

conservation and management of the red snapper component of the Gulf reef fish fishery and that it is consistent with the Magnuson-Stevens Act and other applicable laws.

This final rule has been determined to be not significant for purposes of Executive Order 12866.

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration during the proposed rule stage that this action would not have a significant economic impact on a substantial number of small entities. The factual basis for this certification was published in the proposed rule and is not repeated here. No comments were received regarding this certification. As a result, a regulatory flexibility analysis was not required and none was prepared.

Fisheries of the Exclusive Economic Zone Off Alaska; Individual Fishing Quota Program; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; correction.

SUMMARY: This action corrects the SUPPLEMENTARY INFORMATION section to a final rule published in the **Federal Register** on April 20, 2010, which erroneously waived the 30 day delay in effective date. A 30-day delay in effectiveness will allow fishermen to come into compliance with the terms of the rule, as was originally intended, without compromising any other aspect of the fishery. NMFS will not enforce the requirement that owners be onboard vessels unless otherwise required by statute or regulation.

DATES: Effective May 3, 2010.

FOR FURTHER INFORMATION CONTACT: Patsy A. Bearden, 907-586-7228.

SUPPLEMENTARY INFORMATION:

Need for Correction

In the final rule, published on April 20, 2010, that revised the Individual Fishing Quota Program for the sablefish and halibut fisheries off Alaska (75 FR 20526), make the following correction in the SUPPLEMENTARY INFORMATION section. On page 20527, in the second column, delete this paragraph:

“For the same reasons, the AA finds good cause under 5 U.S.C. 553(d)(3) to waive the 30 day delay in effective date.”

Dated: April 27, 2010.

RIN 0648-XW20

Fisheries of the Economic Exclusive Zone Off Alaska; Deep-Water Species Fishery by Vessels Using Trawl Gear in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for species that comprise the deep-water species fishery by vessels using trawl gear in the Gulf of Alaska (GOA). This action is necessary because the second seasonal apportionment of the Pacific halibut bycatch allowance specified for the deep-water species fishery in the GOA has been reached.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), April 28, 2010, through 1200 hrs, A.l.t., July 1, 2010.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The second seasonal apportionment of the Pacific halibut bycatch allowance specified for the deep-water species fishery in the GOA is 300 metric tons as established by the final 2010 and 2011 harvest specifications for groundfish of the GOA (75 FR 11749, March 12, 2010), for the period 1200 hrs, A.l.t., April 1, 2010, through 1200 hrs, A.l.t., July 1, 2010.

In accordance with § 679.21(d)(7)(i), the Administrator, Alaska Region, NMFS, has determined that the second seasonal apportionment of the Pacific halibut bycatch allowance specified for the trawl deep-water species fishery in the GOA has been reached.

Consequently, NMFS is prohibiting directed fishing for the deep-water species fishery by vessels using trawl gear in the GOA. The species and

species groups that comprise the deep-water species fishery include sablefish, rockfish, deep-water flatfish, rex sole, and arrowtooth flounder. This closure does not apply to fishing by vessels participating in the cooperative fishery in the Rockfish Program for the Central GOA.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA

(AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of the deep-water species fishery by vessels using trawl gear in the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of April 27, 2010.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.21 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 27, 2010.

James P. Burgess

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
