Title: NSPS for Hot Mix Asphalt Facilities (Renewal).

ICR Numbers: EPA ICR Number 1127.09, OMB Control Number 2060-0083.

ICR Status: This ICR is scheduled to expire on April 30, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a

currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The New Source Performance Standards (NSPS) for Hot Mix Asphalt Facilities (40 CFR Part 60, Subpart I) were proposed on June 11, 1973, promulgated on July 25, 1977, and amended on April 10, 1986.

The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A and any changes, or additions to the General Provisions specified at 40 CFR part 60, subpart I.

Owners or operators of the affected facilities must make an initial notification, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average four hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Hot Mix asphalt facilities.

Estimated Number of Respondents: 4,010.

Frequency of Response: Initially and occasionally.

Estimated Total Annual Hour Burden: 17,740.

Estimated Total Annual Cost: \$1,431,455 inclusive of Labor costs.

There are no annualized capital/startup or O&M costs associated with this ICR.

Changes in the Estimates: There is no change in the estimation methodology for labor hours or cost to the respondents in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for respondents is very low, negative, or non-existent.

The previous approved ICR renewal indicated 17,318 annual labor hours; it was determined that the number of indicated hours was based on a calculation error. The slight increase in burden is due to a correction in the total amount of labor hours from 17,318 to 17,740 per year.

Dated: February 10, 2009.

Acting Director, Collection Strategies Division.
