

transmit frequency, channel bandwidth and satellite used shall be time annotated and maintained for a period of not less than 1 year. Records will be recorded at time intervals no greater than every 20 minutes while the ESV is transmitting. The ESV operator will make this data available upon request to a coordinator, fixed system operator, fixed-satellite system operator, NTIA, or the Commission within 24 hours of the request.

13. Section 25.222(a)(5) requires ESV operators communicating with vessels of foreign registry must maintain detailed information on each vessel's country of registry and a point of contact for the relevant administration responsible for licensing ESVs.

14. Section 25.222(b)(3) states there shall be an exhibit included with the application describing the geographic area(s) in which the ESVs will operate.

15. Section 25.222(b)(5) requires that ESVs that exceed the radiation guidelines of Section 1.1310 Radiofrequency radiation exposure limits must provide, with their environmental assessment, a plan for mitigation of radiation exposure to the extent required to meet those guidelines.

The information collection requirements accounted for in this collection are necessary to determine the technical and legal qualifications of applicants or licensees to operate a station, transfer or assign a license, and to determine whether the authorization is in the public interest, convenience and necessity. Without such information, the Commission could not determine whether to permit respondents to provide telecommunication services in the U.S. Therefore, the Commission would be unable to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended, and the obligations imposed on parties to the World Trade Organization (WTO) Basic Telecom Agreement.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

BILLING CODE 6712-01-S

FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 92-237; DA 09-2226]

GSA Approves Renewal of North American Numbering Council Charter Through September 25, 2011

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: On October 16, 2009, the Commission released a public notice announcing GSA's approval of the renewal of the North American Numbering Council charter through September 25, 2011. The intended effect of this action is to make the public aware of the renewal of the North American Numbering Council charter.

DATES: Renewed through September 25, 2011.

ADDRESSES: Competition Policy Division, Wireline Competition Bureau, Federal Communications Commission, The Portals II, 445 12th Street, SW., Suite 5-C162, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Deborah Blue, Special Assistant to the Designated Federal Officer (DFO) at (202) 418-1466 or Deborah.Blue@fcc.gov. The fax number is: (202) 418-1413. The TTY number is: (202) 418-0484.

SUPPLEMENTARY INFORMATION: Released October 16, 2009.

The General Services Administration (GSA) has renewed the charter of the North American Numbering Council (NANC or Council) through September 25, 2011. The Council will continue to advise the Federal Communications Commission (Commission) on rapidly evolving and competitively significant numbering issues facing the telecommunications industry.

In October 1995, the Commission established the NANC, a Federal advisory committee created pursuant to the Federal Advisory Committee Act, 5 U.S.C., App. 2 (1988), to advise the Commission on issues related to North American Numbering Plan (NANP) administration in the United States. The original charter of the Council was effective on October 5, 1995, establishing an initial two-year term. Amended charters were filed on October 5, 1997, October 5, 1999, October 5, 2001, October 5, 2003, September 26, 2005, and September 27, 2007, each renewing the term of the charter for an additional two years.

Since the last charter renewal, the Council has provided the Commission with critically important recommendations regarding number

administration, such as the recommendation regarding the assignment of geographic numbers from the NANP and a central database to support interoperability for Internet-based relay services. In addition, the Council reviewed and recommended technical requirements for a request for proposals associated with a new North American Numbering Plan Administrator (NANPA) contract. The Council also provided detailed evaluations of the current NANPA, the Pooling Administrator (PA) and the Billing and Collection (B&C) Agent. The Council will continue to evaluate the performances of the NANPA, the PA and the B&C Agent on an annual basis. Moreover, the Council is presently considering and formulating recommendations on other important numbering-related issues that will require work beyond the term of the present charter.

The value of this Federal advisory committee to the telecommunications industry and to the American public cannot be overstated. Numbers are the means by which consumers gain access to, and reap the benefits of, the public switched telephone network. The Council's recommendations to the Commission will facilitate fair and efficient number administration in the United States, and will ensure that numbering resources are available to all telecommunications service providers on a fair and equitable basis, consistent with the requirements of the Telecommunications Act of 1996.

Marilyn Jones,

Attorney, Competition Policy Division, Wireline Competition Bureau, Federal Communications Commission.

BILLING CODE 6712-01-P

FEDERAL RESERVE SYSTEM

Change in Bank Control Notices; Acquisition of Shares of Bank or Bank Holding Companies

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. The notices also will be available for inspection at the office of the Board of Governors.

Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than November 9, 2009.

A. Federal Reserve Bank of Kansas City (Todd Offenbacher, Assistant Vice President) 1 Memorial Drive, Kansas City, Missouri 64198-0001:

1. *Philip Eugene Jossi, and Marian Joanne Hardin*, both of Kearney, Nebraska; James Andrew Bodyfield, Ericson, Nebraska; and Keith Weldon Carlson, Lincoln, Nebraska; to acquire voting shares of Riverdale Bancshares, Inc., and thereby indirectly acquire voting shares of State Bank of Riverdale, both in Riverdale, Nebraska.

Board of Governors of the Federal Reserve System, October 20, 2009.

Jennifer J. Johnson,

Secretary of the Board.

BILLING CODE 6210-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Toxicology Program (NTP); Office of Liaison, Policy and Review; Meeting of the NTP Board of Scientific Counselors

AGENCY: National Institute of Environmental Health Sciences (NIEHS), National Institutes of Health, HHS.

ACTION: Meeting announcement and request for comments.

SUMMARY: Pursuant to Public Law 92-463, notice is hereby given of a meeting of the NTP Board of Scientific Counselors (BSC). The BSC is a Federally chartered, external advisory group composed of scientists from the public and private sectors that provides primary scientific oversight to the NTP Director and evaluates the scientific merit of the NTP's intramural and collaborative programs.

DATES: The BSC meeting will be held on December 9-10, 2009. The deadline for submission of written comments is November 25, 2009, and for pre-registration to attend the meeting, including registering to present oral comments, is December 2, 2009. Persons needing interpreting services in order to attend should contact 301-402-8180 (voice) or 301-435-1908 (TTY). For other accommodations while on the NIEHS campus, contact 919-541-2475 or e-mail niehsoeeo@niehs.nih.gov. Requests should be made at least 7 business days in advance of the event.

ADDRESSES: The BSC meeting will be held in the Rodbell Auditorium, Rall Building at the NIEHS, 111 T.W. Alexander Drive, Research Triangle Park, NC 27709. Public comments on all agenda topics and any other correspondence should be submitted to Dr. Barbara Shane, Executive Secretary for the BSC, NTP Office of Liaison, Policy and Review, NIEHS, P.O. Box 12233, K2-03, Research Triangle Park, NC 27709; telephone: 919-541-4253; fax: 919-541-0295; e-mail: shane@niehs.nih.gov. Courier address: NIEHS, 530 Davis Drive, Room K2138, Morrisville, NC 27560.

FOR FURTHER INFORMATION CONTACT: Dr. Barbara Shane (telephone: 919-541-4253 or e-mail: shane@niehs.nih.gov).

SUPPLEMENTARY INFORMATION:

Preliminary Agenda Topics and Availability of Meeting Materials

- Report of the NTP Director.
- NTP Update.
- NTP Testing Program: Nominations and proposed research projects on Butterbur, Evening primrose oil, Hydroquinone, Silica flour, and Valerian extracts and oil.
- Review of the NTP Host Susceptibility Program.
- NTP's Use of Contracts in the Testing Program.
- Concept Contract Review for Chemistry Services to the NTP.
- Concept Contract Review for NTP Reproductive and Developmental Toxicology and Perinatal Carcinogenicity Studies.
- NTP Evaluation Process.
- Update from the Center for the Evaluation of Risks to Human Reproduction.
- NTP's Dietary Supplements and Herbal Medicines Initiative.

The preliminary agenda, roster of BSC members and *ad hoc* reviewers, background materials for agenda topics, public comments, and any additional information, when available, will be posted on the BSC meeting Web site (<http://ntp.niehs.nih.gov/go/165>) or may be requested in hardcopy from the Executive Secretary for the BSC (see **ADDRESSES** above). Updates to the agenda will also be posted to this site. Following the meeting, summary minutes will be prepared and made available on the BSC meeting Web site.

NTP Testing Program: Nominations and Proposed Research Projects

The NTP actively seeks to identify and select for study chemicals and other substances for which sufficient information is not available to adequately evaluate potential human

health hazards. The NTP accomplishes this goal through a formal, open nomination and selection process. Substances considered appropriate for study generally fall into two broad, yet overlapping categories: (1) Substances judged to have high concern as possible public health hazards based on the extent of human exposure and/or suspicion of toxicity and (2) substances for which toxicological data gaps exist and additional studies would aid in assessing potential human health risks, e.g., by facilitating cross-species extrapolation or evaluating dose-response relationships. Nominations are subject to a multi-step, formal process of review before selections for testing are made and toxicological studies are designed and implemented. The nomination review and selection process is accomplished through the participation of representatives from the NIEHS, other Federal agencies represented on the Interagency Committee for Chemical Evaluation and Coordination (ICCEC)—the NTP Federal interagency review committee for NTP study nominations, the BSC, the NTP Executive Committee—the NTP Federal interagency policy body, and the public. The nomination review and selection process is described in further detail on the NTP Web site (<http://ntp.niehs.nih.gov/>, select "Nominations to the Testing Program").

Table 1 lists new nominations to be reviewed at the BSC meeting. Background documents for each nomination are available on the NTP Web site <http://ntp.niehs.nih.gov/go/nom>. The NTP invites interested parties to submit written comments, provide supplementary information, or present oral comments at the BSC meeting on the nominated substances and preliminary study recommendations (see "Request for Comments" below). The NTP welcomes toxicology study information from completed, ongoing, or anticipated studies, as well as information on current U.S. production levels, use or consumption patterns, human exposure, environmental occurrence, or public health concerns for any of the nominated substances. The NTP is interested in identifying appropriate animal and non-animal experimental models for mechanistic-based research, including genetically modified rodents and high-throughput *in vitro* test methods, and as such, solicits comments regarding the use of specific *in vivo* and *in vitro* experimental approaches to address questions relevant to the nominated substances and issues under consideration. Although the deadline
