Background: In his letter the USTR requested, under the authority of section 332(g) of the Tariff Act of 1930, that the Commission provide three reports during the next 12 months relating to small- and medium-sized enterprises. In this notice the Commission is instituting the first of three investigations under section 332(g) for the purpose of preparing the first report, which is to be transmitted to the USTR by January 12, 2010. The Commission will institute separate investigations under section 332(g) at later dates for the purpose of preparing the second and third reports.

In the first report the Commission will, as requested, provide an overview of the current state of SMEs' participation in U.S. exports. The report will describe, to the extent possible, characteristics of SMEs, their exports, and their role in generating employment and economic activity in the U.S. economy. The report will focus on merchandise and services exports by U.S. SMEs, providing information on the value of SME exports, products and sectors involved, large markets for U.S. SMEs' exports, and how SME exports have changed over time with respect to these factors. The Commission will also seek to identify gaps in currently available data that may inhibit a more comprehensive understanding of SME participation in export trade.
