### Schedule of Fees for Access to NOAA Environmental Data, Information, and Related Products and Services

**AGENCY:** National Environmental Satellite, Data and Information Service (NESDIS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

**ACTION:** Final rule.

**SUMMARY:** In this final rule, NESDIS establishes a new schedule of fees for the sale of its data, information, and related products and services to users. NESDIS is revising the fee schedule to ensure that the fees accurately reflect the costs of providing access to the environmental data, information, and related products and services. NESDIS is authorized under 15 U.S.C. 1534 to assess fees, up to fair market value, for access to environmental data, information, and products derived from, collected, and/or archived by NOAA. Other than depreciation, costs to upgrade computer hardware and software systems will not be included in the fees charged to users.

**DATES:** *Effective Date:* May 1, 2009.

**FOR FURTHER INFORMATION CONTACT:** Linda Neely (301) 713-3305.

**SUPPLEMENTARY INFORMATION:**

## Background

NESDIS operates NOAA's National Data Centers for Climate, Geophysics, Oceans, and Coasts. Through these Data Centers, NESDIS provides and ensures timely access to global environmental data from satellites and other sources, provides information services, and develops science products.

NESDIS maintains some 1,300 data bases containing over 2,400 environmental variables at three National Data Centers and seven World Data Centers. These centers respond to over 2,000,000 requests for these data and products annually from over 70 countries. This collection of environmental data and products is growing exponentially, both in size and sophistication.

Users have the ability to access the data offline, online and through the NESDIS e-Commerce System (NeS) online store. Our ability to provide these data, information, products and services depends on user fees.

## New Fee Schedule

The new fee schedule lists both the current fee charged for each item and the new fee to be charged to users that will take effect beginning May 1, 2009. The schedule applies to the listed services provided by NESDIS on or after this date, except for products and services covered by a subscription agreement in effect as of this date that extends beyond this date. In those cases, the increased fees will apply upon renewal of the subscription agreement or at the earliest amendment date provided by the agreement.

NESDIS will continue to review the user fees periodically, and will revise such fees as necessary. Any future changes in the user fees and their effective date will be announced through notice in the **Federal Register**.

## Classification

This rule has been determined to be not significant for purposes of E.O. 12866. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking and the opportunity for public participation are inapplicable because this rule falls within the proprietary exception of subparagraph (a)(2) of section 553. Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under 5 U.S.C. 553 or by any other law, the requirements of

the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable.

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

In a notice published in the **Federal Register** of October 4, 2007 (72 FR 56768), FDA announced that a food additive petition (FAP 7A4769) had been filed by Dean Foods Co., c/o Hogan and Hartson LLP, 555 13th St., NW., Washington, DC 20004-1109. The petition proposed to amend the food additive regulations in part 172 (21 CFR part 172) *Food Additives Permitted for Direct Addition to Food for Human Consumption* to provide for the safe use of vitamin D<sub>2</sub> as a nutrient supplement in soy-based food products. The petition pertains only to the use of crystalline vitamin D<sub>2</sub> and not the resin form of the vitamin. Foods identified in the petition are soy beverages, soy beverage products, soy-based butter substitute spreads, soy-based cheese substitutes, and soy-based cheese substitute products. The petitioner requested that part 172 be amended to permit the use of crystalline vitamin D<sub>2</sub> as a nutrient supplement at levels not to exceed 50 International Units (IU) per 100 grams (g) of soy beverages, 89 IU per 100 g of soy beverage products, 330 IU per 100 g of soy-based butter substitute spreads, and 270 IU per 100 g of soy-based cheese substitutes and soy-based cheese substitute products.

Vitamin D<sup>1</sup>, including vitamin D<sub>2</sub>, is affirmed as generally recognized as safe (GRAS) for use in food under 21 CFR 184.1950 (§ 184.1950) with the following specific limitations:

Category of Food	Maximum Levels in Food (as Served)
Breakfast cereals	350 International Units (IU)/100 grams (g)

<sup>1</sup> Vitamin D comprises a group of fat-soluble secosterols and comes in many forms. The two major physiologically relevant forms are vitamin D<sub>2</sub> and

vitamin D<sub>3</sub>. Vitamin D without a subscript represents either D<sub>2</sub> or D<sub>3</sub>. Section 184.1950 includes crystalline vitamin D<sub>2</sub>, crystalline vitamin

D<sub>3</sub>, vitamin D<sub>2</sub> resin, and vitamin D<sub>3</sub> resin. Section 172.379, which is established by this rule, includes only crystalline vitamin D<sub>2</sub>.
