

document will be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code.

Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Monkfish Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS is proposing a regulatory amendment to the Monkfish Fishery Management Plan (FMP) to allow projects funded through the Monkfish Research Set-Aside (RSA) Program to carryover unused monkfish RSA days-at-sea (DAS) into the following fishing year. Given the most recent information on the status of monkfish stocks, the regulation that prohibits monkfish RSA DAS to be carried over to the next fishing year is no longer necessary. In addition, this action would provide researchers with flexibility to complete research funded through the Monkfish RSA Program.

DATES: Written comments must be received no later than 5 p.m. eastern standard time, on November 25, 2009.

ADDRESSES: You may submit comments, identified by RIN number 0648–AY01, by any of the following methods:
