III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received no comments in response to the December 31, 2008 **Federal Register** (73 FR 80390; FRL–8395–3) notice announcing the Agency's receipt of the request for voluntary cancellations of fomesafen.

IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested cancellation of fomesafen registrations identified in Table 1 of Unit II. Accordingly, the Agency orders that the fomesafen product registrations identified in Table 1 of Unit II are hereby canceled. Any distribution, sale, or use of existing stocks of the products identified in Table 1 of Unit II in a manner inconsistent with any of the Provisions for Disposition of Existing Stocks set forth in Unit VI, will be considered a violation of FIFRA.

V. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The cancellation order issued in this notice includes the following existing stocks provisions.

Registrants may sell and distribute existing stocks for 1-year from the date of the cancellation request. The products may be sold, distributed, and used by people other than the registrant

until existing stocks have been exhausted, provided that such sale, distribution, and use complies with the EPA-approved label and labeling of the product.
