We do not now plan to hold a public meeting. But you may submit a request for one using one of the four methods specified under **ADDRESSES**. Please explain why you believe a public meeting would be beneficial. Basis and Purpose

This temporary safety zone is necessary to ensure the safety of vessels from the hazards associated with the Tall Ships Fireworks. The Captain of the Port, Sector Lake Michigan, has determined that the Tall Ships Fireworks presents significant risks to public safety and property. The likely combination of congested waterways and a fireworks display could easily result in serious injuries or fatalities.

Discussion of Proposed Rule

The Coast Guard proposes to establish a temporary safety zone on specified waters of Lake Michigan in the vicinity of Chicago Harbor. This safety zone will encompass all navigable waters located off the north east end of Navy Pier, encompassing an area 600 yards by 750 yards bound by a line drawn from 41°53'24" N, 087°35'55" W; then north to 41°53'41" N, 087°35'55" W; then east to 41°53'41" N, 087°35'26" W; then south to 41°53'24" N, 087°35'26" W; then west returning to the point of origin (NAD 83). The proposed rule and associated safety zone is necessary to ensure the safety of vessels and people

during the Tall Ships Fireworks. The proposed safety zone will be enforced only immediately before, during, and immediately after the event and only upon notice by the Captain of the Port, Sector Lake Michigan. The Captain of the Port, Sector Lake Michigan, will use all appropriate means to notify the public when the safety zone will be enforced, including publication in the **Federal Register** in accordance with 33 CFR 165.7(a). Means of notification may also include Broadcast Notice to Mariners or Local Notice to Mariners. The Captain of the Port, Sector Lake Michigan, will issue a Broadcast Notice to Mariners notifying the public when enforcement of the safety zone established by this section is cancelled.

All persons and vessels shall comply with the instructions of the Captain of the Port, Sector Lake Michigan, or his or her designated on-scene representative. Entry into, transiting, or anchoring within the safety zone is prohibited unless authorized by the Captain of the Port, Sector Lake Michigan, or his or her designated on-scene representative. The Captain of the Port, Sector Lake Michigan, or his or her designated on-scene representative may be contacted via VHF Channel 16.

Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

Although this proposed regulation restricts access to the safety zone, it is not a significant regulatory action because the safety zone will be in effect for a minimal amount of time, and vessels may still transit with the permission of the Captain of the Port, Sector Lake Michigan, or his or her designated on-scene representative.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit

organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit or anchor in the specified portion of Chicago Harbor on Lake Michigan from 8:45 p.m. on August 24, 2010, until 9:15 p.m. on August 28, 2010.

This safety zone will not have a significant economic impact on a substantial number of small entities for the following reasons: This safety zone will be in effect for a limited time and enforced for only 30 minutes each night. Plus, vessels may still transit through the zone with the permission of the Captain of the Port, Sector Lake Michigan, or his or her designated on-scene representative. Moreover, the Coast Guard will give notice to the public that the regulation is in effect and when it will be enforced.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (*see* **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact CWO2 Jon K. Grob, Prevention Department, Coast Guard Sector Lake Michigan, Milwaukee, WI at (414) 747–7188. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. Therefore, this rule is categorically excluded, under section 2.B.2, Figure 2–1, paragraph 34(g), of the Instruction. A preliminary environmental analysis checklist supporting this determination is available in the docket where indicated under **ADDRESSES**. This proposed rule involves the establishment of a safety zone around a fireworks display. We seek any comments or information that may lead to the discovery of a

significant environmental impact from this proposed rule.
