In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for an extension of a waiver of compliance from certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Union Pacific Railroad Company

[Docket Number FRA-2007-27322]

Pursuant to 49 CFR 211.41 and 211.51, by letter dated November 13, 2007, FRA authorized the Union Pacific Railroad Company (UP) to conduct field testing of its processor-based train control system identified as the Vital-Train Management System (V-TMS). By letter dated August 3, 2009, UP has requested that FRA extend the regulatory relief granted in order to continue field testing of its V-TMS system until December 31, 2015, or until such time as the relief is superseded by an FRA approved Positive Train Control Implementation Plan (PTCIP) and any other filings required in accordance with final regulations implementing § 104 of the Rail Safety Improvement Act of 2008 (codified at 49 U.S.C. 20157).

A request for an informational filing extension, as required under 49 CFR Part 236, subpart H, has also been prepared and submitted in conjunction with this waiver extension request and can be found in the same docket (FRA-2007-27322) as this waiver extension request. Title of Proposal: Risk-Based Capital Standards: Advanced Capital Adequacy Framework.

OMB Number: 1550-0115.

Form Number: N/A.

Description: On December 7, 2007, the Office of Thrift Supervision, the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation issued the joint final rule titled Risk-Based Capital Standards: Advanced Capital Adequacy Framework (rule) implementing a new risk-based regulatory capital framework for institutions in the United States (72 FR 69288). The rule is based on the June 2004 Basel Committee on Banking Supervision's document, "International Convergence of Capital Measurement and Capital Standards: A Revised Framework" (New Accord).

The OTS is now issuing a 30-Day **Federal Register** Notice to implement Basel II for institutions in the United States. The rule sets forth a new risk-based capital adequacy framework that would require some savings associations and allow other qualifying savings associations to use an internal ratings-based approach to calculate regulatory credit risk capital requirements and advanced measurement approaches to calculate regulatory operational risk capital requirements. Information collection requirements in the proposed rule are found in Appendix F, Sections 21-23, 42, 44, 53, and 71. The collections of information are necessary in order to implement Basel II.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit.
