 calendar months after the month of the date issued, regardless of the person's age. Because a sport pilot certificate holder is not required to hold a medical certificate, we are including student pilots seeking a sport pilot certificate in this rule.

We are also making a further clarification to § 61.157(f)(2)(ii) and (iii). The purpose of this correction is to clarify that an Aircrew Program Designee or Training Center Evaluator may be authorized to conduct competency and/or proficiency checks required under part 121, part 135, or subpart K of part 91.

Corrections

In the FR Document E9-19353 that appeared in the **Federal Register** on Friday, August 21, 2009, make the following corrections:

A. Correction to the Preamble

1. On page 42522, third column, fifth complete paragraph, revise the first sentence to read, "The requirement that a minimum of a Level 5 flight training device be used if a flight simulator is used for any portion of the practical test conforms with existing FAA policy."

B. Corrections to the Regulatory Text

§ 61.3 [Corrected]

■ 1. On page 42546, third column, revise amendatory instruction 4 to read as follows:

■ 4. Amend § 61.3 by revising paragraphs (a) introductory text, (a)(1), (a)(2)(i), (b) introductory text, (b)(1), (c)(1), (c)(2)(ii), (c)(2)(iii), (c)(2)(v) introductory text, (c)(2)(xi), (f)(1)(i), (f)(2)(i), (f)(2)(ii), (g)(1)(i), (g)(2)(i), and (g)(2)(ii) and by adding a new paragraph (c)(2)(xii) to read as follows:

■ 2. On page 42547, second column, in the amendment to § 61.19, revise paragraph (b)(3) to read as follows:

§ 61.19 Duration of pilot and instructor certificates.

* * * * *

(b) * * *

(3) For student pilots seeking a glider rating, balloon rating, or a sport pilot certificate, the student pilot certificate does not expire until 60 calendar months after the month of the date issued, regardless of the person's age.

* * * * *

■ 3. On page 42553, first and second columns, in the amendment to § 61.64;

■ A. Revise paragraph (a)(1)(iii);

■ B. Remove the word "or" after the semicolon in paragraph (a)(2)(iii);

■ C. Remove the period after paragraph (a)(2)(iv) and add "; or" in its place;

- D. Add paragraph (a)(2)(v);
 - E. Remove the word "or" after the semicolon in paragraph (a)(3)(iii);
 - F. Remove the period after paragraph (a)(3)(iv) and add "; or" in its place;
 - G. Add paragraph (a)(3)(v);
 - H. Amend paragraph (a)(4) introductory text by adding the phrase "as appropriate" after the phrase "of this section";
 - I. Remove the period after paragraph (a)(4)(i) and add "; or" in its place;
 - J. Revise paragraph (a)(4)(ii);
 - K. Remove the period after paragraph (c)(3)(i) and add "; or" in its place;
 - L. Revise paragraph (c)(3)(ii);
 - M. Remove the period after paragraph (e)(3)(i) and add "; or" in its place;
 - N. Revise paragraph (e)(3)(ii);
 - O. Revise paragraph (c)(1)(iii); and
 - P. Revise paragraph (e)(1)(iii).
- The corrections read as follows:

§ 61.64 Use of a flight simulator and flight training device.

- (a) * * *
- (1) * * *
- (iii) At a minimum, must be qualified and approved as a Level C flight simulator if the applicant performs the entire practical test in a flight simulator; and
- * * * * *
- (2) * * *
- (v) Have logged at least 2,000 hours of flight time, of which 500 hours were in turbine-powered airplanes of the same class of airplane for which the type rating is sought.
- (3) * * *
- (v) Have logged at least 2,000 hours of flight time, of which 500 hours were in turbine-powered airplanes of the same class of airplane for which the type rating is sought.
- (4) * * *
- (ii) The applicant's pilot certificate will be issued with a limitation that states:
 "The [name the category, class, and type of airplane rating (if a type rating is applicable)] is subject to additional pilot in command limitations," and the applicant is restricted from serving as pilot in command in that category, class, and type of airplane rating (if a type rating is applicable).
- * * * * *
- (c) * * *
- (1) * * *
- (iii) At a minimum, must be qualified and approved as a Level C flight simulator if the applicant performs the entire practical test in a flight simulator; and
- * * * * *
- (3) * * *
- (ii) The applicant's pilot certificate will be issued with a limitation that

- states: "The [name the helicopter class and type of helicopter rating (if a type rating is applicable)] is subject to additional pilot in command limitations," and the applicant is restricted from serving as pilot in command in that helicopter class and type of helicopter rating (if a type rating is applicable).
- * * * * *
- (e) * * *
- (1) * * *
- (iii) At a minimum, must be qualified and approved as a Level C flight simulator if the applicant performs the entire practical test in a flight simulator; and
- * * * * *
- (3) * * *
- (ii) The applicant's pilot certificate will be issued with a limitation that states: "The [name of the category and powered-lift rating (if a type rating is applicable)] is subject to additional pilot in command limitations," and the applicant is restricted from serving as pilot in command in that category and type of powered-lift rating (if a type rating is applicable).
- * * * * *
- 4. On page 42558, first column, add new instruction 29a with an amendment to § 61.99 to read as follows:
- 29a. Amend § 61.99 by revising paragraph (a)(2) to read as follows:
- § 61.99 Aeronautical experience.**
- (a) * * *
- (2) Three hours of flight training with an authorized instructor in the aircraft for the rating sought in preparation for the practical test within the preceding 2 calendar months from the month of the test.
- * * * * *
- 5. On page 42558, second column, revise amendatory instruction 32 and its amendments to § 61.109 to read as follows:
- 32. Amend § 61.109 by revising paragraphs (a)(4), (a)(5)(ii), (b)(4), (b)(5)(ii), (c)(3), (c)(4)(ii), (d)(3), (d)(4)(ii), (e)(4), (e)(5)(ii), (f)(1)(i), (f)(2)(ii), (g)(3), (h)(1)(i), (h)(2)(i), (i)(3), and (j)(3) to read as follows:
- § 61.109 Aeronautical experience.**
- (a) * * *
- (4) 3 hours of flight training with an authorized instructor in a single-engine airplane in preparation for the practical test, which must have been performed within the preceding 2 calendar months from the month of the test; and
- (5) * * *
- (ii) One solo cross country flight of 150 nautical miles total distance, with full-stop landings at three points, and

- one segment of the flight consisting of a straight-line distance of more than 50 nautical miles between the takeoff and landing locations; and
- * * * * *
- (b) * * *
- (4) 3 hours of flight training with an authorized instructor in a multiengine airplane in preparation for the practical test, which must have been performed within the preceding 2 calendar months from the month of the test; and
- (5) * * *
- (ii) One solo cross country flight of 150 nautical miles total distance, with full-stop landings at three points, and one segment of the flight consisting of a straight-line distance of more than 50 nautical miles between the takeoff and landing locations; and
- * * * * *
- (c) * * *
- (3) 3 hours of flight training with an authorized instructor in a helicopter in preparation for the practical test, which must have been performed within the preceding 2 calendar months from the month of the test; and
- (4) * * *
- (ii) One solo cross country flight of 100 nautical miles total distance, with landings at three points, and one segment of the flight being a straight-line distance of more than 25 nautical miles between the takeoff and landing locations; and
- * * * * *
- (d) * * *
- (3) 3 hours of flight training with an authorized instructor in a gyroplane in preparation for the practical test, which must have been performed within the preceding 2 calendar months from the month of the test; and
- (4) * * *
- (ii) One solo cross country flight of 100 nautical miles total distance, with landings at three points, and one segment of the flight being a straight-line distance of more than 25 nautical miles between the takeoff and landing locations; and
- * * * * *
- (e) * * *
- (4) 3 hours of flight training with an authorized instructor in a powered-lift in preparation for the practical test, which must have been performed within the preceding 2 calendar months from the month of the test; and
- (5) * * *
- (ii) One solo cross country flight of 150 nautical miles total distance, with full-stop landings at three points, and one segment of the flight consisting of a straight-line distance of more than 50 nautical miles between the takeoff and landing locations; and
- * * * * *

(f) * * *

(1) * * *

(i) 20 flights in a glider in the areas of operations listed in § 61.107(b)(6) of this part, including at least 3 training flights with an authorized instructor in a glider in preparation for the practical test that must have been performed within the preceding 2 calendar months from the month of the test; and

* * * * *

(2) * * *

(ii) 3 training flights with an authorized instructor in a glider in preparation for the practical test that must have been performed within the preceding 2 calendar months from the month of the test.

(g) * * *

(3) Three hours of flight training with an authorized instructor in an airship in preparation for the practical test within the preceding 2 calendar months from the month of the test; and

* * * * *

(h) * * *

(1) * * *

(i) At least one training flight with an authorized instructor in a gas balloon in preparation for the practical test within the preceding 2 calendar months from the month of the test;

* * * * *

(2) * * *

(i) At least two training flights of 1 hour each with an authorized instructor in a balloon with an airborne heater in preparation for the practical test within the preceding 2 calendar months from the month of the test;

* * * * *

(i) * * *

(3) Three hours of flight training with an authorized instructor in a powered parachute in preparation for the practical test, which must have been performed within the preceding 2 calendar months from the month of the test; and

* * * * *

(j) * * *

(3) Three hours of flight training with an authorized instructor in a weight-shift-control aircraft in preparation for the practical test, which must have been performed within the preceding 2 calendar months from the month of the test; and

* * * * *

■ 6. On page 42558, third column, revise amendatory instruction 34 and its amendments to § 61.129 to read as follows:

■ 34. Amend § 61.129 by revising paragraphs (a)(3)(i), (a)(3)(iii), (a)(3)(iv), (a)(3)(v), (a)(4) introductory text, (b)(3)(i), (b)(3)(iii), (b)(3)(iv), (b)(3)(v),

(c)(3)(i) through (iv), (c)(4) introductory text, (d)(3)(i) through (iv), (d)(4) introductory text, (e)(3)(i) through (iv), (e)(4) introductory text, (f)(1)(i), (f)(2)(i), (g)(2) introductory text, (g)(3), (g)(4)(i) through (iii), (h)(4)(i)(A), (h)(4)(ii)(A), and (i)(3) to read as follows:

§ 61.129 Aeronautical experience.

(a) * * *

(3) * * *

(i) Ten hours of instrument training using a view-limiting device including attitude instrument flying, partial panel skills, recovery from unusual flight attitudes, and intercepting and tracking navigational systems. Five hours of the 10 hours required on instrument training must be in a single engine airplane;

* * * * *

(iii) One 2-hour cross country flight in a single engine airplane in daytime conditions that consists of a total straight-line distance of more than 100 nautical miles from the original point of departure;

(iv) One 2-hour cross country flight in a single engine airplane in nighttime conditions that consists of a total straight-line distance of more than 100 nautical miles from the original point of departure; and

(v) Three hours in a single-engine airplane with an authorized instructor in preparation for the practical test within the preceding 2 calendar months from the month of the test.

(4) Ten hours of solo flight time in a single engine airplane or 10 hours of flight time performing the duties of pilot in command in a single engine airplane with an authorized instructor on board (either of which may be credited towards the flight time requirement under paragraph (a)(2) of this section), on the areas of operation listed under § 61.127(b)(1) that include—

* * * * *

(b) * * *

(3) * * *

(i) Ten hours of instrument training using a view-limiting device including attitude instrument flying, partial panel skills, recovery from unusual flight attitudes, and intercepting and tracking navigational systems. Five hours of the 10 hours required on instrument training must be in a multiengine airplane;

* * * * *

(iii) One 2-hour cross country flight in a multiengine airplane in daytime conditions that consists of a total straight-line distance of more than 100 nautical miles from the original point of departure;

(iv) One 2-hour cross country flight in a multiengine airplane in nighttime

conditions that consists of a total straight-line distance of more than 100 nautical miles from the original point of departure; and

(v) Three hours in a multiengine airplane with an authorized instructor in preparation for the practical test within the preceding 2 calendar months from the month of the test.

(c) * * *

(3) * * *

(i) Five hours on the control and maneuvering of a helicopter solely by reference to instruments using a view-limiting device including attitude instrument flying, partial panel skills, recovery from unusual flight attitudes, and intercepting and tracking navigational systems. This aeronautical experience may be performed in an aircraft, flight simulator, flight training device, or an aviation training device;

(ii) One 2-hour cross country flight in a helicopter in daytime conditions that consists of a total straight-line distance of more than 50 nautical miles from the original point of departure;

(iii) One 2-hour cross country flight in a helicopter in nighttime conditions that consists of a total straight-line distance of more than 50 nautical miles from the original point of departure; and

(iv) Three hours in a helicopter with an authorized instructor in preparation for the practical test within the preceding 2 calendar months from the month of the test.

(4) Ten hours of solo flight time in a helicopter or 10 hours of flight time performing the duties of pilot in command in a helicopter with an authorized instructor on board (either of which may be credited towards the flight time requirement under paragraph (c)(2) of this section), on the areas of operation listed under § 61.127(b)(3) that includes—

* * * * *

(d) * * *

(3) * * *

(i) 2.5 hours on the control and maneuvering of a gyroplane solely by reference to instruments using a view-limiting device including attitude instrument flying, partial panel skills, recovery from unusual flight attitudes, and intercepting and tracking navigational systems. This aeronautical experience may be performed in an aircraft, flight simulator, flight training device, or an aviation training device;

(ii) One 2-hour cross country flight in a gyroplane in daytime conditions that consists of a total straight-line distance of more than 50 nautical miles from the original point of departure;

(iii) Two hours of flight training during nighttime conditions in a

gyroplane at an airport, that includes 10 takeoffs and 10 landings to a full stop (with each landing involving a flight in the traffic pattern); and

(iv) Three hours in a gyroplane with an authorized instructor in preparation for the practical test within the preceding 2 calendar months from the month of the test.

(4) Ten hours of solo flight time in a gyroplane or 10 hours of flight time performing the duties of pilot in command in a gyroplane with an authorized instructor on board (either of which may be credited towards the flight time requirement under paragraph (d)(2) of this section), on the areas of operation listed in § 61.127(b)(4) that includes—

* * * * *

(e) * * *

(3) * * *

(i) Ten hours of instrument training using a view-limiting device including attitude instrument flying, partial panel skills, recovery from unusual flight attitudes, and intercepting and tracking navigational systems. Five hours of the 10 hours required on instrument training must be in a powered-lift;

(ii) One 2-hour cross country flight in a powered-lift in daytime conditions that consists of a total straight-line distance of more than 100 nautical miles from the original point of departure;

(iii) One 2-hour cross country flight in a powered-lift in nighttime conditions that consists of a total straight-line distance of more than 100 nautical miles from the original point of departure; and

(iv) 3 hours in a powered-lift with an authorized instructor in preparation for the practical test within the preceding 2 calendar months from the month of the test.

(4) Ten hours of solo flight time in a powered-lift or 10 hours of flight time performing the duties of pilot in command in a powered-lift with an authorized instructor on board (either of which may be credited towards the flight time requirement under paragraph (e)(2) of this section, on the areas of operation listed in § 61.127(b)(5) that includes—

* * * * *

(f) * * *

(1) * * *

(i) Three hours of flight training in a glider with an authorized instructor or 10 training flights in a glider with an authorized instructor on the areas of operation listed in § 61.127(b)(6) of this

part, including at least 3 training flights in a glider with an authorized instructor in preparation for the practical test within the preceding 2 calendar months from the month of the test; and

* * * * *

(2) * * *

(i) Three hours of flight training in a glider or 10 training flights in a glider with an authorized instructor on the areas of operation listed in § 61.127(b)(6) of this part including at least 3 training flights in a glider with an authorized instructor in preparation for the practical test within the preceding 2 calendar months from the month of the test; and

* * * * *

(g) * * *

(2) Thirty hours of pilot in command flight time in airships or performing the duties of pilot in command in an airship with an authorized instructor aboard, which consists of—

* * * * *

(3) Forty hours of instrument time to include—

(i) Instrument training using a view-limiting device for attitude instrument flying, partial panel skills, recovery from unusual flight attitudes, and intercepting and tracking navigational systems; and

(ii) Twenty hours of instrument flight time, of which 10 hours must be in flight in airships.

(4) * * *

(i) Three hours in an airship with an authorized instructor in preparation for the practical test within the preceding 2 calendar months from the month of the test;

(ii) One hour cross country flight in an airship in daytime conditions that consists of a total straight-line distance of more than 25 nautical miles from the point of departure; and

(iii) One hour cross country flight in an airship in nighttime conditions that consists of a total straight-line distance of more than 25 nautical miles from the point of departure.

(h) * * *

(4) * * *

(i) * * *

(A) Two training flights of 2 hours each in a gas balloon with an authorized instructor in preparation for the practical test within the preceding 2 calendar months from the month of the test;

* * * * *

(ii) * * *

(A) Two training flights of 1 hour each in a balloon with an airborne heater with an authorized instructor in preparation for the practical test within the preceding 2 calendar months from the month of the test;

* * * * *

(i) * * *

(3) Except when fewer hours are approved by the FAA, an applicant for the commercial pilot certificate with the airplane or powered-lift rating who has completed 190 hours of aeronautical experience is considered to have met the total aeronautical experience requirements of this section, provided the applicant satisfactorily completed an approved commercial pilot course under part 142 of this chapter and the approved course was appropriate to the commercial pilot certificate and aircraft rating sought.

■ 7. On page 42560, third column, in the amendment to § 61.157, revise paragraphs (f)(2)(ii) and (iii) to read as follows:

§ 61.157 Flight proficiency.

* * * * *

(f) * * *

(2) * * *

(ii) An Aircrew Program Designee who is authorized to perform proficiency and/or competency checks for the air carrier whose approved training program has been satisfactorily completed by the pilot applicant.

(iii) A Training Center Evaluator with appropriate certification authority who is also authorized to perform the portions of the competency and/or proficiency checks required by paragraph (f)(1) of this section for the air carrier whose approved training program has been satisfactorily completed by the pilot applicant.

* * * * *

■ 8. On page 42562, third column, add new instruction 48a with an amendment to § 61.313 to read as follows:

■ 48a. Amend § 61.313 by revising paragraphs (a)(1)(iv), (b)(1)(ii), (c)(1)(ii), (d)(1)(iv), (e)(1)(iv), (f)(1)(ii), (g)(1)(v), and (h)(1)(iv) to read as follows:

§ 61.313 What aeronautical experience must I have to apply for a sport pilot certificate?

* * * * *

If you are applying for a sport pilot certificate with * * *	Then you must log at least * * *	Which must include at least * * *
(a) * * *	(1) * * *	(iv) 3 hours of flight training with an authorized instructor on those areas of operation specified in §61.311 in preparation for the practical test within the preceding 2 calendar months from the month of the test.
(b) * * *	(1) * * *	(ii) 3 hours of flight training with an authorized instructor on those areas of operation specified in §61.311 in preparation for the practical test within the preceding 2 calendar months from the month of the test.
(c) * * *	(1) * * *	(ii) 3 hours of flight training with an authorized instructor on those areas of operation specified in §61.311, in preparation for the practical test within the preceding 2 calendar months from the month of the test.
(d) * * *	(1) * * *	(iv) 3 hours of flight training with an authorized instructor on those areas of operation specified in §61.311 in preparation for the practical test within the preceding 2 calendar months from the month of the test.
(e) * * *	(1) * * *	(iv) 3 hours of flight training with an authorized instructor on those areas of operation specified in §61.311 in preparation for the practical test within the preceding 2 calendar months from the month of the test.
(f) * * *	(1) * * *	(ii) 3 hours of flight training with an authorized instructor on those areas of operation specified in §61.311 in preparation for the practical test within the preceding 2 calendar months from the month of the test.
(g) * * *	(1) * * *	(v) 3 hours of flight training with an authorized instructor on those areas of operation specified in §61.311 in preparation for the practical test within the preceding 2 calendar months from the month of the test.
(h) * * *	(1) * * *	(iv) 3 hours of flight training with an authorized instructor on those areas of operation specified in §61.311 in preparation for the practical test within the preceding 2 calendar months from the month of the test.

Issued in Washington, DC, on October 15, 2009.

14 CFR Part 71

[Docket No. FAA-2009-0311; Airspace
 Docket No. 09-ANM-3]

RIN 2120-AA66

Establishment of VOR Federal Airway V-626; UT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes VOR Federal Airway 626 (V-626) located between the Myton, UT, Very High Frequency Omnidirectional Range/Tactical Air Navigation (VORTAC) and the Salt Lake City terminal area. This route will improve aircraft flow during busy traffic periods into the Salt Lake City terminal area, and provide a more

precise means of navigation and reduce controller workload.

DATES: *Effective Dates:* 0901 UTC, December 17, 2009. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Ken McElroy, Airspace and Rules Group, Office of System Operations Airspace and AIM, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

History

On May 4, 2009, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to establish a Federal Airway in Utah (74 FR 20443). Interested parties were invited to participate in this rulemaking effort by submitting written comments on this proposal to the FAA. No comments were received in response to this request. Currently the navigational signal on the proposed 267 degree radial is not sufficient to support the segment of the airway. Due to the weak navigational signal coverage on the 267 degree radial, the FAA revised the radial

from the 267 degree radial to the 264 degree radial respectively.

The Rule

The FAA is amending Title 14 Code of Federal Regulations (14 CFR) part 71 to establish VOR Federal Airway 626 (V-626) from the Myton, UT, VORTAC, to the Salt Lake City terminal area. This new route will provide a more precise means of navigation and reduce controller workload.

Domestic VOR Federal Airways are published in paragraph 6010(a) of FAA Order 7400.9T, signed August 27, 2009, and effective September 15, 2009, which is incorporated by reference in 14 CFR 71.1. The domestic VOR Federal Airway listed in this document will be published subsequently in that Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is
